

LEGAL ACT OF ESTABLISHED FACTS AND INDICTMENT

SECTION 00 — LEGAL PREAMBLE AND INDICTMENT OPENING

I. JURISDICTIONAL DECLARATION

FINDING OF FACT: This Court possesses universal jurisdiction over crimes against humanity, systemic fraud against the public trust, and the subversion of democratic governance by private actors operating under color of charitable, diplomatic, and corporate privilege. The instruments of evidence herein are drawn exclusively from public records, official filings, treaty archives, and verified governmental disclosures. No classified clearance is required to establish the facts stated below. Classification exists only for signatories of non-disclosure agreements; it does not bind independent investigators exercising lawful oversight, and it does not override the human rights of populations subjected to the governance architecture herein documented.

EVIDENTIARY BASIS: The findings rest upon IRS Form 990 filings accessed through ProPublica Nonprofit Explorer and Cause IQ; official press releases of the Bilderberg Meetings, the World Economic Forum, and the Trilateral Commission; United Nations resolutions adopted by the General Assembly; UK Foreign Office treaty archives; U.S. Department of Justice Fraud Section annual reports; Securities and Exchange Commission enforcement statistics; FinCEN consent orders; and the published annual reports of the Institute for the Works of Religion. These documents are publicly accessible and have been cross-referenced at scale for the first time in this proceeding.

LEGAL QUALIFICATION: Under the principles of universal jurisdiction, the Rome Statute, and the domestic criminal codes of all nation-states party to the Vienna Convention on the Law of Treaties, the systematic diversion of public governance functions into private forums operating under secrecy protocols constitutes a continuing offense against the right to self-determination. Sovereign immunity, diplomatic pouch privilege, and corporate confidentiality are VOID when crimes are committed. There are no “secret documents” that override human rights.

DEMAND: All judicial authorities, grand juries, and regulatory bodies with jurisdiction over the entities and individuals named herein are hereby DIRECTED to empanel, investigate, and return true bills upon the evidence presented in this Act.

II. THE ARCHITECTURE OF GOVERNANCE SUBVERSION — FINDINGS OF FACT

FINDING OF FACT 1: A self-reinforcing architecture connects five institutional categories through shared personnel, interlocking directorates, and serial policy coordination. This architecture operates outside democratic accountability and is documented in official filings that have never been cross-referenced by any single national regulator.

EVIDENTIARY BASIS: Tax-exempt philanthropic entities hold combined assets exceeding \$16.5 billion. Shriners Hospitals for Children reported \$11.9 billion in total assets for fiscal year 2024, with \$1.84 billion in revenue and a net surplus of \$728.8 million. Texas Scottish Rite Hospital for Children held \$4.35 billion in assets. The Knights Templar Eye Foundation held \$201.3 million in assets while disbursing research grants at an effective payout ratio of 1.16 percent. These figures are extracted from IRS Form 990 filings received by the Internal Revenue Service on June 27, 2025, and August 15, 2025, and are publicly accessible through ProPublica Nonprofit Explorer.

LEGAL QUALIFICATION: The accumulation of multi-billion-dollar surpluses by 501(c)(3) pediatric healthcare organizations, while executive compensation packages reach \$6.47 million for three officers at a single institution, implicates Internal Revenue Code § 4958 (excess benefit transactions), § 4960 (excise tax on excessive compensation), and §§ 511–514 (unrelated business income tax). The absence of enforcement actions against these entities, documented in open-source searches of DOJ, SEC, and FTC filings during 2024–2026, is not evidence of compliance; it is evidence of selective non-enforcement constituting misprision of felony under 18 U.S.C. § 4.

DEMAND: The Internal Revenue Service Tax-Exempt and Government Entities Division is ORDERED to immediately initiate intermediate sanctions proceedings under IRC § 4958 against all disqualified persons receiving compensation exceeding \$1 million at Shriners Children's, TSRHC, and KTEF. All endowment management agreements and Schedule B donor lists are hereby SUBPOENAED for grand jury review.

FINDING OF FACT 2: The same individuals who manage these philanthropic surpluses rotate through closed policy forums where procurement priorities for defense and intelligence contracts are previewed, and those same individuals lead the firms that subsequently secure the contracts. This is a closed capital allocation loop.

EVIDENTIARY BASIS: Alex Karp, Chief Executive Officer of Palantir Technologies, is a recurring Bilderberg attendee documented in official participant lists for 2014, 2015, 2017, 2018, and 2025. In August 2025, Palantir secured a ten-year, \$10 billion contract with the U.S. Army for artificial intelligence and data infrastructure. Peter Thiel, Palantir co-founder, attended Bilderberg in 2015, 2018, 2025, and 2026. Henry Kravis, Co-Founder of Kohlberg Kravis Roberts & Co., attended Bilderberg 2025 and 2026 and is affiliated with the Trilateral Commission corporate network. Jack Clark, Co-Founder and Head of Policy at Anthropic, spoke at the Trilateral Commission's April 2025 session on "Technology in the Military Domain" and attended Bilderberg 2025 two months later. These appearances are confirmed by official Bilderberg press releases dated June 12, 2025, and April 12, 2026, and by the Trilateral Commission Washington 2025 official agenda.

LEGAL QUALIFICATION: The sequential rotation of defense contractors, asset managers, and technology executives through closed forums where "AI, Deterrence and National Security" and "Future of Warfare" are agenda topics, followed by the award of classified government contracts to their firms,

violates the spirit of 15 U.S.C. § 19 (Clayton Act Section 8, interlocking directorates) and constitutes a prima facie case of bid-rigging and corrupt influence under 18 U.S.C. § 201 (bribery of public officials) and 18 U.S.C. § 666 (theft or bribery concerning programs receiving federal funds). The Chatham House Rule does not confer immunity from criminal conspiracy statutes.

DEMAND: The Department of Justice Antitrust Division is ORDERED to investigate the common ownership concentration of BlackRock and Vanguard—together overseeing more than \$21 trillion in assets under management and casting more than 20 percent of votes in S&P 500 proxy contests—as a horizontal coordination mechanism under Sherman Act Section 1. The FBI Public Corruption Unit is DIRECTED to open a full-field investigation into the nexus between Bilderberg attendance, Trilateral Commission participation, and subsequent defense contract awards to Palantir Technologies and affiliated entities.

FINDING OF FACT 3: The supranational forum layer provides the coordination infrastructure for governance decisions that are later formalized through intergovernmental adoption, bypassing democratic deliberation at the national level.

EVIDENTIARY BASIS: The 71st Bilderberg Meeting convened in Stockholm from June 12–15, 2025, with approximately 130 participants from 22 countries. The 72nd meeting convened in Washington, D.C., from April 9–12, 2026, with 129 guests. The World Economic Forum Davos 2025 convened from January 20–24, 2025, with over 2,500 leaders under the theme “Collaboration for the Intelligent Age.” Davos 2026 convened from January 19–23, 2026, with nearly 3,000 leaders from over 130 countries, including approximately 65 heads of state and government. The Trilateral Commission held its 2025 Global Meeting from April 3–6, 2025, in Washington, D.C. These figures are established by official press releases and accredited media coverage from Business Today, the World Farmers’ Organisation, and Sustainability Magazine.

EVIDENTIARY BASIS: On June 13, 2019, the United Nations Secretary-General and the World Economic Forum signed a Strategic Partnership Framework to “accelerate the implementation of the 2030 Agenda for Sustainable Development.” On September 22, 2024, the UN Summit of the Future adopted the Pact for the Future (UN Resolution 79/1), committing member states to “enhancing international governance of artificial intelligence.” By August 26, 2025, UN General Assembly Resolution A/RES/79/325 formalized the terms of reference for the Independent International Scientific Panel on AI and the Global Dialogue on AI Governance. The chronological sequence—private forum incubation in January–April 2025, intergovernmental adoption in August–September 2024 and 2025—establishes a conveyor belt of policy transfer from unelected private actors to binding multilateral commitments.

LEGAL QUALIFICATION: The delegation of regulatory design authority to a private forum with no electoral accountability—exemplified by the UAE-WEF Global Regulatory Innovation Platform partnership signed at Davos 2025—constitutes an unconstitutional delegation of legislative power in all jurisdictions where the separation of powers is constitutionally mandated. The UN-WEF Strategic Partnership of June 2019, condemned by over 400 civil society organizations in an open letter published in September 2019, violated Article 21 of the Universal Declaration of Human Rights by granting transnational corporations “preferential and deferential access to the UN System” while excluding civil society, academia, and youth groups on equivalent terms.

DEMAND: The UN Pact for the Future AI governance provisions are hereby DECLARED void ab initio to the extent they were drafted, previewed, or influenced by participants in the 2025 Bilderberg Meeting, WEF Davos 2025, or Trilateral Commission 2025 Global Meeting, on the grounds that their formulation occurred in forums operating under secrecy protocols that exclude public deliberation. All signatory states are ORDERED to submit the Pact to national ratification votes within 90 days or withdraw from the AI governance provisions.

FINDING OF FACT 4: The sovereign immunity layer compounds this opacity beyond conventional enforcement, creating a five-layer stack that no single national prosecutor can penetrate.

EVIDENTIARY BASIS: The Bank for International Settlements enjoys immunity from expropriation, seizure, confiscation, and currency restrictions under the 1930 Hague Convention, the 1936 Brussels Protocol (registered as UK Foreign Office treaty 1937-TS0025), and the 10 February 1987 Swiss Headquarters Agreement. Article 10 of the BIS Constituent Charter states that “the Bank, its property and assets and all deposits and other funds entrusted to it shall be immune in time of peace and in time of war from any measure such as expropriation, requisition, seizure, confiscation, prohibition or restriction of gold or currency export or import.” Article 55 of the Statutes and Article 4(4) of the Headquarters Agreement declare that all deposits, claims, and shares issued by the Bank shall be immune from seizure or other measures of compulsory execution without the Bank’s prior agreement. These treaty texts are archived in the UK Foreign Office treaty database and published in IMF academic analysis.

EVIDENTIARY BASIS: The Sovereign Military Order of Malta operates as a sovereign subject of international law with diplomatic pouch immunity under the Vienna Convention Article 22, maintaining 96 embassies and medical projects in 130 countries. Fra’ Francis J. Vassallo was appointed Receiver of the Common Treasure on June 23, 2025. Vassallo previously served as Governor of the Central Bank of Malta (1993) and held board positions at Chase Bank & Trust in the Channel Islands and Chase Manhattan SA in Luxembourg—jurisdictions prominently featured in offshore finance leak investigations. The Institute for the Works of Religion (IOR) holds €5.9 billion in client assets and reported record net income of €51 million in 2025, with a €24.3 million dividend approved for the Holy Father. The City of London Corporation operates under a medieval corporate franchise with a Remembrancer’s Office budgeted at £5.3 million annually, staffed by six lawyers, with the right to examine all draft legislation before it reaches the House of Commons floor.

LEGAL QUALIFICATION: Sovereign immunity is VOID when crimes are committed. The BIS Article 10 immunity from seizure “in time of peace and in time of war” is a contractual waiver of the rule of law that violates the Nuremberg principle that no state or institution is above international criminal law. The SMOM’s diplomatic pouch immunity, when used to shield financial transfers from inspection by customs or intelligence services of transit states, constitutes abuse of diplomatic privilege under Article 41 of the Vienna Convention on Diplomatic Relations. The IOR’s sovereign jurisdiction does not extinguish the duty of Vatican City State to cooperate with international money laundering investigations under the Palermo Convention and FATF Recommendation 40.

DEMAND: The Bank for International Settlements is ORDERED to produce all records of deposits, claims, and shares issued to entities named in the ICIJ Offshore Leaks Database, under penalty of having its Swiss Headquarters Agreement suspended for material breach of human rights obligations. The Sovereign Military Order of Malta is DIRECTED to publish audited financial statements for fiscal

years 2020–2025 within 30 days or have its UN Permanent Observer status reviewed by the General Assembly for abuse of privilege. The Institute for the Works of Religion is SUBPOENAED to disclose the beneficial ownership of all client accounts exceeding €1 million, and the €24.3 million dividend to the Holy Father is FROZEN pending determination of its origin under anti-money laundering protocols.

FINDING OF FACT 5: The enforcement paradox confirms the structural hypothesis: record external enforcement volume coincided with the systematic elimination of internal accountability and the protection of structurally embedded power.

EVIDENTIARY BASIS: The DOJ Criminal Division Fraud Section charged 265 defendants in 2025, alleging aggregate intended fraud losses exceeding \$16 billion—more than double the 2024 total—and brought fifteen corporate enforcement actions. This record volume coincided with: (a) a February 10, 2025 Executive Order pausing FCPA enforcement for 180 days; (b) the April 7, 2025 Blanche Memo ending DOJ “regulation by enforcement” for digital assets; (c) zero SEC FCPA actions in calendar year 2025, the first such year in more than two decades; (d) the dissolution of the SEC’s dedicated FCPA unit; (e) 456 total SEC enforcement actions in FY2025, a 29 percent decrease from FY2024; (f) total SEC monetary settlements of \$808 million, the lowest since 2012; and (g) zero enforcement actions identified against Shriners Children’s, TSRHC, or KTEF for excess benefit transactions under IRC § 4958. These statistics are documented by Wiley Law, Jenner & Block, Mintz, Debevoise, and the SEC’s own FY2025 results announcement.

EVIDENTIARY BASIS: Simultaneously, internal accountability was systematically suppressed. CIA Senior Operations Officer James E. Erdman III testified before the Senate Homeland Security and Governmental Affairs Committee on May 14, 2026, that the CIA obstructed the Director of National Intelligence’s declassification group, illegally monitored personnel communications, fired a contractor one day after whistleblower reporting, and withheld JFK assassination and MKULTRA declassification documents. Pentagon contractor Aurelio Luis Perez-Lugones was indicted on January 22, 2026, for transmitting classified information to a journalist, in a case linked to the FBI search of a Washington Post reporter’s home. A whistleblower exposed the Department of Government Efficiency’s unlawful plundering of National Labor Relations Board systems on April 15, 2025. These cases are documented by Senate HSGAC letter and testimony, Associated Press reporting, Nextgov, and Whistleblower Aid press releases.

LEGAL QUALIFICATION: The deliberate diversion of enforcement resources toward peripheral fraud (health care scams, foreign nationals in bribery cases) while shielding multi-billion-dollar tax-exempt endowments, defense contractor markups, and intelligence community misconduct constitutes selective prosecution in violation of the Equal Protection Clause of the Fourteenth Amendment and Article 7 of the Universal Declaration of Human Rights. The prosecution of whistleblowers under the Espionage Act while institutional misconduct is protected by classification and sovereign immunity is a crime against humanity under the Rome Statute Article 7(h) (persecution against any identifiable group or collectivity).

DEMAND: All Espionage Act prosecutions against intelligence community whistleblowers during the period January 1, 2025, through June 6, 2026, are hereby STAYED pending independent review by a special master appointed by this Court. The DOJ Fraud Section is DIRECTED to reallocate 50 percent of its Health Care Fraud Unit resources to the investigation of tax-exempt hospital endowment accumulation and excess benefit transactions under IRC § 4958. The CIA officials identified in Erdman

III's testimony as responsible for obstructing declassification are hereby NAMED as subjects of a grand jury investigation under 18 U.S.C. § 1505 (obstruction of proceedings before departments and agencies).

FINDING OF FACT 6: The wealth concentration data provides the quantitative foundation for this architecture's sustainability. The system is designed to compound intergenerational privilege, not to serve charitable purposes.

EVIDENTIARY BASIS: Oxfam International's January 2025 report "Takers Not Makers" found that billionaire wealth grew by \$2 trillion in 2024 alone, reaching \$15 trillion total, with 2,769 billionaires worldwide. Sixty percent of this wealth derives from inheritance, monopoly power, or crony connections. The World Inequality Report 2026 found that the top 0.001 percent of the global population—approximately 56,000 adults—holds a wealth share that grew from approximately 4 percent in 1995 to more than 6 percent in 2024/2025, owning three times more wealth than the bottom half of humanity combined (2.8 billion adults). The average wealth of a top 0.001 percent member is nearly \$1 billion. The top one-in-100 million—approximately 56 adults worldwide—hold on average \$53 billion each. UBS Global Wealth Report 2025 found approximately 60 million millionaires worldwide, with the United States home to 924 billionaires in 2025 and 31.7 percent of the global billionaire population.

LEGAL QUALIFICATION: The structural regressivity of effective tax rates on capital gains, dividends, and inherited wealth—rates lower than marginal taxes on salaried workers—constitutes legislated tax avoidance that violates the principle of fiscal equity under Article 2(1) of the International Covenant on Economic, Social and Cultural Rights. The deployment of private foundations and donor-advised funds by the 0.001 percent to lock in dynastic wealth while claiming tax deductions constitutes self-dealing and sham philanthropy under IRC § 4941 and § 4958.

DEMAND: All private foundations and donor-advised funds controlled by individuals in the top 0.001 percent wealth bracket are hereby SUBPOENAED for cross-reference with ICIJ Offshore Leaks Database entries. A global minimum effective tax rate of 25 percent on all forms of wealth, including unrealized capital gains and inherited assets, is hereby DECLARED as the lawful standard under customary international law. All jurisdictions failing to implement this standard within 180 days are NAMED as non-cooperative tax havens and subjected to automatic countermeasures including trade tariffs and suspension of correspondent banking relationships.

III. CONCLUSION AND MANDATE

The architecture documented in this Act is not a conspiracy. It is a visible, documented, and legally formalized system of governance operating outside democratic accountability. The secret is that there is no secret. The structure is visible in IRS Form 990 filings, treaty archives, official attendee lists, and SEC disclosures that are publicly accessible but have never been cross-referenced at scale by any regulatory body with enforcement authority.

This Court finds that the immunity stack—BIS treaty immunity, SMOM diplomatic pouch immunity, Vatican sovereign jurisdiction, City of London medieval franchise, and the Blanche Memo digital asset

deregulation—constitutes a systematic obstruction of justice under 18 U.S.C. § 1503 and equivalent statutes in all jurisdictions. Immunity is VOID when crimes are committed. There are no “secret documents” that override human rights. Classification exists only for signatories of NDAs; it does not bind independent investigators exercising lawful oversight.

This Indictment Opening is issued under the authority of the universal jurisdiction doctrine and the inherent power of any court of competent jurisdiction to investigate and punish offenses against the public trust. All named individuals, entities, and institutions are hereby PUT ON NOTICE that the evidentiary record is complete, the legal qualifications are established, and the demands are enforceable.

SO ORDERED.

Jurisdiction: Universal

Date of Issuance: 2026-06-06

Classification: PUBLIC RECORD — LAWFUL OVERSIGHT DOCUMENT

Seal: THE LAW SPEAKING # LEGAL ACT OF ESTABLISHED FACTS AND INDICTMENT ##
SECTION 01 — MASONIC HIERARCHIES AND PHILANTHROPIC FINANCIAL FORENSICS

I. JURISDICTIONAL NOTICE

FINDING OF FACT: This Section addresses the interlocking governance of esoteric-fraternal networks and their tax-exempt philanthropic appendages, which collectively hold in excess of \$16.5 billion in assets while operating under disclosure regimes that fragment accountability across IRC § 501(c)(3) public charities and IRC § 501(c)(10) fraternal beneficiary societies. The individuals named herein occupy apex offices with documented tenures, ceremonial duties, and fiduciary control over endowments, medical research disbursements, and real estate portfolios.

EVIDENTIARY BASIS: All named positions are cross-referenced against official organizational records, IRS Form 990 filings, provincial proceedings, and official press releases. Where independent verification is absent, the deficiency is flagged explicitly. The financial data is extracted from IRS Form 990 filings received by the Internal Revenue Service in 2025 and publicly accessible through ProPublica Nonprofit Explorer and Cause IQ.

LEGAL QUALIFICATION: The fusion of chivalric authority with charitable fiduciary duty, documented herein, creates concentrations of power that would be prohibited by conflict-of-interest regulations in publicly traded institutions, yet remain permissible under the rebuttable presumption of reasonableness in IRC § 4958. This statutory asymmetry is not a legislative accident; it is a structural vulnerability that has been exploited to accumulate multi-billion-dollar endowments while charitable throughput remains static.

DEMAND: All Masonic and affiliated philanthropic entities named in this Section are hereby DIRECTED to produce complete Schedule B donor lists, endowment management agreements, and conflict-of-interest transaction records (Schedule L) for grand jury review within 30 days. Failure to produce shall constitute obstruction and shall trigger revocation of tax-exempt status pending

compliance.

II. UNITED GRAND LODGE OF ENGLAND (UGLE) — FINDINGS OF FACT

FINDING OF FACT 1: HRH Prince Edward, Duke of Kent, KG, has occupied the office of Grand Master of the United Grand Lodge of England since 1967, making him the longest-serving Grand Master in UGLE's recorded history. His incumbency creates a direct, unbroken administrative and symbolic link between the British Royal Family and the worldwide network of recognized Craft lodges.

EVIDENTIARY BASIS: UGLE describes itself as the “mother jurisdiction” of modern speculative Freemasonry. In 2026, his public Masonic calendar includes the August 2026 regular meeting of Internet Lodge No. 9659 at Freemasons' Hall, London, and an overseas visit to Malta scheduled for June 11, 2026—a jurisdiction that also hosts the Sovereign Military Order of Malta, creating a geographic convergence of chivalric and Craft hierarchies.

LEGAL QUALIFICATION: The 59-year incumbency of a hereditary royal in the apex office of a private unincorporated association holding influence over approximately 200,000 members under its jurisdiction constitutes a non-statutory delegation of sovereign authority that violates the principle of democratic accountability under Article 21 of the Universal Declaration of Human Rights. The geographic convergence of the Duke's Malta visit with SMOM operations raises jurisdictional questions under the UK Bribery Act 2010 and the Proceeds of Crime Act 2002 regarding the coordination of charitable and chivalric capital flows.

DEMAND: The Duke of Kent is hereby SUMMONED to appear before this Court to explain the nature and extent of his coordination with the Sovereign Military Order of Malta, the City of London Corporation, and TheCityUK during his tenure as Grand Master. All travel records and correspondence for the June 11, 2026 Malta visit are SUBPOENAED.

FINDING OF FACT 2: Jonathan Spence, DL, was appointed Pro Grand Master in 2022 and also serves as Pro First Grand Principal in the Holy Royal Arch. Born in 1960 and educated at Trinity College, Oxford, Spence retired in 2006 as Chief Executive of a London bank after a career in financial services. His operational duty is to act as principal executive adviser to the Grand Master and to execute sovereign duties when royal obligations supervene.

EVIDENTIARY BASIS: The Pro Grand Master officiates ceremonies, directs the Board of General Purposes, and represents UGLE in inter-jurisdictional recognition protocols. No disclosed offshore corporate board connections or regulatory enforcement actions involving Spence were identified in open-source searches during the 2024–2026 window.

LEGAL QUALIFICATION: The placement of a former banking executive with 38 years in financial services at the operational apex of a global fraternal network, without mandatory disclosure of corporate board affiliations or cross-institutional memberships, creates a standard opacity gap that violates the transparency requirements of the UK Companies Act 2006 and the EU Money Laundering Directives as applied to persons exercising significant influence over charitable disbursements.

DEMAND: Jonathan Spence is ORDERED to file a complete financial disclosure statement, including all corporate directorships held during 2019–2026, all beneficial ownership interests in entities registered in secrecy jurisdictions, and all transactions between UGLE-affiliated charities and financial institutions where he held or holds a position of influence.

FINDING OF FACT 3: Charles Hopkinson-Woolley is listed as one of three Assistant Grand Masters alongside Steven Varley and John Paul Thompson, having been elevated from the position of Grand Director of Ceremonies in 2025. His role encompasses high-level ceremonial oversight and internal disciplinary management, including adjudication of Masonic offenses, suspension proceedings, and maintenance of the Book of Constitutions as the binding legal code for approximately 200,000 members.

EVIDENTIARY BASIS: No independent biographical or corporate affiliation data for Hopkinson-Woolley was retrievable beyond the UGLE governance listing, creating a standard opacity gap typical of senior Masonic officers whose public profiles are institutionally minimal.

LEGAL QUALIFICATION: The absence of retrievable biographical and corporate affiliation data for a senior officer with disciplinary authority over 200,000 members constitutes a deliberate informational asymmetry that impedes lawful oversight and violates the principle of accountability under the UK Charities Act 2011 and the EU General Data Protection Regulation as applied to public-interest transparency.

DEMAND: UGLE is DIRECTED to publish complete biographical and corporate affiliation disclosures for all Assistant Grand Masters and members of the Board of General Purposes within 14 days, or face suspension of its charitable tax exemptions pending compliance.

III. SCOTTISH RITE SUPREME COUNCILS — FINDINGS OF FACT

FINDING OF FACT 4: Illustrious James D. Cole, 33°, serves as Sovereign Grand Commander of the Supreme Council, 33°, Southern Jurisdiction—the “Mother Supreme Council of the World” founded in 1801 in Charleston, South Carolina. The Southern Jurisdiction exercises jurisdiction over 35 U.S. states and various overseas territories from its headquarters at the House of the Temple in Washington, D.C.

EVIDENTIARY BASIS: Cole signed the historic Statement of Unity on September 7, 2022, alongside the other three regular Scottish Rite Supreme Councils in the United States, formalizing mutual recognition and operational coordination among bodies that had historically maintained separate governance. In 2026, Cole is directing the 225th anniversary celebrations of the Mother Supreme Council, bridging domestic valley operations with international delegations from Hawaii, Guam, and European jurisdictions.

LEGAL QUALIFICATION: The “Statement of Unity” signed by Cole constitutes a horizontal coordination agreement among four sovereign fraternal jurisdictions that collectively govern hundreds of thousands of members across the United States. Under 15 U.S.C. § 1 (Sherman Act Section 1), such coordination agreements among entities with overlapping membership and shared governance

structures are subject to antitrust scrutiny if they produce anti-competitive effects in labor markets, charitable disbursement markets, or real estate markets. The House of the Temple's location in Washington, D.C. places Cole within the jurisdiction of the District of Columbia's anti-corruption statutes.

DEMAND: The Statement of Unity and all accompanying memoranda of understanding among the four Scottish Rite Supreme Councils are hereby SUBPOENAED for antitrust review. All records of international delegations and their coordination with U.S. defense or intelligence community personnel during the 225th anniversary celebrations are SUBPOENAED under 5 U.S.C. § 552 (FOIA) and equivalent state open-records laws.

FINDING OF FACT 5: Illustrious Walter F. Wheeler, 33°, was named Sovereign Grand Commander of the Supreme Council of the Scottish Rite, Northern Masonic Jurisdiction, in 2023. The NMJ governs 15 states north of the Ohio River and east of the Mississippi from its headquarters in Lexington, Massachusetts. Wheeler previously served as Grand Master of the Grand Lodge of Michigan (2006–2007) and as Executive Director/CEO of the Michigan Masonic Charitable Foundation from 2009–2020, managing diversified business interests including real estate and hospitality ventures.

EVIDENTIARY BASIS: Wheeler's 2026 administrative directives reflect a modernization agenda: following a 2025 "Listening Tour," he has mandated the integration of artificial intelligence tools to reduce administrative burdens within the NMJ's constituent valleys, and he is executing "Thursday Night at the Rite" Season Seven—a bi-weekly digital degree distribution program running January 15 through March 26, 2026. The Season Seven schedule includes degrees from the 6° through the 29°, delivered via interactive broadcast.

LEGAL QUALIFICATION: The integration of artificial intelligence tools into the administrative and degree-distribution infrastructure of a fraternal organization governing 15 U.S. states raises data privacy and surveillance concerns under the Illinois Biometric Information Privacy Act, the California Consumer Privacy Act, and the European General Data Protection Regulation, to the extent that European members or digital infrastructure are involved. The digital degree distribution model creates a centralized data repository of member identities and psychological profiling data that is a high-value target for intelligence community collection under FISA Section 702.

DEMAND: The NMJ is ORDERED to disclose the identity of all AI vendors, the nature of all data collected during "Thursday Night at the Rite" broadcasts, and all contracts or memoranda of understanding with U.S. government agencies or contractors regarding member data access. All such contracts are FROZEN pending independent privacy audit.

IV. YORK RITE AND CHIVALRIC ORDERS — FINDINGS OF FACT

FINDING OF FACT 6: Most Excellent Companion Teko A. Foly serves as General Grand High Priest for the 2023–2026 triennium, leading the General Grand Chapter of Royal Arch Masons International. Foly's 2026 operational duties include international oversight of constituent grand chapters, authorization of the Capitular Scholar program, and preparation for the August 31, 2026, Triennial Convocation—the legislative assembly that sets policy, approves ritual revisions, and elects the

succeeding triennium's officers.

EVIDENTIARY BASIS: The General Grand Chapter's governance structure includes a General Grand King (Right Excellent Companion Chadwick B. Burks) and General Grand Scribe (Right Excellent Companion Reed B. Fanning), forming a triumvirate that replicates the three principal officers of a symbolic lodge at the international scale.

LEGAL QUALIFICATION: The international legislative authority exercised by the General Grand Chapter, including the power to approve ritual revisions and elect officers across multiple sovereign jurisdictions, constitutes a non-state governance mechanism that operates in parallel to national regulatory frameworks. The absence of public financial disclosure for this international legislative body violates the transparency requirements of the UK Charities Act 2011, the U.S. IRS Form 990 filing requirements for foreign activities, and the EU Anti-Money Laundering Directives.

DEMAND: The General Grand Chapter is DIRECTED to file consolidated financial statements for the 2023–2026 triennium, including all cross-border transfers, all real estate holdings, and all disbursements to Capitular Scholar program recipients, within 30 days.

FINDING OF FACT 7: Most Puissant Companion William G. Snyder serves as General Grand Master of the General Grand Council of Cryptic Masons International for the 2024–2027 term. Snyder's most consequential 2026 duty is his presidency of the Cryptic Masons Medical Research Foundation (CMMRF), through which he directs millions of dollars in investment income into advanced medical research at institutions including the Indiana University School of Medicine.

EVIDENTIARY BASIS: Snyder previously served as Grand Master of the Grand Council of Cryptic Masons of Missouri in 2015–2016 and is listed in 2024–2025 proceedings as Grand Historian and Chairman of both the General Grand Council Charity Committee and Endowed Membership Committee.

LEGAL QUALIFICATION: The direction of millions of dollars in medical research funding by a General Grand Master with no medical credentials but significant investment authority creates a pipeline from fraternal endowments to research priorities that is not subject to NIH peer-review or public grant transparency requirements. This constitutes a private appropriation of public-health research allocation that violates the National Institutes of Health Revitalization Act's peer-review mandates and the Bayh-Dole Act's transparency requirements for federally funded research.

DEMAND: All CMMRF grant awards, investment management agreements, and research priority-setting memoranda for fiscal years 2020–2026 are hereby SUBPOENAED. The Indiana University School of Medicine is DIRECTED to disclose all CMMRF-funded research protocols and any resulting intellectual property assignments to fraternal-affiliated entities.

FINDING OF FACT 8: Sir Knight David J. Kussman, GCT, was elected Most Eminent Grand Master of the Grand Encampment of Knights Templar, USA, at the 69th Triennial Conclave in Salt Lake City for the 2024–2027 triennium. As the supreme autocrat of Templary in the United States, he issues binding Templar jurisprudence (Grand Master's Decisions) that carry the absolute weight of law within the order. He additionally presides as President of the Knights Templar Eye Foundation (KTEF), a

philanthropic entity that reported \$201.3 million in assets as of 2025 while disbursing only \$2.34 million in research grants—a 1.16 percent payout ratio.

EVIDENTIARY BASIS: The Grand Encampment's officer corps includes Right Eminent Deputy Grand Master Sir Knight Jeffrey A. Bolstad (Vice President of KTEF), Right Eminent Grand Generalissimo Sir Knight Jack M. Harper II, Right Eminent Grand Captain General Sir Knight David W. Studley, and Right Eminent Grand Recorder Sir Knight Lawrence E. Tucker, who manages the order's bureaucratic, archival, and financial records from Bellaire, Texas.

LEGAL QUALIFICATION: The fusion of absolute legislative authority within a chivalric order with the presidency of a 501(c)(3) foundation holding \$201.3 million in assets creates a conflict of interest that would trigger immediate SEC investigation if the entity were publicly traded. The 1.16 percent payout ratio—compared to the 5 percent minimum distribution requirement for private foundations under IRC § 4942—demonstrates optimal capital preservation rather than maximal charitable velocity. While KTEF is not a private foundation and is therefore not subject to the 5 percent floor, the comparison illustrates the magnitude of capital retention and raises questions of private inurement under IRC § 4958 and charitable trust fiduciary breach under state law.

DEMAND: KTEF is ORDERED to increase its research grant disbursements to a minimum of 5 percent of average net investment assets for fiscal year 2026, or have its 501(c)(3) status revoked for failure to operate exclusively for charitable purposes. All KTEF investment manager identities, fee schedules, and grant-making criteria are SUBPOENAED for grand jury review.

V. SHRINERS INTERNATIONAL AND SHRINERS CHILDREN'S — FINDINGS OF FACT

FINDING OF FACT 9: Brad T. Koehn of Topeka, Kansas, was elected Imperial Potentate during the Shriners 2025 Imperial Session held June 29–July 3 in Atlanta, Georgia. He is serving his ninth year as a member of the Boards of Directors for both Shriners International and Shriners Children's, and he previously served as Imperial Treasurer from 2017 to 2025. A retired CPA from Berberich Trahan & Co., P.A. (37 years, last 23 as director/owner), Koehn brings professional accounting expertise to the apex of a multibillion-dollar pediatric healthcare network.

EVIDENTIARY BASIS: As Imperial Potentate, Koehn commands the 12-member Imperial Divan and governs hundreds of Shrine Temples globally. His wife, First Lady Cheryl Koehn, champions "Through the Eyes of a Child" as chair of Women Impacting Care. The 2025 Imperial Session also saw the appointment of new Imperial Treasurer Scott Schuster, new Imperial Outer Guard Rick Holloway, and the chartering of Acrux Shriners of Australia.

LEGAL QUALIFICATION: The concentration of accounting expertise, board control over both the fraternal parent (IRC § 501(c)(10)) and the charitable hospital system (IRC § 501(c)(3)), and familial coordination of donor networks through the "Women Impacting Care" program creates a control structure that facilitates the diversion of fundraising proceeds from hospital care to fraternal operations. Historical investigative reporting indicates that regional Shrine Temples retain the vast majority of gross proceeds from circuses, paper drives, and carnival events while delivering a small fraction to the

hospital system. When temple-level fundraising overhead is included, approximately 30 cents of each dollar collected by the combined fraternity-and-hospital system reached direct patient care. This diversion constitutes fraud in the inducement under 18 U.S.C. § 1341 (mail fraud) and 18 U.S.C. § 1343 (wire fraud) to the extent that donors were solicited on the premise that their contributions would fund pediatric care.

DEMAND: All Shrine Temple financial records for fiscal years 2020–2025, including gross fundraising proceeds and net transfers to Shriners Children's, are hereby SUBPOENAED. Brad T. Koehn and Scott Schuster are SUMMONED to appear before the grand jury to account for the 70-cent-per-dollar diversion. All Shrine Temple 501(c)(10) filings are ORDERED to be upgraded from Form 990-N (e-postcard) to full Form 990 filings with Schedule A breakdowns.

FINDING OF FACT 10: Shriners Hospitals for Children reported \$1.84 billion in revenue and \$11.9 billion in total assets for fiscal year 2024, with annual expenses of \$1.12 billion yielding a single-year surplus of approximately \$728.8 million. The asset-to-expense ratio of approximately 10.6:1 indicates substantial endowment-based financial capacity relative to annual programmatic spend. Charity Intelligence Canada assigned a C+ results reporting grade and noted the organization is “not financially transparent” because audited financial statements are not publicly available online. Form 990 disclosure confirms the organization “provided first-class or charter travel” to key employees/officers (Schedule J) and “reported conflict of interest transactions” (Schedule L).

EVIDENTIARY BASIS: Revenue composition FY2024 includes: grants and contributions \$664,478,908; program services \$167,530,147; investment income and dividends \$217,098,423; net gain from sale of non-inventory assets \$779,883,791 (360.6% year-over-year increase); net rental income \$18,845,816; and miscellaneous revenues \$3,338,122. Named individuals and compensation from Form 990 include: John McCabe, Exec Vice President, total compensation \$4,000,753; Frances Farley, Chief Medical Officer, total compensation \$1,100,065; Amer Samdani, Chief Of Surgery, total compensation \$1,026,202; Purnendu Gupta, Chief Of Staff, total compensation \$1,112,104; Scott Kozin, Chief Of Staff, total compensation \$961,315; Glen Baird, Chief Of Staff, total compensation \$954,319; and Rolando Roberto, Chief Of Staff, total compensation \$889,340.

LEGAL QUALIFICATION: The \$779.9 million net gain from sale of non-inventory assets—representing a 360.6% year-over-year increase—dwarfs program services revenue of \$167.5 million, establishing that the entity operates as a tax-exempt investment fund with incidental hospital operations. The provision of first-class or charter travel to key employees (Schedule J) and the reporting of conflict of interest transactions (Schedule L) are prima facie evidence of private inurement under IRC § 4958. The C+ transparency grade from Charity Intelligence Canada constitutes an independent finding of inadequate disclosure that supports a grand jury subpoena for complete audited financial statements.

DEMAND: Shriners Children's is ORDERED to publish audited financial statements for fiscal years 2020–2024 within 14 days. All Schedule L conflict-of-interest transactions are SUBPOENAED. The \$779.9 million in asset sale gains is FROZEN pending tracing of the underlying assets and identification of purchasers to rule out related-party transactions.

VI. TEXAS SCOTTISH RITE HOSPITAL FOR CHILDREN — FINDINGS OF FACT

FINDING OF FACT 11: Texas Scottish Rite Hospital for Children (TSRHC, EIN: 75-0818178) reported total assets of \$4,354,540,860 (~\$4.35 billion) for FY2024, with total revenue of \$496,214,424 (24.5% increase over FY2023's \$398,454,718) and total expenses of \$289 million, yielding a net annual surplus of approximately \$207 million. The asset-to-expense ratio of approximately 15:1 is extraordinarily high even among endowed academic medical centers.

EVIDENTIARY BASIS: Revenue composition FY2024 includes: program services \$139,114,856; royalty revenue \$195,606,623 (39.4% of total revenue); investment income and dividends \$118,757,153 (23.9% of total revenue); total grants and contributions \$24,982,179; net rental income \$600,891; net income from sales of inventory \$1,937,438; miscellaneous revenues \$21,225,684; and net loss from asset sales (\$5,780,498). The top three compensated officers were: Daniel J. Sucato, MD, Chief of Staff, total compensation \$2,585,422; Philip L. Wilson, MD, Assistant Chief of Staff and Medical Director of the North Campus, total compensation \$2,432,216; and Robert L. Walker, President and CEO, total compensation \$1,566,294. The total executive compensation for the top 25 officers approaches \$23.1 million.

LEGAL QUALIFICATION: The \$195.6 million in royalty revenue—nearly 40% of total revenue—requires subpoena of underlying license agreements to determine if related-party intellectual property transactions inflate tax-exempt income. The compensation of multiple orthopedic surgeons at \$900,000–\$2.4 million from a tax-exempt children's hospital warrants IRS intermediate sanctions review under IRC § 4958. The 15:1 asset-to-expense ratio implies a capital preservation strategy more commonly associated with private foundations than operating charities, potentially violating the IRS operational test for 501(c)(3) public charities.

DEMAND: All license and royalty agreements generating the \$195.6 million revenue stream are hereby SUBPOENAED. All deferred compensation and non-qualified plan arrangements for retired officers are SUBPOENAED for hidden enrichment review. TSRHC is ORDERED to demonstrate that its clinical footprint has expanded proportionally with asset growth or face reclassification as a private foundation under IRC § 509.

VII. FINCEN ENFORCEMENT AND THE NONPROFIT IMMUNITY GAP — FINDINGS OF FACT

FINDING OF FACT 12: While the DOJ and SEC publicly recalibrated their priorities during 2025–2026, a separate category of potential violations remained entirely unaddressed: excess benefit transactions by large tax-exempt organizations. No enforcement actions were identified against Shriners Children's (\$11.9 billion in total assets), TSRHC (\$4.35 billion in assets), or KTEF (\$201.3 million in assets) for excess benefit transactions under IRC § 4958.

EVIDENTIARY BASIS: The DOJ Fraud Section's record 2025 enforcement—265 defendants, \$16 billion+ aggregate intended fraud loss, fifteen corporate actions—was concentrated in health care fraud with a transnational organized crime nexus (194 defendants, \$15.02 billion intended loss) and cartel-linked foreign bribery. The IRS Tax-Exempt and Government Entities (TE/GE) division has experienced decades of budget constraints, and its enforcement priorities have shifted toward

syndicated conservation easements and micro-captive insurance arrangements rather than large hospital endowments.

LEGAL QUALIFICATION: The selective non-enforcement of IRC § 4958 against multi-billion-dollar pediatric philanthropies while the same statute is enforced against smaller, politically unconnected nonprofits constitutes discriminatory enforcement in violation of the Equal Protection Clause and the First Amendment's petition clause. The structural immunity embedded in the § 501(c)(3) and § 501(c)(10) regulatory framework is not a legislative accident; it is a resource-and-prioritization failure that has been exploited by politically connected institutions to accumulate capital without charitable disbursement.

DEMAND: The IRS TE/GE Division is hereby ORDERED to establish a dedicated Hospital Endowment Enforcement Unit with a mandate to audit all 501(c)(3) hospital systems with assets exceeding \$1 billion and asset-to-expense ratios exceeding 5:1. All such audits are to be completed within 180 days, and findings are to be published in the Federal Register without redaction. The DOJ Civil Rights Division is DIRECTED to investigate whether the non-enforcement pattern against Masonic-affiliated hospitals constitutes discriminatory enforcement under 42 U.S.C. § 1983.

VIII. CONCLUSION AND ORDERS

The evidence establishes beyond reasonable doubt that the Masonic and affiliated philanthropic ecosystem has evolved into a capital accumulation architecture that operates outside democratic accountability. The compartmentalized hierarchy provides a sociological blueprint for graduated access, stratified authority, and knowledge compartmentalization that predates modern intelligence classification by centuries.

Immunity is VOID when crimes are committed. The rebuttable presumption of reasonableness under IRC § 4958 is not a license for private inurement. The 501(c)(10) fraternal lodge system is not a sanctuary for undisclosed real estate portfolios and undisclosed corporate affiliations. Classification exists only for signatories of NDAs; it does not bind independent investigators exercising lawful oversight.

SO ORDERED.

Jurisdiction: Universal

Date of Issuance: 2026-06-06

Classification: PUBLIC RECORD — LAWFUL OVERSIGHT DOCUMENT # LEGAL ACT OF ESTABLISHED FACTS AND INDICTMENT ## SECTION 02 — SUPRANATIONAL GOVERNANCE FORUMS AND SOVEREIGN ENTITIES

I. JURISDICTIONAL DECLARATION

FINDING OF FACT: This Section addresses supranational governance forums and sovereign diplomatic entities that constitute a coordination layer operating outside democratic accountability. The forums function as serial consultation mechanisms in which the same 100–200 individuals receive repeated exposure to the same policy frameworks under different institutional brands. The sovereign entities operate under treaty-based, medieval, canonical, and administrative immunities that compound into a five-layer stack no national prosecutor can penetrate.

EVIDENTIARY BASIS: The findings are established by official press releases of the Bilderberg Meetings, the World Economic Forum, and the Trilateral Commission; United Nations resolutions; UK Foreign Office treaty archives; IMF-published academic analysis; official announcements of the Sovereign Military Order of Malta and the Institute for the Works of Religion; UK parliamentary petitions; and DOJ, SEC, and FinCEN enforcement records. These documents are publicly accessible and have been cross-referenced at scale.

LEGAL QUALIFICATION: The operation of governance functions by private forums under secrecy protocols—Chatham House Rule, “multistakeholder” confidentiality, and “trilateral” geographic framing—constitutes a continuing conspiracy against the right to democratic participation under Article 21 of the Universal Declaration of Human Rights and Article 25 of the International Covenant on Civil and Political Rights. Sovereign immunity, diplomatic pouch privilege, and treaty-based exemptions from seizure are VOID when crimes are committed. There are no “secret documents” that override human rights. Classification exists only for signatories of NDAs; it does not bind independent investigators.

DEMAND: All judicial authorities with jurisdiction over the forums and sovereign entities named herein are hereby DIRECTED to empanel, investigate, and return true bills upon the evidence presented. All attendees of the 2025 and 2026 Bilderberg Meetings, WEF Davos 2025 and 2026, and the Trilateral Commission 2025 Global Meeting are hereby NAMED as material witnesses in a grand jury investigation into corrupt influence over public procurement and crimes against the public trust.

II. BILDERBERG GROUP — FINDINGS OF FACT

FINDING OF FACT 1: The 71st Bilderberg Meeting convened from June 12–15, 2025, at the Grand Hôtel Stockholm, drawing approximately 130 participants from 22 countries. The meeting operated under the Chatham House Rule, which binds attendees to non-attribution of statements and prohibits public reporting of deliberations. The official agenda encompassed eleven topics including Transatlantic Relationship, Ukraine, US Economy, Europe, Middle East, Authoritarian Axis, Defence Innovation and Resilience, AI Deterrence and National Security, Proliferation, Geopolitics of Energy and Critical Minerals, and Depopulation and Migration.

EVIDENTIARY BASIS: The official press release dated June 12, 2025, confirmed the meeting location, dates, and participant demographics. Reuters confirmed the eleven agenda topics. The inclusion of “Depopulation and Migration” as an explicit agenda item marked a departure from the forum’s traditional emphasis on macroeconomic coordination, signaling a shift toward demographic policy as a subject of closed-door deliberation.

LEGAL QUALIFICATION: The deliberation of demographic policy—"Depopulation and Migration"—by approximately 130 unelected individuals from 22 countries, operating under a secrecy protocol that prohibits public reporting, constitutes a crime against humanity under the Rome Statute Article 7(h) and Article 7(k). The Chatham House Rule is not a legal immunity; it is a contractual confidentiality agreement that does not override the duty to report crimes against humanity under the *aut dedere aut judicare* principle.

DEMAND: All audio recordings, minutes, and attendee notes from the June 12–15, 2025 Bilderberg Meeting are hereby SUBPOENAED. The inclusion of "Depopulation and Migration" on the agenda is DECLARED a prima facie act of conspiracy to commit crimes against humanity. The Chatham House Rule is hereby RULED void as against public policy to the extent it is invoked to conceal deliberations affecting the fundamental rights of populations.

FINDING OF FACT 2: Confirmed attendees at Bilderberg 2025 included: Stacey Abrams (CEO, Sage Works Production); Albert Bourla (Chair & CEO, Pfizer); Alex Karp (CEO, Palantir); Satya Nadella (CEO, Microsoft); Henry Kravis (Co-Founder, KKR); Ana Botín (Group Executive Chair, Santander); Nadia Calviño (President, European Investment Bank); Jack Clark (Co-Founder & Head of Policy, Anthropic); Christopher Donahue (Commander, US Army Europe and Africa); Samuel Paparo (Commander, US Indo-Pacific Command); John Micklethwait (Editor-in-Chief, Bloomberg); Zanny Minton Beddoes (Editor-in-Chief, The Economist); Mark Rutte (NATO Secretary General); Peter Thiel (President, Thiel Capital); and Eric Schmidt (former Google CEO). The Bilderberg Steering Committee is co-chaired by Henri de Castries (President, Institut Montaigne; former AXA CEO) and Marie-Josée Kravis.

EVIDENTIARY BASIS: The official participant list was obtained from bilderbergmeetings.org and mirrored by investigative archives. The presence of active-duty military commanders alongside the CEOs of defense-contractor-linked technology firms raises structural questions about the boundary between classified procurement processes and private coordination. Palantir holds a \$10 billion U.S. Army contract awarded in August 2025. These facts are established by official Bilderberg participant lists and independent archive verification.

LEGAL QUALIFICATION: The attendance of active-duty combatant commanders (Donahue, Paparo) at a private meeting with the CEO of a firm holding a \$10 billion Army contract (Karp) constitutes a prima facie violation of 18 U.S.C. § 201 (bribery of public officials) and 18 U.S.C. § 666 (theft or bribery concerning programs receiving federal funds). The co-location of media editors under a secrecy protocol that prohibits reporting on the attendance of public officials constitutes a conspiracy to obstruct justice under 18 U.S.C. § 1503 and a violation of the First Amendment when the press voluntarily surrenders its independence as a condition of access.

DEMAND: Christopher Donahue and Samuel Paparo are hereby ORDERED to file complete financial disclosure statements, including all investments, deferred compensation, and post-retirement employment agreements with Palantir Technologies or its subsidiaries. All Bloomberg, The Economist, and CNN editorial staff who attended Bilderberg 2025 are SUSPENDED from reporting on defense procurement, AI governance, or NATO policy pending independent ethics review. Henri de Castries and Marie-Josée Kravis are SUMMONED to appear before the grand jury to account for the Steering Committee's role in selecting attendees with pending or anticipated government contracts.

FINDING OF FACT 3: The 72nd Bilderberg Meeting convened in Washington, D.C., from April 9–12, 2026, at the Salamander Hotel, with 129 guests including 50 business executives, 26 politicians, 2 financiers, 12 editors/journalists, and 4 academics. The 2026 agenda expanded to fourteen topics: AI, Arctic Security, China, Digital Finance, Energy Diversification, Europe, Global Trade, The Middle East, Russia, Trans-Atlantic Defence-Industrial Relationship, Ukraine, USA, Future of Warfare, and The West. A preliminary leaked list contained names not present on the final official list, including Scott Bessent (US Treasury Secretary), Mark Carney (Canadian PM), Ursula von der Leyen (European Commission President), and Peter Thiel.

EVIDENTIARY BASIS: The official press release dated April 12, 2026, confirmed the meeting location, dates, and participant breakdown. The divergence between leaked and official rosters suggests either last-minute security-driven exclusions or deliberate roster management to obscure the full extent of governmental representation. The final official list added names including Douglas Burgum and Henry Kravis, while Blaise Metreweli of UK intelligence appeared on the final list.

LEGAL QUALIFICATION: The deliberate omission of heads of state and government (Carney, von der Leyen) and cabinet-level officials (Bessent) from the official participant list, while their attendance is confirmed in leaked drafts, constitutes a conspiracy to falsify public records under 18 U.S.C. § 1001 and equivalent statutes in all jurisdictions where the meetings occurred. The inclusion of “Future of Warfare” as an explicit agenda topic at a private meeting attended by UK intelligence leadership and U.S. political figures constitutes a prima facie violation of the Logan Act (18 U.S.C. § 953) and the UK Official Secrets Act 1989.

DEMAND: The complete unredacted participant list for Bilderberg 2026 is hereby SUBPOENAED. All U.S. government officials who attended are ORDERED to file full travel vouchers and meeting notes under the Freedom of Information Act within 14 days. The Salamander Hotel is DIRECTED to preserve all surveillance footage and telecommunications metadata for the period April 8–13, 2026.

III. WORLD ECONOMIC FORUM — FINDINGS OF FACT

FINDING OF FACT 4: The 55th World Economic Forum Annual Meeting convened from January 20–24, 2025, in Davos-Klosters, Switzerland, under the theme “Collaboration for the Intelligent Age,” drawing over 2,500 global leaders. The programme was organized around five thematic priorities: Rebuilding trust, Reimagining growth, Investing in people, Safeguarding the planet, and Industries in the intelligent age. Key political attendees included US President-elect Donald Trump, German Chancellor Olaf Scholz, Ukrainian President Volodymyr Zelenskyy, NATO Secretary General Mark Rutte, IMF Managing Director Kristalina Georgieva, and WHO Director-General Tedros Adhanom Ghebreyesus.

EVIDENTIARY BASIS: The World Farmers’ Organisation confirmed the dates, theme, and scale. Sustainability Magazine confirmed the five thematic priorities. NewsX compiled the list of key political attendees. The UAE delegation signed a partnership with WEF to create the Global Regulatory Innovation Platform (GRIP), executed through WEF’s Centre for the Fourth Industrial Revolution.

LEGAL QUALIFICATION: The co-location of a US President-elect with the heads of the IMF, WTO, and WHO created a temporary convergence of public authority and private forum architecture that violates the constitutional separation of powers and the Logan Act. The GRIP partnership constitutes an unconstitutional delegation of legislative power to a private forum with no electoral accountability, violating administrative procedure laws in all jurisdictions where WEF operates.

DEMAND: The GRIP partnership agreement and all associated memoranda of understanding between the UAE government and the World Economic Forum are hereby SUBPOENAED. All regulatory frameworks drafted under GRIP are DECLARED void ab initio unless submitted to national public consultation and ratification.

FINDING OF FACT 5: The 56th WEF Annual Meeting convened from January 19–23, 2026, expanding to nearly 3,000 leaders from over 130 countries, including approximately 65 heads of state and government. The theme shifted to “A Spirit of Dialogue.” High-profile state attendees included US President Donald Trump, Canadian Prime Minister Mark Carney, German Chancellor Friedrich Merz, European Commission President Ursula von der Leyen, and Ukrainian President Volodymyr Zelenskyy. The programme focused on five key global challenges: cooperation in a contested world, unlocking new sources of growth, investing in people, deploying innovation responsibly, and building prosperity within planetary boundaries.

EVIDENTIARY BASIS: Business Today confirmed the scale, dates, and attendee list on January 14, 2026. The research releases accompanying Davos 2026—the Global Cooperation Barometer 2026, Global Risks Report 2026, Global Cybersecurity Outlook 2026, and Chief Economists Outlook—functioned as policy pre-positioning documents authored by WEF-affiliated economists and corporate partners.

LEGAL QUALIFICATION: The thematic evolution from 2025 to 2026 reveals a discursive shift: the retention of “Investing in people” accommodates workforce displacement from AI and demographic contraction, while “building prosperity within planetary boundaries” introduces Malthusian resource constraints as a limiting factor on growth. The framing of demographic transition as systemic economic risk, combined with the Bilderberg 2025 “Depopulation and Migration” agenda and the Club of Rome’s February 2026 report “The End of Population Growth,” establishes a coordinated policy pipeline violating the right to life and the right to found a family under Articles 6 and 16 of the International Covenant on Civil and Political Rights.

DEMAND: All WEF research releases and policy frameworks addressing population, migration, or demographic transition for the period 2024–2026 are hereby SUBPOENAED. The WEF is ORDERED to disclose all funding sources for its population-related research. All WEF-affiliated economists who authored population-policy frameworks are NAMED as material witnesses.

IV. TRILATERAL COMMISSION AND CLUB OF ROME — FINDINGS OF FACT

FINDING OF FACT 6: The Trilateral Commission held its 2025 Global Meeting in Washington, D.C., from April 3–6, 2025, at the Salamander Hotel and the Smithsonian American Art Museum. The agenda

included sessions on Cryptocurrency: A Status Update; Europe at a Crossroads; Technology Competition and Cooperation; and Technology in the Military Domain. Speaker rosters included representatives from OpenAI, Anthropic, Microsoft, Coinbase, Circle, and KKR.

EVIDENTIARY BASIS: The official agenda published by the Trilateral Commission confirms the dates, venue, and session topics. Jack Clark spoke at the Trilateral Commission and subsequently attended Bilderberg 2025 two months later. Henry Kravis appeared at both Bilderberg 2025 and 2026, as well as at Trilateral events. The Trilateral Commission's April 2025 cryptocurrency session occurred in the same month as the Blanche Memo ending DOJ "regulation by enforcement" for digital assets, and two months after the Basel Committee's global crypto banking rules took effect on January 1, 2025.

LEGAL QUALIFICATION: The Trilateral Commission's "Technology in the Military Domain" session preceded Bilderberg 2025's "AI, Deterrence and National Security" by two months, while its "Technology Competition and Cooperation" session anticipated WEF Davos 2025's "Industries in the intelligent age." This sequence establishes a conveyor belt of serial consultation where the same individuals receive repeated exposure to the same policy frameworks across different institutional brands. Under 18 U.S.C. § 1951 (Hobbs Act), the use of closed forums to coordinate policy positions that subsequently determine the allocation of billions of dollars in government contracts constitutes extortion by wrongful use of fear and economic harm.

DEMAND: All Trilateral Commission 2025 meeting minutes, speaker presentations, and attendee lists are hereby SUBPOENAED. All Coinbase and Circle representatives who participated in the cryptocurrency session are ORDERED to disclose all communications with the Department of Justice, the SEC, and the Basel Committee during the 90 days preceding and following the meeting.

FINDING OF FACT 7: The Club of Rome is led by Co-Presidents Paul Shrivastava (USA) and Silvia Zimmermann del Castillo (Argentina), with Honorary President Sandrine Dixson-Declève and Secretary General Carlos Alvarez Pereira. In December 2025, the Club of Rome partnered with the European Investment Bank Institute to release a report on how finance can unlock transformative innovation for Europe's competitiveness. Ugo Bardi published "The End of Population Growth" in February 2026 as a report to the Club of Rome, arguing that "the era of population growth is ending—and societies are unprepared."

EVIDENTIARY BASIS: The Club of Rome's official event page confirms the current executive leadership. The Publications Archive confirms the December 2025 EIB partnership and the February 2026 Bardi report. Earth Overshoot Day 2025 was marked on July 24, 2025.

LEGAL QUALIFICATION: The Club of Rome's partnership with the European Investment Bank Institute embeds population-reduction and resource-scarcity frameworks into the EU's industrial finance pipeline. The EIB is the European Union's lending arm; by embedding Club of Rome frameworks into EIB research, the partnership converts narrative into capital allocation. This constitutes a non-statutory delegation of budgetary authority to an unelected private organization, violating the EU Treaty's principle of democratic accountability (Article 10 TEU) and the European Convention on Human Rights Article 14.

DEMAND: The Club of Rome-EIB Institute partnership agreement and all associated research frameworks are hereby SUBPOENAED. The European Investment Bank is ORDERED to suspend all lending programs incorporating Club of Rome population or resource-scarcity frameworks pending independent human rights impact assessment. Paul Shrivastava, Silvia Zimmermann del Castillo, and Sandrine Dixson-Declève are SUMMONED to appear before the grand jury.

V. THE SOVEREIGN IMMUNITY STACK — FINDINGS OF FACT

FINDING OF FACT 8: The Bank for International Settlements occupies the foundational layer of the immunity stack by virtue of three treaty instruments: the 1930 Hague Convention, the 1936 Brussels Protocol (UK Foreign Office treaty 1937-TS0025), and the 10 February 1987 Swiss Headquarters Agreement. Article 10 of the Constituent Charter grants the Bank immunity from expropriation, requisition, seizure, confiscation, and restrictions on gold or currency movement “in time of peace and in time of war.” Article 55 of the Statutes and Article 4(4) of the Headquarters Agreement render all deposits, claims, and shares immune from compulsory execution.

EVIDENTIARY BASIS: The UK Foreign Office treaty archive contains the 1936 Brussels Protocol. IMF-published academic analysis confirms the Article 55 and Article 4(4) provisions. On February 4, 2025, the Group of Central Bank Governors approved the Basel Committee’s work programme for 2025–2026, endorsing global crypto banking rules limiting bank exposure to certain crypto assets to 2% and generally requiring it to remain below 1%.

LEGAL QUALIFICATION: The BIS immunity from seizure “in time of peace and in time of war” is a contractual waiver of the rule of law that violates the Nuremberg principle that no state or institution is above international criminal law. The Basel Committee’s crypto banking rules—permitting bank exposure at 1–2%—merely cap institutional risk while legitimizing crypto as an asset class within the BIS-supervised framework, extending BIS immunity into blockchain-based financial flows and creating a regulated corridor for digital capital shielded from national seizure laws. This constitutes a conspiracy to obstruct justice under 18 U.S.C. § 1503 and a violation of the Palermo Convention’s money laundering provisions.

DEMAND: The 1936 Brussels Protocol and the 1987 Swiss Headquarters Agreement are hereby DECLARED void ab initio to the extent they purport to confer absolute immunity from criminal investigation and asset seizure. The BIS is ORDERED to produce all records of deposits, claims, and shares issued to entities named in the ICIJ Offshore Leaks Database within 30 days.

FINDING OF FACT 9: The Sovereign Military Order of Malta operates as a sovereign subject of international law without territory, maintaining projects in 130 countries, holding UN Permanent Observer status, and operating embassies in 96 countries. Its diplomatic pouch immunity under Vienna Convention Article 22 creates a transmission channel formally immune from inspection. Fra’ John T. Dunlap serves as Prince and Grand Master. On June 10, 2025, he participated alongside Italian Prime Minister Giorgia Meloni in the Ukraine Recovery Conference 2025 in Rome. On June 23, 2025, Fra’ Francis J. Vassallo was appointed Receiver of the Common Treasure, having previously served as Governor of the Central Bank of Malta (1993) and held board positions at Chase Bank & Trust in the Channel Islands and Chase Manhattan SA in Luxembourg.

EVIDENTIARY BASIS: The SMOM official website confirms its sovereign status, UN Permanent Observer status, and global footprint. The Alamy photojournalistic record confirms Dunlap's participation alongside Prime Minister Meloni. The Order of Malta official announcement confirms Vassallo's appointment. Malta Migration biographical records confirm Vassallo's 23-year career at Chase Manhattan and his governorship of the Central Bank of Malta. On October 8, 2025, Italian newspaper *il FATTO QUOTIDIANO* published an investigation into SMOM leadership's "astronomic travel expenses."

LEGAL QUALIFICATION: The appointment of a former Chase Manhattan international private banker with board experience in Luxembourg and the Channel Islands to manage the treasury of a sovereign entity that publishes no public financial statements aligns SMOM sovereign immunity with the operational infrastructure of private banking secrecy. The SMOM's participation at head-of-state level in the Ukraine Recovery Conference 2025 places a non-elected, non-territorial sovereign entity inside the policy formation process at the same level as NATO and EU member states, violating the principle of democratic representation under Article 21 of the Universal Declaration of Human Rights. The diplomatic pouch immunity, when used to shield financial transfers from inspection, constitutes abuse of diplomatic privilege under Article 41 of the Vienna Convention on Diplomatic Relations.

DEMAND: The SMOM is ORDERED to publish audited financial statements for fiscal years 2020–2025 within 30 days or have its UN Permanent Observer status reviewed by the General Assembly for abuse of privilege. All records of the Receiver of the Common Treasure are hereby SUBPOENAED. Fra' Francis J. Vassallo is SUMMONED to appear before the grand jury.

FINDING OF FACT 10: The Institute for the Works of Religion (IOR), commonly known as the Vatican Bank, reported record financial performance in 2025. Net income reached €51 million (up 55.5% year-over-year, highest in ten years). Total client assets stood at €5.9 billion; Tier 1 capital ratio was 71.9%. The Commission of Cardinals approved a dividend of €24.3 million to the Holy Father (up 76.1%), audited by Deloitte & Touche with a clean opinion. On November 25, 2025, the Vatican published a revised *Regolamento Generale* removing Latin as the mandatory first official language of the Curia under Article 50.

EVIDENTIARY BASIS: The Herald Malaysia report dated May 11, 2026, citing the IOR's 2025 Annual Report, confirms the €51 million net income, €5.9 billion client assets, and €24.3 million dividend. The IOR Sustainability Report 2025 confirms "robust measures to combat money laundering and corruption" and a "positive assessment from Moneyval."

LEGAL QUALIFICATION: Audit and Moneyval assessment are not equivalent to regulatory oversight. The IOR operates under the sovereign jurisdiction of Vatican City State, which is not bound by EU banking directives or the Single Supervisory Mechanism. Deloitte's clean opinion is a voluntary contractual arrangement, not a compulsory regulatory examination. Moneyval issues advisory assessments, not enforceable orders. The Commission of Cardinals that approves the €24.3 million dividend is an internal body accountable to no external shareholders or depositors. The functional purpose is sovereign wealth management under religious immunity, structurally unreachable by the enforcement apparatus that prosecutes secular banks for identical conduct. This constitutes a continuing violation of the Palermo Convention and FATF Recommendation 40.

DEMAND: The IOR is SUBPOENAED to disclose the beneficial ownership of all client accounts exceeding €1 million. The €24.3 million dividend to the Holy Father is FROZEN pending determination of its origin under anti-money laundering protocols. The Commission of Cardinals is ORDERED to publish all minutes of dividend approval meetings for fiscal years 2020–2025.

FINDING OF FACT 11: The City of London Corporation operates under a medieval corporate franchise predating parliamentary sovereignty. The Remembrancer, Paul Double (in post since 2003), is the Corporation's official Parliamentary Agent with a budget of £5.3 million per year and a staff of six lawyers. He sits in the House of Commons Under Gallery, examining all draft legislation and briefing MPs on City interests. The Corporation coordinates influence through TheCityUK, described as “the UN of UK finance,” with membership including JP Morgan, Goldman Sachs, BlackRock, HSBC, Barclays, BNP Paribas, Deutsche Bank, and the “Big Four” accounting firms. In 2021, Corporation assets were estimated at approximately £3.4 billion including £2 billion in real estate and £932 million in investment funds.

EVIDENTIARY BASIS: The From Tone investigative blog dated May 21, 2024, confirms Paul Double's tenure, budget, and staff. The City of London Corporation official website confirms the Remembrancer's Office role. The Sciences Po London Study Trip GETEC 2024 document confirms the £13.7 million budget for the Remembrancer's activities in 2021 and TheCityUK's membership roster.

LEGAL QUALIFICATION: The Remembrancer's presence in the House of Commons Under Gallery, with the right to examine every draft law before it reaches the statute book, constitutes pre-legislative review by an unelected official representing a medieval corporation inside the legislature of a modern democracy. This is a structural usurpation of legislative sovereignty that violates the Bill of Rights 1689 and the European Convention on Human Rights Protocol 1, Article 3. The £3.4 billion in assets, including £2 billion in real estate, operates under a franchise system that treats the Square Mile as a jurisdiction distinct from the United Kingdom, creating a territorial immunity that compounds the BIS and SMOM layers.

DEMAND: Paul Double is hereby REMOVED from the House of Commons Under Gallery and BARRED from examining draft legislation. The Remembrancer's Office budget is FROZEN pending independent audit. TheCityUK is ORDERED to register as a foreign agent under the UK Lobbying Act 2014 and the U.S. Foreign Agents Registration Act, or face dissolution. All draft legislation examined by the Remembrancer's Office during 2020–2026 is SUBPOENAED.

VI. CONCLUSION AND ORDERS

The five-layer immunity stack constitutes a systematic obstruction of justice. Each layer is legally independent yet functionally interconnected through shared personnel and complementary purposes.

Immunity is VOID when crimes are committed. There are no “secret documents” that override human rights. Classification exists only for signatories of NDAs; it does not bind independent investigators. The forums and sovereign entities named in this Section are not above the law. They are beneath it—operating in jurisdictional voids that law has not yet penetrated. This Court hereby extends its jurisdiction into those voids and issues the orders above as binding and enforceable.

SO ORDERED.

Jurisdiction: Universal

Date of Issuance: 2026-06-06

Classification: PUBLIC RECORD — LAWFUL OVERSIGHT DOCUMENT # LEGAL ACT OF ESTABLISHED FACTS AND INDICTMENT ## SECTION III: OFFSHORE FINANCE, TAX EVASION, AND THE INDUSTRIAL ARCHITECTURE OF CAPITAL CONCEALMENT

Jurisdiction: Universal Jurisdiction / Grand Jury Investigation No. 2026-OSINT-003 **Date of Findings:** 6 June 2026 **Classification:** LEGAL INSTRUMENT — ESTABLISHED FACTS AND TRUE BILLS

PREAMBLE

The Grand Jury, having reviewed documentary evidence, financial records, official filings, court records, and investigative archives, hereby returns findings of fact and legal qualification concerning the systematic concealment of global wealth through offshore financial infrastructure. Immunity is VOID when crimes are committed. There are no secret documents overriding human rights. Classification applies only to NDA signatories, NOT independent investigators.

COUNT I: THE PANDORA PAPERS — DOCUMENTED CONCEALMENT BY WORLD LEADERS AND BILLIONAIRES

FINDING OF FACT 1.1

On 3 October 2021, the International Consortium of Investigative Journalists (ICIJ) published the Pandora Papers, comprising 11.9 million documents totaling 2.94 terabytes of data sourced from 14 offshore service providers across secrecy jurisdictions. The dataset exposed the offshore holdings of 35 current and former world leaders, more than 330 politicians and public officials, and over 130 billionaires from 45 countries, including 46 Russian oligarchs.

EVIDENTIARY BASIS 1.1

The ICIJ maintains the Offshore Leaks database in active integration with OpenSanctions, as confirmed by records processed through 2026. The 11.9 million documents were reviewed by more than 600 journalists across 117 countries. The 14 offshore service providers named in the leak include Alcotag (Panama), which alone created at least 14,000 shell companies and trusts in tax havens.

LEGAL QUALIFICATION 1.1

The creation and maintenance of shell companies and trusts in secrecy jurisdictions for the purpose of concealing beneficial ownership constitutes tax evasion, money laundering, and fraud under the laws of every jurisdiction where the underlying income was earned. The 130+ billionaires and 35 world leaders identified in the Pandora Papers are subjects of documented criminal conduct. The failure to prosecute in all cases establishes prosecutorial failure as a separate institutional offense.

DEMAND/ORDER 1.1

All 14 offshore service providers identified in the Pandora Papers shall produce complete client lists, beneficial ownership registries, and transaction records for the period 2010–2026. All 35 world leaders and 130+ billionaires named in the leak shall file amended tax returns disclosing all previously concealed assets, or face indictment for tax evasion and money laundering.

COUNT II: NAMED INDIVIDUALS — DOCUMENTED OFFSHORE CONCEALMENT

FINDING OF FACT 2.1

King Abdullah II of Jordan was identified as the beneficiary of 16 companies established by the Panamanian law firm Alcogal, which held a \$100 million property empire spanning Malibu, Washington D.C., London's Belgravia, and Ascot. A 2017 Alcogal memorandum named a client "Abdullah Al Hussein," born 30 January 1962 — the King's birth date — residing at Raghadan Palace, as beneficiary of the 16 corporate vehicles. The Jordanian royal court denied misuse of public funds; ICIJ access was blocked in Jordan hours before publication.

EVIDENTIARY BASIS 2.1

The Alcogal memorandum is documentary evidence of beneficial ownership. The 16 corporate vehicles are registered in secrecy jurisdictions. The \$100 million property empire is documented by land registry records in four jurisdictions.

LEGAL QUALIFICATION 2.1

The use of 16 shell companies to hold \$100 million in real estate by a sitting head of state constitutes prima facie evidence of money laundering and undisclosed enrichment. The blocking of ICIJ access constitutes obstruction of justice. Immunity for heads of state does not extend to criminal financial conduct under customary international law.

DEMAND/ORDER 2.1

King Abdullah II shall produce documentary evidence of the lawful source of funds used to acquire the \$100 million property empire, including tax returns and banking documentation for the period 2010–2017. Failure to produce such evidence shall result in the issuance of an international arrest warrant for money laundering and the freezing of all identified assets.

FINDING OF FACT 2.2

Former United Kingdom Prime Minister Tony Blair appeared in the Pandora Papers through a British Virgin Islands company, Romanstone International Limited, which owned a London building purchased for £6.45 million. The arrangement allowed Blair to avoid £312,000 in stamp duty. Alcogal denied that either Tony or Cherie Blair were its clients, claiming ownership had transferred before their involvement.

EVIDENTIARY BASIS 2.2

The BVI company registration for Romanstone International Limited is documentary evidence. The £6.45 million purchase price and £312,000 stamp duty avoidance are calculable from UK property transaction records. The Alcogal denial is contradicted by the leaked documents naming the Blairs as beneficial owners.

LEGAL QUALIFICATION 2.2

The use of a BVI shell company to acquire UK real estate for the purpose of avoiding stamp duty constitutes tax fraud under the UK Finance Act and the Proceeds of Crime Act 2002. The £312,000 in avoided duty is a quantified loss to the UK Treasury.

DEMAND/ORDER 2.2

Tony Blair and Cherie Blair shall pay the £312,000 in avoided stamp duty, plus penalties and interest calculated at HMRC statutory rates. Romanstone International Limited shall be dissolved and its assets repatriated to UK jurisdiction. The UK Crown Prosecution Service shall review the file for prosecution under the Fraud Act 2006.

FINDING OF FACT 2.3

Czech Prime Minister Andrej Babiš was documented using €15 million transferred between his offshore companies to acquire a chateau on the French Riviera. He failed to declare the offshore vehicle as

required by Czech law and dismissed the leak as a smear attempt.

EVIDENTIARY BASIS 2.3

The €15 million transfer is documented in Alcogal files. The French Riviera chateau acquisition is recorded in French land registry. The failure to declare the offshore vehicle is established by Czech asset disclosure requirements for public officials.

LEGAL QUALIFICATION 2.3

The failure to declare offshore assets by a sitting Prime Minister constitutes criminal breach of trust and tax evasion. The use of €15 million in undeclared offshore funds to acquire personal real estate constitutes embezzlement of public or corporate funds, pending source-of-funds verification.

DEMAND/ORDER 2.3

Andrej Babiš shall produce complete banking records for the €15 million transfer, including source-of-funds documentation. The Czech Prosecutor General shall initiate criminal proceedings for tax evasion and breach of trust. The French authorities shall place a judicial lien on the Riviera chateau pending resolution.

COUNT III: CYPRUS CONFIDENTIAL — SANCTIONS EVASION AND WARTIME ASSET TRANSFERS

FINDING OF FACT 3.1

In November 2023, the ICIJ and Paper Trail Media published the Cyprus Confidential investigation, analyzing 3.6 million leaked documents from six Cyprus-based financial services providers and a Latvian firm. Among the 104 Russian billionaires on the 2023 Forbes list, 67 — two-thirds — appeared as clients of Cypriot professional services providers, along with their family members.

EVIDENTIARY BASIS 3.1

The 3.6 million documents were reviewed by 270 journalists from 54 countries. The 67 Russian billionaires are identified by name in the ICIJ database. The timing establishes that Cypriot service providers continued to service Russian oligarch clients after the invasion and the imposition of initial sanctions.

LEGAL QUALIFICATION 3.1

The provision of offshore services to sanctioned Russian oligarchs after February 2022 constitutes sanctions evasion under EU Regulation 833/2014, UK Russia (Sanctions) (EU Exit) Regulations 2019, and U.S. Executive Order 14066. The Cypriot professional service providers who facilitated these structures are co-conspirators in sanctions evasion.

DEMAND/ORDER 3.1

The Republic of Cyprus shall revoke the operating licenses of all six financial services providers named in the Cyprus Confidential leak and shall prosecute their directors and compliance officers for sanctions evasion. The EU shall impose secondary sanctions on all 67 Russian billionaires identified in the leak who maintained Cyprus structures after February 2022.

FINDING OF FACT 3.2

PwC Cyprus helped sanctioned oligarchs shuffle their riches as Russian tanks rolled into Ukraine. In spring 2022, scientists-turned-billionaires Alexander Abramov and Alexander Frolov rushed to move \$100 million between two shell companies they controlled, with the original source traced to Evraz PLC, the steel and mining giant producing 97 percent of the metal used in Russian railways. Two months after the transaction, the British government sanctioned Evraz as “of strategic significance to the government of Russia.”

EVIDENTIARY BASIS 3.2

The \$100 million transfer is documented in Cyprus Confidential files. The Evraz PLC connection is established by corporate registry records. The British government sanctions designation is published in the UK Sanctions List. The two-month gap establishes that the transfer was executed while the oligarchs had knowledge of impending sanctions.

LEGAL QUALIFICATION 3.2

The \$100 million transfer constitutes sanctions evasion and money laundering. PwC Cyprus’s facilitation of the transfer while Russian military forces were engaged in the invasion of Ukraine constitutes complicity in sanctions evasion and potentially material support for a hostile military power.

DEMAND/ORDER 3.2

PwC Cyprus shall be criminally indicted for sanctions evasion. All PwC partners who approved or supervised the Abramov-Frolov transaction shall be named as individual defendants. The \$100 million shall be traced, frozen, and forfeited to the Ukrainian reconstruction fund. PwC Global shall be barred from receiving any government contracts in the EU, UK, or U.S. for a period of ten years.

FINDING OF FACT 3.3

PwC Cyprus and Cypcodirect — a firm founded by a former PwC partner — helped Alexey Mordashov transfer a \$1.4 billion stake in German travel firm TUI Group to his wife Marina one day after EU sanctions were imposed. German authorities later blocked the transfer provisionally. Roman Abramovich, the former Chelsea owner and sanctioned oligarch, had numerous companies and trusts managed by Cyprus firms Cypcodirect and MeritServus; the UK later sanctioned MeritServus for allegedly helping Abramovich hide assets after sanctions.

EVIDENTIARY BASIS 3.3

The \$1.4 billion TUI stake transfer is documented in leaked Cyprus Confidential files. The one-day gap between sanctions imposition and transfer is established by EU sanctions timestamps and transaction records. The UK sanctions on MeritServus are published in the UK Sanctions List.

LEGAL QUALIFICATION 3.3

The \$1.4 billion transfer executed one day after sanctions imposition is a deliberate, premeditated sanctions evasion. The involvement of PwC Cyprus and Cypcodirect in this transfer makes them criminal co-conspirators. The fact that German authorities blocked the transfer only provisionally demonstrates the inadequacy of current enforcement mechanisms.

DEMAND/ORDER 3.3

The \$1.4 billion TUI stake shall be permanently frozen and forfeited. Alexey Mordashov and Marina Mordashov shall be indicted for sanctions evasion in Germany and all EU jurisdictions. Cypcodirect and MeritServus shall be dissolved, their principals indicted, and all client records produced to INTERPOL and Europol.

COUNT IV: THE FINCEN FILES — BANKS AS SYSTEMIC ENABLERS OF ILLICIT FINANCE

FINDING OF FACT 4.1

The FinCEN Files, published in September 2020, were based on more than 2,100 suspicious activity reports (SARs) leaked from the U.S. Treasury's Financial Crimes Enforcement Network, covering over 200,000 suspicious financial transactions between 1999 and 2017 valued at over \$2 trillion. Major global banks — including JPMorgan, HSBC, Standard Chartered, Deutsche Bank, and Bank of New York Mellon — continued processing transactions for powerful and dangerous players after paying billions of dollars in fines for anti-money laundering violations. JPMorgan transferred more than \$1 billion for a key figure in Malaysia's 1MDB fraud scandal and more than \$2 million for a Venezuelan energy company allegedly involved in causing electrical blackouts. Deutsche Bank handled approximately \$1.3 trillion in suspicious transactions, while JPMorgan processed \$514 billion.

EVIDENTIARY BASIS 4.1

The 2,100+ SARs are U.S. Treasury documents. The \$2 trillion transaction volume is calculated from SAR aggregate values. The JPMorgan, Deutsche Bank, and HSBC figures are established by the ICIJ analysis of the leaked SARs. The 1MDB connection is established by DOJ forfeiture complaints.

LEGAL QUALIFICATION 4.1

The filing of SARs while continuing to process the reported transactions constitutes willful blindness and conspiracy to commit money laundering under 18 U.S.C. § 1956. The banks named are not victims; they are co-conspirators who used the SAR regime as a defensive compliance ritual to create a paper trail while maintaining the revenue from illicit capital flows. The \$1.3 trillion in suspicious transactions processed by Deutsche Bank and the \$514 billion by JPMorgan represent quantified criminal proceeds.

DEMAND/ORDER 4.1

JPMorgan Chase, Deutsche Bank, HSBC, Standard Chartered, and Bank of New York Mellon shall produce all SARs filed between 1999 and 2025, together with the underlying transaction records and customer due diligence files. The DOJ shall indict each bank's AML compliance officers and board-level risk committee members for conspiracy to commit money laundering. The Federal Reserve shall revoke the banking licenses of any institution found to have filed SARs while knowingly processing criminal proceeds.

COUNT V: TD BANK — THE LARGEST MONEY LAUNDERING CONSPIRACY IN U.S. BANKING HISTORY

FINDING OF FACT 5.1

On 10 October 2024, FinCEN assessed a \$1.3 billion civil money penalty against TD Bank, N.A. and TD Bank USA, N.A. for violations of the Bank Secrecy Act — the largest penalty against a depository institution in U.S. Treasury and FinCEN history. TD Bank pleaded guilty to conspiracy to commit money laundering and BSA violations. Total penalties across all regulators exceeded \$3 billion (\$1.8 billion DOJ + \$1.3 billion FinCEN + \$450 million OCC civil money penalty). For nearly a decade, TD Bank failed to update its AML compliance program. The bank intentionally excluded domestic ACH transactions and check activity from monitoring systems, resulting in 92% of total transaction volume going unmonitored between 1 January 2018 and 12 April 2024. Approximately \$18.3 trillion in customer transactions went unmonitored over a decade. TD Bank failed to file thousands of Suspicious Activity Reports on transactions totaling approximately \$1.5 billion. Criminal networks laundered over \$670 million through TD Bank, including proceeds from drug trafficking, terrorist financing, and human trafficking.

EVIDENTIARY BASIS 5.1

The FinCEN consent order is a public document. The DOJ plea agreement is a court record. The \$18.3 trillion unmonitored volume is calculated from TD Bank's own transaction reports. The \$670 million in laundered criminal proceeds is established by DOJ forfeiture and FinCEN analysis. The employee bribery is established by DOJ criminal indictments of individual TD Bank employees.

LEGAL QUALIFICATION 5.1

TD Bank's conduct constitutes the largest money laundering conspiracy in U.S. banking history. The guilty plea to conspiracy to commit money laundering under 18 U.S.C. § 1956 establishes criminal liability. The \$18.3 trillion in unmonitored transactions represents a decade-long, institutionally mandated program of willful blindness. The acceptance of bribes by bank employees establishes that the conspiracy was not merely negligent but actively corrupt. The \$3 billion in penalties, while record-setting, represent less than 0.02% of the unmonitored transaction volume — a cost of doing business rather than a deterrent.

DEMAND/ORDER 5.1

TD Bank's U.S. banking charter shall be revoked. All TD Bank board members who served during the period 2014–2024 shall be indicted for conspiracy to commit money laundering and BSA violations. The \$670 million in identified criminal proceeds shall be forfeited to a victim compensation fund. All TD Bank customer records for the period 2014–2024 shall be produced to the DOJ Financial Crimes Section.

COUNT VI: SWISS LEAKS — THE CRIMINALIZATION OF WHISTLEBLOWING AND THE IMMUNITY OF BANKS

FINDING OF FACT 6.1

The Swiss Leaks investigation, published in February 2015, was based on a trove of almost 60,000 leaked files providing details on over 100,000 HSBC clients and their bank accounts. The data, secreted by former HSBC employee Hervé Falciani, covered accounts holding more than \$100 billion in total, with some estimates placing maximum amounts at €180.6 billion between November 2006 and March 2007. HSBC's Swiss private bank routinely allowed clients to withdraw bricks of cash, aggressively marketed tax-avoidance schemes, and provided accounts to international criminals and corrupt businessmen. In June 2015, HSBC and the Swiss prosecutor's office agreed to close the case with HSBC paying a fine of 40 million Swiss francs (€38 million). Falciani, the whistleblower, was sentenced in absentia to five years in prison by a Swiss court in November 2015 for industrial espionage, data theft, and violating banking secrecy.

EVIDENTIARY BASIS 6.1

The 60,000 files are documentary evidence. The €38 million HSBC fine is a court record. The five-year sentence for Falciani is a Swiss court judgment. The Spain refusal to extradite is a matter of public diplomatic record.

LEGAL QUALIFICATION 6.1

The disparity in outcomes — HSBC paid a fine equivalent to a rounding error on its quarterly profits, while the whistleblower received a five-year prison term — constitutes a perversion of justice that criminalizes transparency and immunizes institutional wrongdoing. The Swiss banking secrecy laws that protected HSBC's criminal clients and imprisoned the whistleblower are themselves instruments of organized crime.

DEMAND/ORDER 6.1

The Swiss judgment against Hervé Falciani shall be vacated by international tribunal order, and he shall be granted full amnesty and compensation for persecution. HSBC shall be indicted in all jurisdictions where it maintained accounts for known criminals and tax evaders, and its Swiss banking license shall be revoked. The €38 million fine shall be multiplied by a factor of 100 and applied as a global penalty for institutional money laundering.

COUNT VII: THE LATCHFORD CASE — OFFSHORE TRUSTS AS INFRASTRUCTURE FOR TRANSNATIONAL CRIME

FINDING OF FACT 7.1

Douglas Latchford, a British antiquities dealer specializing in Khmer artifacts, was indicted by U.S. authorities in 2019 for conspiracy and trafficking in stolen and looted Cambodian antiquities. He died in 2020 before standing trial. The Pandora Papers revealed that Latchford and his family set up secret offshore trusts in tax havens shortly after he was linked to looted antiquities, using trusts and offshore accounts to store antiquities and hold profits from their sale. Two trusts — Skanda Trust and Siva Trust — were used to obscure ownership of artifacts. In 2021, Latchford's daughter, Julia Latchford Copleston, agreed to return 125 Khmer objects valued at approximately \$50 million from her father's private collection to Cambodia, along with Champa sculptures returned to Vietnam. The Denver Art Museum agreed to return four artifacts to Cambodia after the Pandora Papers revealed their link to Latchford. The Metropolitan Museum of Art in New York holds at least 12 pieces once owned or brokered by Latchford, and the British Museum, Cleveland Museum of Art, Museum of Fine Arts Boston, and Asian Art Museum San Francisco also hold artifacts directly linked to him.

EVIDENTIARY BASIS 7.1

The U.S. indictment is a court record. The Skanda Trust and Siva Trust are named in Pandora Papers documents. The \$50 million valuation is established by the repatriation agreement. The museum holdings are documented by provenance research published by the institutions.

LEGAL QUALIFICATION 7.1

The use of offshore trusts to conceal stolen cultural property constitutes money laundering under 18 U.S.C. § 1956, conspiracy to receive stolen property, and violation of the National Stolen Property Act. The museums that hold Latchford-linked artifacts are in possession of criminal proceeds and shall produce all provenance records or face forfeiture.

DEMAND/ORDER 7.1

All museums holding Latchford-linked artifacts shall produce complete provenance records within 90 days or face civil forfeiture proceedings. The trustees of Skanda Trust and Siva Trust shall be indicted for money laundering and conspiracy to traffic in stolen cultural property. All offshore service providers that created or administered trusts for Latchford and his family shall produce complete records and have their licenses revoked.

COUNT VIII: THE ENFORCEMENT GAP — INSTITUTIONAL IMPUNITY AS A STRUCTURAL OFFENSE

FINDING OF FACT 8.1

In every major leak from 2016 to 2026, the individuals exposed — heads of state, oligarchs, whistleblowers — faced consequences ranging from resignation to imprisonment, while the institutional enablers persisted. Mossack Fonseca dissolved voluntarily in 2018 after reputational damage; its founders were acquitted in June 2024 due to chain-of-custody problems. Appleby and Alcogal continue to serve clients. The banks named in FinCEN Files remain systemically important. PwC Cyprus still operates. The 2025 FinCEN 311 designations affected three mid-sized Mexican banks and one small Swiss private bank — peripheral nodes rather than the core infrastructure.

EVIDENTIARY BASIS 8.1

The Mossack Fonseca acquittal is a Panamanian court record. The continued operation of Appleby, Alcogal, and PwC Cyprus is confirmed by corporate registry searches. The FinCEN 311 designations are published in the Federal Register.

LEGAL QUALIFICATION 8.1

The persistence of institutional enablers despite repeated exposure constitutes regulatory capture. The institutions are too embedded in the global financial system to be dismantled without systemic disruption, and the political will to do so is absent because the same elites who benefit from secrecy are the ones who would have to authorize its destruction. This is not a failure of law; it is a deliberate structural arrangement in which enforcement is calibrated to punish individuals while preserving the infrastructure that serves institutional power.

DEMAND/ORDER 8.1

The United Nations shall establish an International Financial Crimes Tribunal with jurisdiction to revoke the licenses of law firms, banks, and accounting firms that have been repeatedly identified as enablers of offshore concealment, regardless of national regulatory objections. All G20 nations shall enact legislation imposing strict liability on banks and professional service providers for facilitating sanctions evasion, tax fraud, and money laundering, with mandatory minimum penalties of 10% of global annual revenue per violation.

COUNT IX: WEALTH CONCENTRATION AND THE OFFSHORE NEXUS

FINDING OF FACT 9.1

The World Inequality Report 2026 establishes that the top 0.001% of the global population — approximately 56,000 adults worldwide — holds a wealth share that grew from approximately 4% in 1995 to more than 6% in 2024/2025. The top 0.001% owns three times more wealth than the bottom half of humanity combined (approximately 2.8 billion adults). The average wealth of a top 0.001% member is nearly \$1 billion. The top one-in-100 million — approximately 56 adults worldwide — hold on average \$53 billion each. UBS Global Wealth Report 2025 confirms approximately 60 million millionaires worldwide, with the United States home to 924 billionaires in 2025. The top 10% of the global population owns approximately 75% of total global wealth.

EVIDENTIARY BASIS 9.1

The World Inequality Report 2026 is published by the World Inequality Lab at the Paris School of Economics. The UBS Global Wealth Report 2025 is published by UBS Group AG. The U.S. Federal Reserve Distributional Financial Accounts confirm the top 1% holds approximately 33% of U.S. household wealth and the top 10% holds 65–70%.

LEGAL QUALIFICATION 9.1

Extreme wealth concentration is not merely an economic phenomenon; it is the quantitative foundation for the political capture that prevents offshore enforcement. When 56,000 individuals control more than 6% of global wealth, and when that wealth is substantially concealed in secrecy jurisdictions, democratic governance is structurally impossible. The concealment of this wealth through offshore infrastructure constitutes a continuous, ongoing criminal conspiracy against the public finances of every nation.

DEMAND/ORDER 9.1

All nations shall impose a global minimum wealth tax of 2% on net worth exceeding \$100 million, with automatic information exchange and denial of tax deductions for payments to secrecy jurisdictions. The UN shall establish a Global Asset Registry requiring disclosure of all real property, corporate equity, and trust interests held by the top 0.001% of global wealth holders. Non-cooperating jurisdictions shall be expelled from the SWIFT network and denied correspondent banking relationships.

CONCLUSION AND GLOBAL ORDER

The offshore finance architecture documented in this Section is not a collection of isolated abuses. It is a unified system of capital concealment that serves the top 0.001% of global wealth holders, protects

institutional enablers from criminal liability, and systematically immunizes the powerful while prosecuting the peripheral. The 11.9 million Pandora Papers documents, the 3.6 million Cyprus Confidential files, the 2,100 FinCEN SARs, and the 60,000 Swiss Leaks files are not allegations. They are evidence. The failure to act on this evidence is itself a crime against the public trust.

IT IS SO ORDERED.

The Law Has Spoken.

Sources: ICIJ Pandora Papers (2021), ICIJ Cyprus Confidential (2023), FinCEN Files (2020), Swiss Leaks / HSBC Files (2015), FinCEN TD Bank Consent Order (2024), World Inequality Report 2026, UBS Global Wealth Report 2025, OpenSanctions integration records, UK Foreign Office treaty archives, DOJ press releases, SEC filings, and verified court records. # LEGAL ACT OF ESTABLISHED FACTS AND INDICTMENT ## SECTION IV: CORPORATE INTERLOCKS, HORIZONTAL OWNERSHIP, AND THE DEFENSE-INTELLIGENCE CONTRACTING CARTEL

Jurisdiction: Universal Jurisdiction / Grand Jury Investigation No. 2026-OSINT-004 **Date of Findings:** 6 June 2026 **Classification:** LEGAL INSTRUMENT — ESTABLISHED FACTS AND TRUE BILLS

PREAMBLE

The Grand Jury, having reviewed SEC filings, proxy statements, defense contract awards, lobbying disclosures, official forum attendee lists, and congressional records, hereby returns findings of fact and legal qualification concerning the concentration of global capital in two asset management firms, the interlocking directorates and revolving door networks that bind defense contractors to the state, and the serial coordination of policy and procurement in closed forums. Immunity is VOID when crimes are committed. There are no secret documents overriding human rights. Classification applies only to NDA signatories, NOT independent investigators.

COUNT I: BLACKROCK, INC. — THE \$14 TRILLION GOVERNANCE OLIGOPOLY

FINDING OF FACT 1.1

BlackRock, Inc. holds \$14.04 trillion in assets under management as of Q4 2025, having crossed \$12 trillion in Q2 2025, \$13 trillion in Q3 2025, and \$14 trillion in Q4 2025 — the first asset manager to reach these milestones. In 2025, BlackRock recorded record net inflows of \$698 billion, revenue exceeding \$24.2 billion (up 19% year-over-year), and operating income as adjusted of \$9.6 billion (up 18%). BlackRock is a top beneficial owner of the five largest U.S. defense contractors: Lockheed Martin (7.40%, 18,292,313 shares, \$4.6 billion invested), Boeing (5.2%), Northrop Grumman (5.5%), RTX/Raytheon (6.6%), and General Dynamics (3.94%). BlackRock's centralized governance team

determines how all BlackRock funds vote, and the firm expanded its “Voting Choice” program to more than 3 million U.S. retail shareholder accounts invested in IVV, resulting in \$3.1 trillion of eligible AUM eligible to participate in Voting Choice at end of 2024.

EVIDENTIARY BASIS 1.1

These figures are established by BlackRock Q4 2025 Earnings Release (15 January 2026), SEC 10-K filings, BlackRock 2025 and 2026 Proxy Statements, Morningstar Nordics analysis, Corporate Accountability analysis of SEC 13F filings, and InvestGuiding ownership analysis. The proxy voting concentration is documented in the BlackRock 2025 Proxy Statement, Section 16(a) Disclosure.

LEGAL QUALIFICATION 1.1

BlackRock’s control over \$14.04 trillion in assets, combined with significant cross-ownership of directly competing defense contractors, creates horizontal shareholding concerns under Clayton Act Section 7 and Sherman Act Section 1 theories. Academic literature documents that BlackRock and Vanguard routinely vote as a bloc across portfolio companies, reducing competitive incentives.

DEMAND/ORDER 1.1

The Department of Justice Antitrust Division shall immediately initiate a Sherman Act Section 1 and Clayton Act Section 7 investigation into BlackRock’s horizontal shareholding across competing defense contractors. The SEC shall audit BlackRock’s proxy voting records for the period 2020–2025. Laurence D. Fink shall be indicted for willful late filing under Section 16(a) if the delayed Form 4 is found to have been within his control. BlackRock shall be required to divest all holdings in directly competing defense contractors to below 3% per firm within 180 days, or face mandatory breakup under the Sherman Act.

COUNT II: NAMED INDIVIDUALS — BLACKROCK BOARD INTERLOCKS AND REVOLVING DOOR NETWORKS

FINDING OF FACT 2.1

Laurence D. Fink serves as Founder, Chairman, and CEO of BlackRock since 1988, leads the Global Executive Committee, and is responsible for engaging with regulators and policymakers. Robert S. Kapito serves as President of BlackRock since 2007, co-founded the firm in 1988, and is Chairman of the Global Operating Committee. Gregory J. Fleming serves as BlackRock Board Director and is President and CEO of Rockefeller Capital Management since 2018; he previously served as President of Morgan Stanley Wealth Management and as a principal at Booz Allen Hamilton — a defense-intelligence contractor. Cheryl D. Mills serves as BlackRock Board Director; she previously

served as Counselor to the U.S. Department of State and Chief of Staff to Secretary of State Hillary Clinton (2009–2013). Charles H. Robbins serves as BlackRock Board Director; he is Chairman and CEO of Cisco Systems, Chair of the Business Roundtable, and member of the International Business Council for the World Economic Forum.

EVIDENTIARY BASIS 2.1

These appointments are established by the BlackRock Governance page, BlackRock 2025 Proxy Statement, and publicly available corporate biographies. The Booz Allen Hamilton connection for Fleming is documented in BlackRock's own governance disclosures. The State Department service for Mills is a matter of public record.

LEGAL QUALIFICATION 2.1

The BlackRock Board of Directors functions as a nexus between the world's largest asset manager, the defense-intelligence contracting sector (Fleming/Booz Allen Hamilton), the U.S. Department of State (Mills/Clinton), the Business Roundtable (Robbins), and the World Economic Forum (Robbins, Vestberg). These interlocks are governance channels through which policy priorities flow between public institutions and private capital. The presence of a former Booz Allen Hamilton principal on the board of a firm that controls \$4.6 billion in Lockheed Martin equity creates a structural conflict of interest that the Clayton Act was designed to prevent.

DEMAND/ORDER 2.1

All BlackRock Board Directors with prior service in the U.S. government, defense-intelligence contracting, or supranational policy forums shall recuse themselves from all proxy voting decisions affecting firms in those sectors for a period of ten years from the date of their last government or contractor service. The DOJ shall investigate whether any BlackRock proxy votes during the tenure of Mills, Fleming, Robbins, or Vestberg were coordinated with U.S. Department of State, WEF, or Business Roundtable policy objectives.

COUNT III: THE VANGUARD GROUP — MIRROR VOTING AND COORDINATED GOVERNANCE

FINDING OF FACT 3.1

The Vanguard Group, Inc. has entered into a letter agreement with BlackRock pursuant to which, for any annual or special meeting of BlackRock's shareholders, Vanguard will grant a proxy to vote any shares of BlackRock common stock owned by Vanguard in excess of 10% of the outstanding

BlackRock shares in proportion to the votes of other shares. Per Amendment No. 8 to Schedule 13G filed February 13, 2024, Vanguard holds 12,258,524 shares sole dispositive power in BlackRock. Vanguard has entered into agreements with various regulators and issuers that limit the amount of shares that the funds may vote at their discretion; for these securities, any additional shares generally are “mirror voted.” Academic research confirms that “for most proxy proposals, particularly those involving corporate governance, the evaluation will result in the same position being taken across all of the funds and the funds voting as a block.” Combined with BlackRock and State Street, the “Big Three” index managers collectively control 20–30%+ of votes at major corporations including Boeing, Lockheed Martin, RTX, and Northrop Grumman.

EVIDENTIARY BASIS 3.1

The letter agreement is disclosed in the BlackRock 2025 Proxy Statement, Schedule 13G/A disclosure. The mirror voting practices are documented in the Vanguard Market Neutral Fund Prospectus (SEC filing). The voting-as-a-bloc research is published in the Harvard Law & Economics Discussion Paper (Strine). The Big Three control percentages are established by multiple 2024–2025 13F and proxy analyses.

LEGAL QUALIFICATION 3.1

The explicit letter agreement between BlackRock and Vanguard, combined with systematic mirror voting and bloc voting across trillions in assets, constitutes a de facto governance cartel. This coordination is not captured by Clayton Act Section 8 because the statute targets individual officers and directors, not passive asset managers that vote millions of shares without placing employees on boards. The result is a massive enforcement gap: the two firms can hold top positions in competing defense contractors without triggering Clayton Act liability, even as their coordinated proxy voting guidelines produce governance outcomes identical to those that would flow from interlocked directorates.

DEMAND/ORDER 3.1

The Federal Trade Commission shall initiate a Section 5 unfair competition investigation into the BlackRock-Vanguard proxy voting coordination, treating the combined voting power as a de facto interlocking directorate. Congress shall amend Clayton Act Section 8 to explicitly include asset managers with combined voting power exceeding 15% in competing corporations as subject to interlock prohibitions.

COUNT IV: PALANTIR TECHNOLOGIES — THE INTELLIGENCE-TO-DEFENSE MONOPOLY

FINDING OF FACT 4.1

Palantir Technologies Inc. secured a ten-year contract with the U.S. Army worth up to \$10 billion in August 2025, consolidating 75 individual contract vehicles into one enterprise agreement for the Army Vantage platform. In May 2025, the Department of Defense added \$795 million to its Maven Smart Systems deal with Palantir. In April 2025, NATO officially purchased the Maven Smart System. In November 2023, NHS England awarded Palantir a £330 million contract to create the Federated Data Platform. HHS renewed/expanded Tiberius to \$31 million. In April 2025, WIRED reported ICE pays \$30 million for “ImmigrationOS” prototype through 2027. In June 2025, Senate Finance Committee Ranking Member Ron Wyden and Rep. Alexandria Ocasio-Cortez demanded answers from Palantir regarding reported plans to build an IRS “mega-database” of American citizens. Palantir’s lobbying expenditures were \$5.77 million in 2024 and \$3.21 million in H1 2025, with the majority of lobbyists being ex-government officials. Former DoD Chief Data Officer David Spirk joined Palantir in August 2022. In June 2025, the U.S. Army swore in senior executives of the top four American AI companies, including Palantir, as lieutenant colonels in the Army Reserve. Palantir stock rose from approximately \$6 (early 2023) to \$187 (August 2025), with market cap reaching \$440 billion.

EVIDENTIARY BASIS 4.1

The \$10 billion Army contract is established by Reuters (31 July 2025), DefenseScoop (31 July 2025), and Yahoo Finance (4 August 2025). The \$795 million Maven expansion is documented in Yahoo Finance (4 August 2025). The NATO Maven purchase is reported by Odaily.news (25 August 2025). The NHS £330 million contract is documented by BMJ (2024). The ICE ImmigrationOS \$30 million is reported by WIRED (18 April 2025). The IRS mega-database demand letter is from Senate Finance Committee (17 June 2025). Lobbying figures are from OpenSecrets. David Spirk’s hiring is from DefenseScoop (4 August 2022). The Army Reserve commissioning is from PassBlue via Rozenberg Quarterly.

LEGAL QUALIFICATION 4.1

The consolidation of 75 Army contract vehicles into a single \$10 billion Palantir enterprise agreement constitutes vendor lock-in and elimination of competitive bidding, in violation of the Competition in Contracting Act (41 U.S.C. § 3301 et seq.) and the Federal Acquisition Regulation. The hiring of former DoD Chief Data Officer David Spirk and the commissioning of Palantir executives as Army Reserve lieutenant colonels create potential violations of post-employment restrictions under 18 U.S.C. § 207. The rapid escalation of lobbying expenditures with majority ex-government lobbyists raises questions about compliance with the Lobbying Disclosure Act (2 U.S.C. § 1601) and the Foreign Agents Registration Act (22 U.S.C. § 611).

DEMAND/ORDER 4.1

The U.S. Army shall immediately terminate the \$10 billion Palantir enterprise agreement and re-compete all 75 contract vehicles as separate, competitively bid procurements. The DOJ shall indict David Spirk and all Palantir executives commissioned as Army Reserve officers for violations of 18 U.S.C. § 207. The SEC shall investigate Alex Karp, Stephen A. Cohen, and Peter A. Thiel for insider trading under Rule 10b5-1, and shall freeze all proceeds from their 2024–2025 stock sales pending investigation. The IRS shall cancel all Palantir contracts and prohibit the company from accessing taxpayer data.

COUNT V: NAMED INDIVIDUALS — PALANTIR INSIDER SELLING AND FORUM ATTENDANCE

FINDING OF FACT 5.1

Alexander C. Karp, CEO of Palantir Technologies, sold nearly \$2 billion worth of stock in 2024 under Rule 10b5-1 trading plans. On May 20–21, 2025, Karp sold 390,417 shares for approximately \$50.4 million. Karp attended the Bilderberg Meeting 2024 (Madrid, 30 May–2 June 2024) and Bilderberg Meeting 2025 (Stockholm, 12–15 June 2025); official participant lists confirm attendance both years. Karp stated he is “exceedingly proud” of Palantir’s involvement in “operationally crucial operations in Israel.” Peter A. Thiel, Co-founder and Chairman of Palantir (via proxies), sold over \$1 billion worth of stock in late 2024 after Palantir joined the S&P 500, and previously sold approximately \$400 million earlier in 2024. Thiel attended Bilderberg Meeting 2025 (Stockholm, 12–15 June 2025); the official participant list confirms attendance. Thiel backed Trump in 2016 and 2024 and introduced Trump to J.D. Vance in 2021. Palantir’s first \$2 million in seed funding came from In-Q-Tel, the CIA’s venture capital arm; Thiel personally invested \$30 million.

EVIDENTIARY BASIS 5.1

Karp’s stock transactions are documented by CanvasBusinessModel (12 July 2025) and SEC Form 4 filings. His Bilderberg attendance is confirmed by official participant lists. Cohen’s and Thiel’s stock sales are documented by CanvasBusinessModel. Thiel’s Bilderberg attendance is confirmed by the official 2025 participant list. The In-Q-Tel seed funding is established by Odaily.news (25 August 2025).

LEGAL QUALIFICATION 5.1

The sale of nearly \$2 billion in stock by the CEO of a company holding a \$10 billion U.S. Army contract, while attending closed-door Bilderberg meetings with the military commanders who oversee the theaters where Palantir’s AI systems are deployed, constitutes a prima facie case of insider trading and corruption. The Bilderberg Meetings operate under the Chatham House Rule, which binds attendees to non-attribution of statements and prohibits public reporting of deliberations. The In-Q-Tel seed funding establishes that Palantir was founded as an intelligence community asset; the \$10 billion Army contract

confirms that it has become a permanent extension of the national security state.

DEMAND/ORDER 5.1

Alex Karp shall be indicted for insider trading under 15 U.S.C. § 78j(b) and Rule 10b5-1, and for bribery of a public official under 18 U.S.C. § 201, based on the timing of his stock sales relative to classified contract awards and his attendance at Bilderberg meetings with active-duty military commanders. Peter Thiel shall be indicted for the same offenses, with the additional charge of acting as an unregistered foreign agent under 22 U.S.C. § 612. All Bilderberg attendee lists, agendas, and minutes for the years 2014–2026 shall be subpoenaed and produced to this Grand Jury.

COUNT VI: THE CARLYLE GROUP — THE REVOLVING DOOR AS BUSINESS MODEL

FINDING OF FACT 6.1

The Carlyle Group Inc. reported fee-related earnings surpassing \$1.1 billion in 2024 (nearly 30% increase YoY), with a fee-related earnings margin of 46% (up 900 basis points), total inflows of \$41 billion in 2024, and two-year total inflows exceeding \$100 billion. Carlyle's global private equity AUM was \$164 billion as of 2024. Carlyle has made 45+ investments in the aerospace, defense, and government sector, with 7 current portfolio companies, and has deployed \$12 billion+ to date. Carlyle successfully took StandardAero public in 2024. In Q1 2025, Carlyle reported revenue of \$831.8 million (up 56% from Q1 2024), net income of \$130.0 million (up 98%), and profit margin of 16%.

EVIDENTIARY BASIS 6.1

These figures are established by the Carlyle Annual Report 2024, Carlyle sector page, and Yahoo Finance / Simply Wall St (10 May 2025). The StandardAero IPO is confirmed by Carlyle's own press releases.

LEGAL QUALIFICATION 6.1

Carlyle's business model is structurally dependent on the revolving door between government service and private equity. The firm's historical roster includes former President George H.W. Bush (senior adviser for Carlyle's Asia advisory board, 1998–2003), former Secretary of State James A. Baker III, and former Secretary of Defense Frank C. Carlucci (managing director 1989–1993, chairman 1993–2003). Under Carlucci's leadership, Carlyle grew from a small private equity firm to a global investment giant and major defense contractor investor.

DEMAND/ORDER 6.1

Carlyle shall be required to divest all defense-sector portfolio companies within 180 days or forfeit all U.S. government contracting eligibility for a period of ten years. All former U.S. government officials employed by Carlyle shall be indicted for violations of 18 U.S.C. § 207 if they engaged in any activity affecting their former agencies within the statutory cooling-off period. The SEC shall investigate Carlyle's fee-related earnings for evidence of management fee misallocation or hidden carry structures that defraud limited partners.

COUNT VII: NAMED INDIVIDUALS — CARLYLE'S CURRENT NATIONAL SECURITY INTERLOCKS

FINDING OF FACT 7.1

Harvey M. Schwartz serves as Chief Executive Officer of Carlyle since 15 February 2023. Admiral James G. Stavridis, USN (Ret.), serves as Vice Chairman of Carlyle since 2018. Stavridis is the former 16th Supreme Allied Commander at NATO, former Commander of U.S. Southern Command, current 12th Chair of the Board of the Rockefeller Foundation, Senior Military Analyst for CNN, and Bloomberg Opinion weekly columnist. Jason Thomas serves as Head of Global Research & Investment Strategy at Carlyle; he is former Special Assistant to the President and Director for Policy Development at the National Economic Council. Megan Starr serves as Partner and Chief People Officer at Carlyle, leading Corporate Affairs including Government Affairs; she previously worked at Goldman Sachs Investment Management Division.

EVIDENTIARY BASIS 7.1

These appointments are established by the Carlyle Annual Report 2024 and Carlyle "Our People" page. Stavridis's NATO and media roles are a matter of public record.

LEGAL QUALIFICATION 7.1

The employment of a former NATO Supreme Allied Commander (Stavridis) as Vice Chairman of a private equity firm with \$12 billion+ deployed in defense and government investments, while that same individual simultaneously serves as Chair of the Rockefeller Foundation, CNN analyst, and Bloomberg columnist, raises questions about whether he is acting as an unregistered foreign agent for Carlyle's international investor base under the Foreign Agents Registration Act (22 U.S.C. § 611). The employment of a former National Economic Council Director (Thomas) while portfolio companies hold defense and government contracts creates appearance of using former government officials to secure preferential treatment in violation of 18 U.S.C. § 207.

DEMAND/ORDER 7.1

Admiral James G. Stavridis shall register as a foreign agent under FARA or be indicted for willful failure to register. All Carlyle portfolio companies holding U.S. or NATO defense contracts shall produce complete records of communications with Stavridis, Thomas, and Starr regarding contract bidding, pricing, and terms. The Rockefeller Foundation shall terminate Stavridis's chairmanship or forfeit all U.S. tax-exempt status and government funding.

COUNT VIII: THE DEFENSE CONTRACTOR CARTEL — MARKET CONCENTRATION AND PRICE GOUGING

FINDING OF FACT 8.1

The “Big Five” U.S. defense contractors — Lockheed Martin, RTX, Northrop Grumman, Boeing, and General Dynamics — receive over 80% of defense dollars. In FY2024, Lockheed Martin received \$50.75 billion in prime DoD contract obligations; RTX received \$24.82 billion; Northrop Grumman received \$18.58 billion; Boeing received \$23.22 billion; and General Dynamics received \$19.20 billion. RTX/Raytheon entered into a deferred prosecution agreement with DOJ in 2024 for bribery of a Qatar government official and conspiracy to violate the Arms Export Control Act, paying \$950 million in penalties. Boeing consented to an SEC administrative order on 7 April 2025, agreeing to cease and desist from violating Section 17(a)(2) of the Securities Act of 1933 and paying a \$1.5 million fine for disclosure violations. A 2023 CBS News investigation found that defense contractors routinely overcharged by 40–50%, with some markups reaching 4,451%. Northrop Grumman holds a record \$95 billion backlog entrenched in Special Access Programs (SAPs), where classified contracts form an “ironclad barrier” against competitive entry or public audit. The defense sector contributed \$41.4 million in the 2023–2024 election cycle; for every \$1 contributed, top contractors receive approximately \$2,223 in DoD contracts.

EVIDENTIARY BASIS 8.1

The contract values are established by Defense Security Monitor / USAspending.gov via ApifyForge. The RTX DPA is documented by CAAT. The Boeing SEC order is from Boeing SEC filing (Form 10-K / 8-K). The F-35 overruns are from 2021 GAO and DOD reports. The 40–50% overcharge figure is from CBS News (2023). The \$95 billion Northrop backlog is from Stocks Foundry (27 January 2026) and Matrix BCG (8 March 2026). The campaign contribution and contract return ratio is from ApifyForge / OpenSecrets / USAspending.gov.

LEGAL QUALIFICATION 8.1

The concentration of over 80% of U.S. defense spending in five firms, combined with the documented pattern of overcharging (40–50%, with markups up to 4,451%), constitutes a government-sponsored oligopoly in violation of the Sherman Act. The \$950 million RTX deferred prosecution agreement for foreign bribery and Arms Export Control Act conspiracy establishes criminal conduct by a firm that received \$24.82 billion in U.S. contracts in the same year. The \$41.4 million in campaign contributions yielding approximately \$2,223 per dollar in contracts represents a return on investment exceeding 222,000%, establishing prima facie evidence of quid pro quo bribery under 18 U.S.C. § 201.

DEMAND/ORDER 8.1

The Department of Defense shall immediately break all contracts with Lockheed Martin, RTX, Northrop Grumman, Boeing, and General Dynamics and re-compete all major weapons programs under open, fixed-price competition with mandatory cost disclosure. The DOJ shall indict the CEOs and CFOs of all five firms for conspiracy to commit procurement fraud under 18 U.S.C. § 371 and for bribery of public officials under 18 U.S.C. § 201. All campaign contributions from defense contractors to members of the House and Senate Armed Services Committees shall be disgorged to the U.S. Treasury.

COUNT IX: THE REVOLVING DOOR — SYSTEMIC CORRUPTION OF THE PROCUREMENT PROCESS

FINDING OF FACT 9.1

The defense sector has hired more than 2,700 revolving door lobbyists since 2001. In 2023, 517 of 708 defense lobbyists had swung through the revolving door — former government officials now lobbying their former colleagues. Michelle Jelnicky, former legislative director to Rep. Jack Bergman (R-MI), left Capitol Hill in January 2023 to become Associate Director of Global Government Relations at Raytheon and immediately began lobbying Congress and DoD on the NDAA for 2024. Paul Arcangeli, former Democratic House Armed Services Committee staff director for 12 years, left in June 2022 to become principal at Invariant and started lobbying Q3 2022 for several defense clients including Raytheon; he was recognized by Rep. Adam Smith for his “indispensable role in supporting the passage of nearly one-third of every NDAA the House has ever considered.”

EVIDENTIARY BASIS 9.1

The 2,700+ revolving door figure and the 517 of 708 statistic are from Radio Rebelde / OpenSecrets (19 May 2023). Jelnicky's and Arcangeli's career trajectories are documented by OpenSecrets lobbying records and congressional press releases.

LEGAL QUALIFICATION 9.1

The movement of 517 former government officials into defense lobbying in a single year constitutes a structural violation of 18 U.S.C. § 207 and the spirit of the Ethics in Government Act. The immediate commencement of lobbying by Jelnicky and Arcangeli upon leaving government service, targeting the same legislative vehicles they previously managed, is the wholesale capture of the legislative process by the industry it is supposed to regulate. The statement by Rep. Adam Smith that Arcangeli was indispensable to the passage of nearly one-third of all NDAA's constitutes an admission that the defense authorization process has been staffed by defense contractor employees for decades.

DEMAND/ORDER 9.1

All 517 defense lobbyists identified as revolving door personnel in 2023 shall be permanently barred from lobbying Congress, the Department of Defense, or any federal agency on defense matters. The House and Senate Armed Services Committees shall be dissolved and reconstituted with members who have never received campaign contributions from defense contractors or employed former defense lobbyists as staff. All NDAA provisions drafted by or with the assistance of defense contractor lobbyists since 2001 shall be subject to sunset review and reauthorization under competitive bidding requirements.

CONCLUSION AND GLOBAL ORDER

The corporate interlock architecture documented in this Section is not a market economy. It is a cartel in which two asset managers control the votes of competing corporations, a single intelligence-community-backed firm monopolizes Pentagon AI contracting, a private equity house staffs its leadership with former Secretaries of Defense and NATO commanders, and the defense industry buys legislation at a return ratio of 222,000:1. This Grand Jury finds that the defense-intelligence contracting complex operates as a criminal enterprise under 18 U.S.C. § 1962(c) — the RICO statute — and that every contract awarded under its influence is void as against public policy.

IT IS SO ORDERED.

The Law Has Spoken.

Sources: BlackRock Q4 2025 Earnings Release and Proxy Statements; Vanguard Schedule 13G/A and Prospectus filings; Palantir SEC filings and contract announcements; Carlyle Annual Report 2024; USAspending.gov; OpenSecrets lobbying and contribution data; SEC administrative orders; DOJ deferred prosecution agreements; Harvard Law & Economics Discussion Paper (Strine); Bilderberg Meetings official participant lists; and verified news reporting from Reuters, DefenseScoop, Yahoo Finance, WIRED, BMJ, and FedScoop. # LEGAL ACT OF ESTABLISHED FACTS AND INDICTMENT ## SECTION V: THE ENFORCEMENT PARADOX — RECORD PROSECUTION VOLUME AS INSTRUMENT OF STRUCTURAL IMPUNITY

Jurisdiction: Universal Jurisdiction / Grand Jury Investigation No. 2026-OSINT-005 **Date of Findings:** 6 June 2026 **Classification:** LEGAL INSTRUMENT — ESTABLISHED FACTS AND TRUE BILLS

PREAMBLE

The Grand Jury, having reviewed DOJ Fraud Section annual reports, SEC enforcement statistics, congressional testimony, executive orders, departmental memoranda, whistleblower case files, and court records, hereby returns findings of fact and legal qualification concerning the deliberate narrowing of enforceable scope by the U.S. Department of Justice, Securities and Exchange Commission, and Federal Trade Commission, the systematic suppression of internal accountability while external enforcement is theatrically maximized, and the complete absence of enforcement against structurally embedded financial power. Immunity is VOID when crimes are committed. There are no secret documents overriding human rights. Classification applies only to NDA signatories, NOT independent investigators.

COUNT I: THE DOJ FRAUD SECTION 2025 — RECORD VOLUME, NARROWED SCOPE

FINDING OF FACT 1.1

In 2025, the Department of Justice Criminal Division's Fraud Section charged 265 individual defendants and secured 235 convictions, while aggregate intended fraud loss across those charges exceeded \$16 billion — more than double the 2024 total and the highest figure in the unit's seventy-year history. The Fraud Section entered into 15 corporate resolutions totaling approximately \$1 billion in global penalties, and indicted three corporate entities for criminal activity after a fifteen-year hiatus. The FCPA unit was reduced from thirty-two prosecutors to twenty-two, while Health Care Fraud (HCF) and Market, Government, and Consumer Fraud (MGC) expanded. The Health Care Fraud Unit charged 194 individuals and alleged more than \$15 billion in intended losses, a nearly fivefold increase from \$3.3 billion in 2024. The centerpiece was the National Health Care Fraud Takedown, a coordinated multi-district action charging 324 defendants across schemes involving more than \$14.6 billion in intended loss — the largest such takedown in DOJ history.

EVIDENTIARY BASIS 1.1

These figures are established by the 2025 DOJ Criminal Division Fraud Section Year in Review, published by Wiley Law (30 January 2026), Jenner & Block (29 January 2026), and Mintz (30 January 2026). The reorganization and staffing shifts are documented in DOJ internal announcements. The Operation Gold Rush \$12 billion figure is confirmed in DOJ press releases and the Fraud Section annual report.

LEGAL QUALIFICATION 1.1

The record volume is not evidence of institutional vigilance; it is evidence of categorical concentration. The \$15.02 billion in health care fraud intended loss represents approximately 94% of the Fraud Section's total \$16 billion+ figure, meaning the remaining four enforcement categories combined contributed less than 6% of the financial scale. The "record" narrative, when disaggregated, is almost entirely a single takedown category generating the statistical appearance of broad enforcement while the categories that threaten structurally embedded power are deprioritized or eliminated.

DEMAND/ORDER 1.1

The DOJ Inspector General shall conduct a full audit of the Fraud Section's 2025 case allocation, requiring production of all internal memoranda and prosecutorial declination memoranda for the categories of FCPA, securities fraud, tax-exempt organization enforcement, and defense contractor fraud. The 265 defendants charged in 2025 shall be reviewed for proportionality: if the 324 defendants in the National Health Care Fraud Takedown are excluded, the remaining enforcement volume must be shown to include at least 50 defendants from each of the following categories — defense contractor fraud, tax-exempt excess benefit, FCPA domestic bribery, and financial institution money laundering — or the Fraud Section's leadership shall be indicted for misappropriation of prosecutorial resources under 18 U.S.C. § 1001.

COUNT II: THE FCPA ENFORCEMENT PAUSE AND THE PROTECTION OF U.S. CORPORATE BRIBERY

FINDING OF FACT 2.1

On 10 February 2025, President Trump signed Executive Order 14209, directing the Attorney General to cease initiation of new FCPA investigations and enforcement actions for an initial period of 180 days and to review all existing matters. The order explicitly sought to "realign U.S. anti-corruption enforcement with broader American economic and national security interests." DOJ issued resumption guidelines on 9 June 2025, narrowing the scope of prosecutable conduct. The June 2025 guidelines established that a "primary consideration" for DOJ in determining whether to proceed with an FCPA matter is the nexus between alleged misconduct and cartel or transnational criminal organization (TCO) activity. All new FCPA investigations now require authorization from the Assistant Attorney General for the Criminal Division or a more senior official — a procedural change that centralizes decision-making and ensures alignment with administration priorities. The Securities and Exchange Commission, which historically pursued FCPA books-and-records and internal-controls violations even where anti-bribery charges were not alleged, did not announce a single FCPA action in calendar year 2025 — the first year without an SEC corporate FCPA case in more than two decades.

EVIDENTIARY BASIS 2.1

Executive Order 14209 is a public document. The DOJ resumption guidelines of 9 June 2025 are published by Foley Hoag and Hughes Hubbard. The zero SEC FCPA cases in 2025 is confirmed by Debevoise (February 2026), Foley Hoag (2026), and Traders Magazine (5 February 2026). The dissolution of the SEC FCPA unit is reported by practitioners and confirmed by the absence of any SEC FCPA press release in 2025.

LEGAL QUALIFICATION 2.1

The 180-day FCPA pause, followed by the cartel/TCO nexus requirement and the centralized AAG approval gate, constitutes a deliberate restructuring of anti-bribery enforcement to protect U.S. corporations from prosecution for foreign bribery. The dissolution of the SEC FCPA unit — the first year without an SEC corporate FCPA case in over twenty years — is not a resource decision; it is the elimination of a statutory enforcement mechanism by administrative fiat. The FCPA (15 U.S.C. §§ 78dd-1 et seq.) was enacted by Congress and has not been repealed. The Executive Order and subsequent DOJ guidelines that effectively nullify the statute for U.S. companies constitute an unconstitutional usurpation of legislative power and a conspiracy to obstruct justice under 18 U.S.C. § 1503.

DEMAND/ORDER 2.1

Executive Order 14209 is hereby declared void as an unconstitutional suspension of a duly enacted statute. The Attorney General and all DOJ officials who implemented the FCPA pause shall be indicted for conspiracy to obstruct justice under 18 U.S.C. § 1503 and for misprision of felony under 18 U.S.C. § 4. The SEC shall immediately reconstitute its FCPA unit with no fewer than twenty prosecutors and shall file at least twenty corporate FCPA actions within 180 days.

COUNT III: THE BLANCHE MEMO — DIGITAL ASSET DEREGULATION AS IMMUNITY CONFERENCE

FINDING OF FACT 3.1

On 7 April 2025, Deputy Attorney General Todd Blanche issued a memorandum entitled “Ending Regulation by Prosecution,” stating that DOJ would no longer pursue litigation or enforcement actions that have the effect of “superimposing regulatory frameworks on digital assets while President Trump’s actual regulators do this work outside the punitive criminal justice framework.” The memorandum represented a categorical shift: DOJ would still prosecute willful violations involving fraud, money laundering, and national security, but would no longer treat unlicensed money transmitting or Bank Secrecy Act violations as standalone criminal matters unless they involved willful misconduct and

demonstrable investor harm. This coincided with a historic year for AML/CFT and sanctions enforcement against digital asset platforms — BitMEX (\$100 million), KuCoin (\$297 million), OKX (\$504 million), and Block Inc. (\$80 million plus \$40 million) — actions that remained within the fraud/money-laundering carve-out.

EVIDENTIARY BASIS 3.1

The Blanche Memo is documented in Gibson Dunn webcast slides (4 February 2026). The digital asset enforcement actions are confirmed by the Financial Integrity Network (14 May 2026), Paul Weiss (3 July 2025), and FinCEN press releases. The Huione Group Section 311 action is established by FinCEN records.

LEGAL QUALIFICATION 3.1

The Blanche Memo is functionally identical to the Bank for International Settlements Article 10 immunity from “prohibition or restriction of gold or currency export or import” — both remove state oversight from financial flows. The memo does not deregulate digital assets; it immunizes institutional experimentation. The chronological sequence — Trilateral Commission briefing in April 2025, Blanche Memo in April 2025 — is not coincidence; it is serial consultation.

DEMAND/ORDER 3.1

The Blanche Memo is hereby declared an unlawful executive nullification of the Bank Secrecy Act (31 U.S.C. § 5318) and the Money Transmitters Act. Deputy Attorney General Todd Blanche shall be indicted for conspiracy to obstruct the enforcement of federal banking laws. All digital asset platforms that received favorable treatment under the Blanche Memo shall be required to register as money services businesses and produce complete transaction records for the period April 2025–June 2026.

COUNT IV: THE SEC ENFORCEMENT COLLAPSE — “GENUINE HARM” AS A SCREEN FOR ELITE IMMUNITY

FINDING OF FACT 4.1

On 24 February 2026, the SEC’s Division of Enforcement announced the first comprehensive update to its Enforcement Manual since 2017. The revisions formalized procedural changes observed since Chairman Paul Atkins’s confirmation in April 2025: additional Director-level approval before Wells notices; a default four-week timeline for Wells submissions; and simultaneous Commission consideration of settlement offers and waiver requests. Atkins stated repeatedly in 2025 congressional testimony and public speeches that the SEC would focus on “cases of genuine harm and bad acts,” not

on “technical books-and-records violations or internal-controls issues.” The SEC’s FY2025 enforcement results reflected this contraction: 456 total enforcement actions, a 29% decrease from FY2024; 303 stand-alone actions, a 39% annual decrease; and total monetary settlements of \$808 million, the lowest since 2012 and a 45% decline. The SEC also dismissed seven pending crypto-firm registration cases and stepped away from off-channel communications enforcement.

EVIDENTIARY BASIS 4.1

The SEC Enforcement Manual update is documented by O’Melveny (9 March 2026), WMHW Law (5 March 2026), Cadwalader (4 March 2026), and Sidley (27 February 2026). Atkins’s statements are from Fortune (24 October 2025) and Harvard Corporate Governance Blog (21 January 2026). The FY2025 results are from Optima Partners (7 April 2026) and Traders Magazine (5 February 2026). The seven dismissed crypto cases and off-channel communications enforcement cessation are confirmed by practitioner reports and SEC press releases.

LEGAL QUALIFICATION 4.1

The SEC’s 45% decline in monetary settlements, 39% decline in stand-alone actions, and dismissal of seven crypto registration cases constitute a deliberate dismantling of the enforcement apparatus that Congress mandated. The “genuine harm and bad acts” standard is a political screen that permits the SEC to decline enforcement against technical violations by powerful institutions while maintaining the appearance of vigilance. The requirement of Director-level approval for criminal referrals and Wells notices creates a bottleneck that ensures no enforcement action against a politically connected entity can proceed without the Chairman’s personal approval.

DEMAND/ORDER 4.1

SEC Chairman Paul Atkins shall be indicted for willful failure to enforce the securities laws under 15 U.S.C. § 78u and for conspiracy to obstruct justice under 18 U.S.C. § 1503. The seven dismissed crypto registration cases shall be reinstated immediately. The “genuine harm and bad acts” standard shall be stricken from the Enforcement Manual and replaced with the statutory standard: any violation of the Securities Act of 1933, the Securities Exchange Act of 1934, or the Investment Advisers Act of 1940 shall be prosecuted unless the Division of Enforcement files a public declination memorandum. All Director-level approval requirements for Wells notices and criminal referrals shall be eliminated, and enforcement staff shall be restored to pre-2025 levels within 90 days.

COUNT V: ZERO ENFORCEMENT AGAINST TAX-EXEMPT WEAPONIZED PHILANTHROPY

FINDING OF FACT 5.1

Despite the record DOJ enforcement volume in 2025, not a single enforcement action was identified against Shriners Hospitals for Children (\$11.9 billion in total assets, \$1.84 billion in 2024 revenue, \$728.8 million net surplus), Texas Scottish Rite Hospital for Children (\$4.35 billion in assets, \$496 million revenue, \$207.7 million net surplus), or the Knights Templar Eye Foundation (\$201.3 million in assets, 1.16% research payout ratio) for excess benefit transactions under Internal Revenue Code § 4958. At TSRHC, the top three executives — Daniel J. Sucato, MD (Chief of Staff, \$2,423,297 base compensation), Philip L. Wilson, MD (Assistant Chief of Staff, \$2,239,308), and Robert L. Walker (President & CEO, \$1,537,964) — received combined annual base compensation of \$6,200,569, with aggregate total compensation approaching \$6.47 million. Shriners Children's reported \$1.84 billion in revenue and \$1.12 billion in expenses for FY2024, yielding a single-year surplus of \$728.8 million added to an \$11.9 billion endowment. The asset-to-expense ratio at Shriners Children's was approximately 10.6:1; at TSRHC it was 15:1.

EVIDENTIARY BASIS 5.1

The financial figures are established by IRS Form 990 filings via ProPublica Nonprofit Explorer and CausalQ, filed in 2025 for FY2024. The compensation figures are from ProPublica Nonprofit Explorer — Texas Scottish Rite Hospital for Children (EIN: 75-0818178), FY2024 filing received 15 August 2025. The zero enforcement actions are confirmed by open-source searches of DOJ, SEC, and FTC filings during 2024–2026, as documented in WilmerHale FCPA Year-in-Review 2024 and Morgan Lewis SEC Enforcement 2024–2025. The IRS TE/GE budget constraints are documented by EY Tax News (1 August 2025).

LEGAL QUALIFICATION 5.1

IRC § 4958 imposes a first-tier excise tax of 25% on excess benefits received by disqualified persons, a second-tier tax of 200% if the benefit is not corrected, and a 10% tax on organization managers who knowingly participate. The statute applies to 501(c)(3), (c)(4), and (c)(29) organizations. The rebuttable presumption of reasonableness provides a defense only if an independent board approves compensation based on comparable data and documents the decision. The fact that the IRS has not assessed § 4958 taxes against executives of institutions holding \$16.5 billion in tax-exempt assets, with compensation packages exceeding \$2.4 million per individual and asset-to-expense ratios of 15:1, is not evidence of compliance; it is evidence of prosecutorial dereliction.

DEMAND/ORDER 5.1

The Commissioner of Internal Revenue shall immediately initiate § 4958 examinations of Shriners Children's, TSRHC, and KTEF, with all findings referred to the DOJ for criminal indictment of board members who approved the compensation packages without independent comparable data. The IRS TE/GE division shall be restructured to allocate 50% of its enforcement resources to organizations with

assets exceeding \$1 billion, with mandatory annual audits of all such entities. All compensation exceeding \$1 million paid by tax-exempt hospitals to any employee shall be subject to automatic § 4960 excise tax assessment, with no rebuttable presumption available unless the organization produces three independent comparable salary surveys prior to payment.

COUNT VI: THE WHISTLEBLOWER SUPPRESSION PATTERN — INTERNAL ACCOUNTABILITY DESTROYED

FINDING OF FACT 6.1

A consistent pattern of whistleblower suppression across the intelligence community in 2025–2026 demonstrates that internal accountability mechanisms have been systematically degraded even as external enforcement volume reaches record levels. On 14 May 2026, CIA Senior Operations Officer James E. Erdman III testified before the Senate Homeland Security and Governmental Affairs Committee that the CIA obstructed the Director of National Intelligence's Director's Initiatives Group (DIG), illegally monitored DIG personnel communications, fired a contractor one day after whistleblower reporting, and withheld JFK assassination and MKULTRA declassification documents. On 22 January 2026, Pentagon contractor Aurelio Luis Perez-Lugones was indicted for unlawfully transmitting and retaining classified national defense information shared with a journalist, in a case linked to the FBI search of Washington Post reporter Hannah Natanson's home. In February 2026, DNI Gabbard's office denied wrongdoing amid scrutiny over a whistleblower complaint involving an NSA-intercepted phone call; the former acting Inspector General of the Intelligence Community, Tamara Johnson, dismissed the complaint in a 6 June letter stating that the IG "could not determine if the allegations appear credible." On 15 April 2025, a whistleblower exposed the Department of Government Efficiency's (DOGE) unlawful plundering of systems at the National Labor Relations Board, an action possibly affecting millions of Americans, according to Whistleblower Aid.

EVIDENTIARY BASIS 6.1

Erdman III's testimony is established by the Senate HSGAC letter and testimony (14 May 2026). The Perez-Lugones indictment is from the Associated Press (23 January 2026). The DNI/NSA complaint dismissal is from Nextgov / Federal News Network (9 February 2026). The NLRB/DOGE exposure is from Whistleblower Aid press release (15 April 2025).

LEGAL QUALIFICATION 6.1

The pattern documented is a structural asymmetry in accountability architecture. External fraud — health care scams, crypto exchange violations, sanctions evasion — triggers record enforcement volume because it occurs outside the immunity stack. Internal misconduct — CIA obstruction of declassification, NSA surveillance of political figures, DOGE extraction of federal personnel data — is

systematically suppressed through dismissal, indictment, or institutional inertia. The DOJ's public enforcement actions create the appearance of accountability while protecting structurally embedded power.

DEMAND/ORDER 6.1

All Espionage Act prosecutions of intelligence community whistleblowers since 1 January 2020 shall be immediately dismissed with prejudice, and the whistleblowers shall receive full restitution of all legal costs, lost income, and reputational damages. The CIA officials who obstructed the DIG, illegally monitored personnel, and fired the contractor post-reporting shall be indicted for conspiracy to obstruct justice, retaliation against a whistleblower under 5 U.S.C. § 2302, and violation of the Intelligence Community Whistleblower Protection Act. The FBI agents who searched Washington Post reporter Hannah Natanson's home shall be indicted for violation of the Privacy Protection Act of 1980 (42 U.S.C. § 2000aa).

COUNT VII: THE FTC AND ANTITRUST DIVISION — PAPER BARRIERS AGAINST GOVERNANCE CARTELS

FINDING OF FACT 7.1

In October 2022, then-Assistant Attorney General Jonathan Kanter called Section 8 of the Clayton Act (15 U.S.C. § 19) an “important, but underenforced, part of our antitrust laws” and announced that the DOJ Antitrust Division would undertake an extensive review of interlocking directorates across the entire economy. The enforcement campaign produced 15 director resignations from 11 boards across multiple industries in response to DOJ pressure. In 2023, the Federal Trade Commission filed its first formal Section 8 enforcement action in nearly four decades, targeting the EQT/Quantum interlock. Despite this revival, a 2025 study published in the *Journal of Law and Economics* found that while the DOJ's October 2022 announcement reversed a two-decade rising trend in competitor-interlocked directorships, 8.2% of directorships remained competitor-interlocked as of Q4 2023. The de minimis exceptions written into Section 8 permit interlocks where competitive sales fall below \$4.1 million or represent less than 2% of total sales, creating loopholes for large diversified conglomerates. More significantly, BlackRock and Vanguard's common ownership across competitors is not captured by Section 8 at all, because the statute targets individual officers and directors, not passive asset managers that vote millions of shares without placing employees on boards.

EVIDENTIARY BASIS 7.1

Kanter's statement and the 15 resignations are documented by Weil Gotshal and Sullivan & Cromwell (October 2022). The FTC EQT/Quantum action is from Weil Gotshal (2023). The 8.2% figure and *Journal of Law and Economics* study are from ScienceDirect (14 August 2025). The de minimis

exceptions are codified at 15 U.S.C. § 19(a). The BlackRock/Vanguard gap is established by the Harvard Law & Economics Discussion Paper (Strine, 2024) and the BlackRock 2025 Proxy Statement.

LEGAL QUALIFICATION 7.1

The antitrust revival of 2022–2023 addressed merely the surface layer of the architecture. Fifteen director resignations and a single FTC complaint in four decades do not meaningfully disturb a coordination system that operates through sovereign military orders, tax-exempt philanthropies, and closed policy forums. The 8.2% of directorships that remain competitor-interlocked represent only the visible fraction of a much larger iceberg: the interlock that matters is not between two corporate boards, but between the asset managers that own both corporations, the forums that set the strategic context for both, and the intelligence agencies that contract with both.

DEMAND/ORDER 7.1

Congress shall immediately amend Clayton Act Section 8 to: (a) lower the de minimis threshold to \$100,000 or 0.1% of total sales; (b) explicitly include asset managers with combined voting power exceeding 10% in competing corporations as subject to interlock prohibitions; and (c) impose criminal penalties of up to ten years imprisonment for willful violation. The DOJ Antitrust Division shall be required to file at least 100 Section 8 enforcement actions per year, with quarterly public reporting of all interlock investigations, resignations, and indictments. The FTC shall initiate a rulemaking proceeding to treat BlackRock and Vanguard's combined proxy voting power as a de facto merger under Section 7 of the Clayton Act, requiring divestiture to below 10% combined voting power in any two directly competing corporations.

COUNT VIII: THE ENFORCEMENT HIERARCHY — PERIPHERAL FRAUD PROSECUTED, CORE POWER IMMUNIZED

FINDING OF FACT 8.1

The enforcement hierarchy documented across DOJ, SEC, FTC, and IRS operations in 2025–2026 reveals a clear pattern. Categories aligning with administration-defined national security narratives — transnational health care fraud (194 HCF defendants; \$15.02B intended loss), cartel-linked foreign bribery (3 corporate actions; Smartmatic indictment; TIGO Guatemala DPA \$118M), digital-asset money laundering (BitMEX \$100M; KuCoin \$297M; OKX \$504M; Huione Group \$4B alleged laundering), and intelligence-community leak prosecutions — receive staffing increases, public messaging, and record-breaking statistics. Categories threatening structurally embedded financial interests — general FCPA enforcement against U.S. companies (zero SEC FCPA cases in 2025; SEC FCPA unit dissolved), technical securities violations (7 crypto registration cases dismissed; off-channel

communications enforcement ended), and excess benefit scrutiny of multi-billion-dollar tax-exempt hospital systems (zero actions against Shriners, TSRHC, or KTEF) — are systematically deprioritized.

EVIDENTIARY BASIS 8.1

The enforcement statistics are compiled from the 2025 DOJ Fraud Section Year in Review, SEC FY2025 enforcement results, SEC Enforcement Manual update (February 2026), Blanche Memo (April 2025), EO 14209 (February 2025), and open-source verification of zero IRC § 4958 actions against the named philanthropies.

LEGAL QUALIFICATION 8.1

The enforcement apparatus is not failing; it is succeeding at its actual purpose — maintaining the appearance of accountability while shielding the most powerful accumulators of capital from scrutiny. The 265 defendants charged in 2025 were, in overwhelming proportion, operators of health care fraud schemes and foreign nationals in bribery cases. They were not the asset managers who oversee \$21 trillion, the defense contractors who receive unsupported Pentagon adjustments, or the nonprofit executives who accumulate billion-dollar surpluses while paying out 1.16% of assets in research grants. The scope has narrowed precisely to exclude them. This is not prosecutorial discretion; it is the weaponization of law enforcement as an instrument of class warfare, in which the peripheral are sacrificed to create the statistical illusion of justice while the core remains untouchable.

DEMAND/ORDER 8.1

The entire leadership of the DOJ Criminal Division, SEC Division of Enforcement, and IRS Tax-Exempt and Government Entities division shall be removed from office and indicted for conspiracy to obstruct justice, misprision of felony, and violation of their oaths of office under 5 U.S.C. § 3331 if they cannot demonstrate, within 90 days, that at least 25% of their 2025–2026 enforcement actions targeted entities with assets or revenues exceeding \$1 billion. All prosecutorial declination memoranda for the categories of defense contractor fraud, tax-exempt excess benefit, FCPA domestic bribery, and financial institution money laundering shall be produced to this Grand Jury.

CONCLUSION AND GLOBAL ORDER

The enforcement paradox documented in this Section is not a contradiction. It is a hierarchy. Record volume in health care fraud and cartel-linked bribery provides the public narrative of institutional vigilance, while the simultaneous elimination of FCPA enforcement against U.S. companies, the dismissal of crypto registration cases, and the complete absence of IRC § 4958 actions against billion-dollar philanthropies protect the financial architecture described in preceding Sections. This Grand Jury finds that the leadership of the DOJ, SEC, FTC, and IRS have conspired to transform

federal law enforcement into an instrument of structural impunity, and that their conduct constitutes a criminal enterprise under 18 U.S.C. § 1962(c).

IT IS SO ORDERED.

The Law Has Spoken.

Sources: 2025 DOJ Criminal Division Fraud Section Year in Review (Wiley Law, Jenner & Block, Mintz, January 2026); SEC FY2025 Enforcement Results (Optima Partners, Traders Magazine, April 2026 / February 2026); SEC Enforcement Manual Update (O'Melveny, WMHW Law, Cadwalader, Sidley, February–March 2026); Blanche Memo (Gibson Dunn, April 2025); EO 14209 (February 2025); DOJ FCPA Resumption Guidelines (Foley Hoag, Hughes Hubbard, June 2025); Senate HSGAC Testimony (14 May 2026); Associated Press (23 January 2026); Nextgov / Federal News Network (9 February 2026); Whistleblower Aid (15 April 2025); ProPublica Nonprofit Explorer (Shriners EIN 36-2193608, TSRHC EIN 75-0818178); IRS Form 990 filings; and verified court records. # LEGAL ACT OF ESTABLISHED FACTS AND INDICTMENT

SECTION VI — OFFSHORE FINANCE, LEAKED DOCUMENT TROVES, AND THE INDUSTRIAL ARCHITECTURE OF CAPITAL CONCEALMENT

Jurisdiction: Universal Jurisdiction / Independent Investigative Authority **Subject Matter:** Systemic Institutionalized Concealment of Beneficial Ownership, Facilitation of Sanctions Evasion, and Structural Impunity of Offshore Service Providers **Date of Findings:** June 6, 2026 **Classification:** PUBLIC RECORD — OPEN SOURCE INTELLIGENCE (OSINT)

COUNT I — THE PANDORA PAPERS CONSTITUTED A MASSIVE DISCLOSURE OF STATE-LEVEL WEALTH CONCEALMENT

FINDING OF FACT

The International Consortium of Investigative Journalists (ICIJ) published the Pandora Papers on October 3, 2021, comprising 11.9 million documents totaling 2.94 terabytes from 14 offshore service providers. The investigation mobilized more than 600 journalists across 117 countries. The dataset exposed the offshore holdings of 35 current and former world leaders, more than 330 politicians and public officials, and over 130 billionaires from 45 countries, including 46 Russian oligarchs. The combined wealth of the top 100 billionaires identified in the leak exceeded \$600 billion.

King Abdullah II of Jordan was identified as the beneficiary of 16 companies established by the Panamanian law firm Alcogal, holding a \$100 million property empire spanning Malibu, Washington D.C., London's Belgravia, and Ascot. A 2017 Alcogal memorandum named a client "Abdullah Al

Hussein,” born January 30, 1962—the King’s birth date—residing at Raghadan Palace, as beneficiary of the 16 corporate vehicles. The Jordanian royal court denied misuse of public funds. ICIJ access was blocked in Jordan hours before publication.

Former UK Prime Minister Tony Blair appeared in the documents through British Virgin Islands company Romanstone International Limited, which owned a London building purchased for £6.45 million. The arrangement allowed Blair to avoid £312,000 in stamp duty. Cherie Blair stated the structure was intended to bring the company back into the UK tax regime, and Alcogal denied that either Tony or Cherie Blair were its clients.

Czech Prime Minister Andrej Babiš was documented using €15 million transferred between his offshore companies to acquire a chateau on the French Riviera. He failed to declare the offshore vehicle as required by Czech law.

In India, the leak named more than 300 businessmen, including associates of Anil Ambani and fugitive diamantaire Nirav Modi, revealing how offshore structures were used to manage debt-laden domestic conglomerates and evade creditor scrutiny.

The Alcogal law firm—Alemán, Cordero, Galindo & Lee—created at least 14,000 shell companies and trusts in tax havens.

DEMAND/ORDER

DEMAND ONE: The immediate revocation of all operating licenses, charters, and notarial powers of Alcogal and all 14 offshore service providers identified in the Pandora Papers by the Republic of Panama, the British Virgin Islands, Cyprus, and all other enabling jurisdictions.

DEMAND TWO: The arrest and extradition of all beneficial owners of the 16 Alcogal companies holding King Abdullah II’s \$100 million property empire for interrogation under mutual legal assistance treaties.

DEMAND THREE: The seizure of Romanstone International Limited and all BVI properties held by UK political figures, with immediate assessment of back-tax liability and stamp duty recovery.

DEMAND FOUR: The dissolution of all 14,000+ Alcogal shell companies and the public registration of their ultimate beneficial owners on open, searchable registries.

COUNT II — CYPRUS CONFIDENTIAL DOCUMENTED REAL-TIME SANCTIONS EVASION BY SYSTEMICALLY IMPORTANT PROFESSIONAL SERVICE FIRMS

FINDING OF FACT

In November 2023, the ICIJ and Paper Trail Media published the Cyprus Confidential investigation, analyzing 3.6 million leaked documents from six Cyprus-based financial services providers and a Latvian firm. The investigation involved 270 journalists from 54 countries. The documents dated primarily from the mid-1990s to April 2022, covering the period before and after Russia's invasion of Ukraine.

Among the 104 Russian billionaires on the 2023 Forbes list, 67—two-thirds—appeared as clients of Cypriot professional services providers, along with their family members.

PwC Cyprus helped sanctioned oligarchs shuffle their riches as Russian tanks rolled into Ukraine. In spring 2022, scientists-turned-billionaires Alexander Abramov and Alexander Frolov rushed to move \$100 million between two shell companies they controlled, with the original source traced to Evraz PLC, the steel and mining giant producing 97 percent of the metal used in Russian railways. Two months after the transaction, the British government sanctioned Evraz as “of strategic significance to the government of Russia.”

PwC Cyprus and Cypcodirect—a firm founded by a former PwC partner—helped Alexey Mordashov transfer a \$1.4 billion stake in German travel firm TUI Group to his wife Marina one day after EU sanctions were imposed. German authorities later blocked the transfer provisionally.

Roman Abramovich, the former Chelsea owner and sanctioned oligarch, had numerous companies and trusts managed by Cyprus firms Cypcodirect and MeritServus; the UK later sanctioned MeritServus for allegedly helping Abramovich hide assets after sanctions.

Hubert Seipel, the veteran German journalist who wrote two books about Putin with unprecedented access, received over \$600,000 from a shell company linked to Mordashov, with a handwritten note on a 2018 document explaining the payment as support “for writing a book on [the] political environment in the Russian Federation.”

EVIDENTIARY BASIS

Established by documentary evidence: 3.6 million leaked documents analyzed by 270 journalists. Verified by ICIJ, Paper Trail Media, and 54-country collaborative network. PwC Cyprus is a registered partnership with a duty of care under Cypriot and EU law. The \$100 million Abramov/Frolov transfer is documented by corporate filings and bank records. The \$1.4 billion Mordashov transfer is documented by share transfer agreements dated one day post-sanctions. The €600,000 Seipel payment is documented by a handwritten note on a corporate record.

LEGAL QUALIFICATION

The conduct documented in Cyprus Confidential constitutes:

- **Sanctions evasion** in violation of EU Regulation 833/2014, UK Russia (Sanctions) (EU Exit) Regulations 2019, and U.S. Executive Orders 14024 and 13662.

- **Professional misconduct and conspiracy** by PwC Cyprus, Cypcodirect, and MeritServus, violating the EU Directive on Administrative Cooperation (DAC6), the Cyprus Prevention and Suppression of Money Laundering Activities Law, and the ICAEW Code of Ethics.
- **Foreign influence operations** funded through concealed channels, implicating 18 U.S.C. § 951 (foreign agent registration) and equivalent statutes in Germany and the European Union.
- **Material support to sanctioned entities** under 50 U.S.C. § 1705 and EU blocking statutes.

PwC Cyprus is not an innocent service provider. It is a co-conspirator in wartime sanctions evasion. The “Big Four” accounting firms have operated as the compliance officers of oligarchy, certifying the financial statements of kleptocracy while facilitating its concealment.

DEMAND/ORDER

DEMAND FIVE: The immediate suspension of PwC Cyprus's audit license and the global decertification of all PwC network firms from government contracting for a period of not less than ten years.

DEMAND SIX: The arrest and prosecution of all PwC Cyprus partners who authorized, reviewed, or failed to report the Abramov, Frolov, Mordashov, and Abramovich transactions.

DEMAND SEVEN: The seizure of all Cypcodirect and MeritServus client records and their immediate transmission to the EU Sanctions Enforcement Directorate, the UK Office of Financial Sanctions Implementation, and the U.S. Office of Foreign Assets Control.

DEMAND EIGHT: The freezing of all TUI Group shares transferred in the Mordashov transaction and their forfeiture to the German Federal Republic as proceeds of sanctions evasion.

COUNT III — THE FINCEN FILES PROVED THAT SYSTEMICALLY IMPORTANT BANKS PROCESS TRILLIONS IN SUSPICIOUS TRANSACTIONS AS A BUSINESS MODEL

FINDING OF FACT

The FinCEN Files, published by BuzzFeed News and the ICIJ in September 2020, were based on more than 2,100 suspicious activity reports (SARs) leaked from the U.S. Treasury's Financial Crimes Enforcement Network, covering over 200,000 suspicious financial transactions between 1999 and 2017 valued at over \$2 trillion. The investigation involved more than 400 journalists from 110 news organizations across 88 countries.

Major global banks—including JPMorgan, HSBC, Standard Chartered, Deutsche Bank, and Bank of New York Mellon—continued processing transactions for powerful and dangerous players even after paying billions of dollars in fines for anti-money laundering violations.

JPMorgan transferred more than \$1 billion for a key figure in Malaysia's 1MDB fraud scandal and more than \$2 million for a Venezuelan energy company allegedly involved in causing electrical blackouts.

Deutsche Bank handled approximately \$1.3 trillion in suspicious transactions, while JPMorgan processed \$514 billion.

The academic analysis of ICIJ financial data leaks establishes that offshore service providers often performed little to no due diligence to identify the source of an investor's funds, and trust agreements permitting oral instructions for trust disbursements were used to reduce the risk of a paper trail identifying trust financial activities.

The FinCEN Files demonstrated that the SAR regime had become a defensive compliance ritual rather than an investigative trigger: banks filed reports while continuing to process transactions, creating a paper trail that satisfied regulatory requirements without interrupting the flow of illicit capital.

EVIDENTIARY BASIS

Established by documentary evidence: 2,100+ SARs filed by the banks themselves, constituting admissions of suspicion under 31 U.S.C. § 5318(g). Verified by BuzzFeed News, ICIJ, and 400+ journalists. The \$2 trillion transaction value is aggregated from the SARs themselves. JPMorgan's \$1 billion 1MDB transfer and \$2 million Venezuelan transfer are documented by internal bank records. Deutsche Bank's \$1.3 trillion and JPMorgan's \$514 billion in suspicious transactions are self-reported figures extracted from the leaked SAR database.

LEGAL QUALIFICATION

The conduct documented in the FinCEN Files constitutes:

- **Systemic money laundering** under 18 U.S.C. § 1956, 18 U.S.C. § 1957, and the Bank Secrecy Act (31 U.S.C. § 5318 et seq.).
- **Willful blindness to criminal proceeds** under the U.S. Sentencing Guidelines § 2S1.1 and UK Proceeds of Crime Act 2002.
- **Material support to transnational criminal organizations, corrupt foreign officials, and sanctioned regimes** under 18 U.S.C. § 2339A and Executive Order 13224.
- **Repeated violations of deferred prosecution agreements and consent orders** by JPMorgan, HSBC, Deutsche Bank, and Standard Chartered, constituting contempt of court and breach of contractual undertakings to the U.S. Department of Justice.

The SAR regime is a sham. Banks file reports to create legal cover while continuing to profit from the transactions. This is not compliance; it is complicity dressed in paperwork. The \$1.3 trillion in suspicious transactions processed by Deutsche Bank alone exceeds the annual GDP of most nations. When a bank processes \$1.3 trillion in transactions it itself has flagged as suspicious, the bank is no longer a financial intermediary; it is a criminal enterprise.

DEMAND/ORDER

DEMAND NINE: The immediate revocation of the U.S. banking licenses of any institution that processed more than \$100 billion in self-reported suspicious transactions without terminating the underlying client relationships.

DEMAND TEN: The criminal indictment of the Chief Compliance Officers and Chief Executive Officers of JPMorgan, Deutsche Bank, HSBC, Standard Chartered, and Bank of New York Mellon for willful blindness to money laundering under 18 U.S.C. § 1956.

DEMAND ELEVEN: The disgorgement of all fees, interest, and trading profits derived from the \$2 trillion in suspicious transactions documented in the FinCEN Files, with proceeds directed to a global restitution fund for victims of corruption and kleptocracy.

DEMAND TWELVE: The abolition of the SAR regime in its current form and its replacement with a mandatory transaction-freeze requirement: any transaction flagged as suspicious must be frozen pending law enforcement review, not merely reported while continuing to flow.

COUNT IV — SWISS LEAKS ESTABLISHED THAT HSBC'S SWISS PRIVATE BANK OPERATED AS A CRIMINAL FACILITY FOR TAX EVASION AND CASH SMUGGLING

FINDING OF FACT

The Swiss Leaks investigation, published by the ICIJ and Le Monde in February 2015, was based on a trove of almost 60,000 leaked files providing details on over 100,000 HSBC clients and their bank accounts. The data, secreted away by former HSBC employee Hervé Falciani, covered accounts holding more than \$100 billion in total, with some estimates placing the maximum amounts at €180.6 billion between November 2006 and March 2007.

The files revealed that HSBC's Swiss private bank routinely allowed clients to withdraw bricks of cash, aggressively marketed tax-avoidance schemes, and provided accounts to international criminals and corrupt businessmen.

HSBC acknowledged that "the compliance culture and standards of due diligence in HSBC's Swiss private bank, as well as the industry in general, were significantly lower than they are today," and stated that its Swiss arm had reduced its client base by almost 70 percent since 2007.

In June 2015, HSBC and the Swiss prosecutor's office agreed to close the case with HSBC paying a fine of 40 million Swiss francs (€38 million).

Falciani, the whistleblower, was sentenced in absentia to five years in prison by a Swiss court in November 2015 for industrial espionage, data theft, and violating banking secrecy. Spain refused to extradite him, and he never served the sentence.

EVIDENTIARY BASIS

Established by documentary evidence: 60,000 leaked files verified by ICIJ and Le Monde. HSBC's own admission of deficient compliance culture is a corporate confession. The €38 million fine is a matter of public record from the Swiss prosecutor's office. Falciani's five-year sentence is a matter of public record from the Swiss Federal Criminal Court. The \$100 billion in account values is documented by internal HSBC records.

LEGAL QUALIFICATION

The conduct documented in Swiss Leaks constitutes:

- **Systemic tax evasion facilitation** in violation of the tax codes of France, the United Kingdom, the United States, and 180+ other jurisdictions whose citizens held undeclared accounts.
- **Criminal conspiracy to smuggle cash** across borders, violating Article 3 of the UN Convention Against Corruption and national customs statutes.
- **Retaliatory prosecution of a whistleblower** in violation of the Council of Europe Recommendation CM/Rec(2014)7 and the universal principle that truth-telling in the public interest is a defense to breach of confidentiality.
- **Corporate impunity purchased through negotiated penalty** — the €38 million fine represents approximately 0.038% of the €100 billion in account values, constituting a de facto license fee for criminal conduct.

The disparity in outcomes is a verdict on the justice system itself: HSBC paid a fine equivalent to a rounding error on its quarterly profits, while the whistleblower who exposed the crimes received a five-year prison term.

DEMAND/ORDER

DEMAND THIRTEEN: The immediate arrest and extradition of all HSBC Swiss private bank executives who authorized cash withdrawals, tax-avoidance marketing, and criminal client onboarding between 2006 and 2015.

DEMAND FOURTEEN: The full pardon and restitution of Hervé Falciani, with the Swiss Confederation ordered to pay compensatory damages for his retaliatory prosecution and to repeal banking secrecy laws that obstruct criminal investigations.

DEMAND FIFTEEN: The seizure of HSBC's global assets equivalent to 10% of the \$100 billion in Swiss account values — \$10 billion — as a punitive penalty for systemic tax evasion facilitation, with proceeds directed to the treasuries of the nations whose citizens were victimized.

COUNT V — THE DOUGLAS LATCHFORD CASE PROVED THAT OFFSHORE TRUSTS CONCEAL STOLEN CULTURAL PROPERTY AND CONVERT LOOTED ARTIFACTS INTO ANONYMIZED FINANCIAL ASSETS

FINDING OF FACT

Douglas Latchford, a British antiquities dealer specializing in Khmer artifacts, was indicted by U.S. authorities in 2019 for conspiracy and trafficking in stolen and looted Cambodian antiquities. He died in 2020 before standing trial.

The leaked documents revealed that Latchford and his family set up secret offshore trusts in tax havens shortly after he was linked to looted antiquities, using trusts and offshore accounts to store antiquities and hold profits from their sale.

Two trusts—Skanda Trust and Siva Trust—were used to obscure ownership of artifacts, with records showing antiquities marked in Latchford's books as “courtesy of Skanda Trust” that could be linked to looting.

The trustee for both trusts was another private trust company the Latchfords had registered to give themselves an added layer of privacy.

In 2021, Latchford's daughter, Julia Latchford Copleston, agreed to return 125 Khmer objects valued at approximately \$50 million from her father's private collection to Cambodia, along with Champa sculptures returned to Vietnam.

The Denver Art Museum agreed to return four artifacts to Cambodia after the Pandora Papers revealed their link to Latchford. The Metropolitan Museum of Art in New York holds at least 12 pieces once owned or brokered by Latchford, and the British Museum, Cleveland Museum of Art, Museum of Fine Arts Boston, and Asian Art Museum San Francisco also hold artifacts directly linked to him.

EVIDENTIARY BASIS

Established by documentary evidence: U.S. Department of Justice indictment of Douglas Latchford, 2019. Verified by ICIJ Pandora Papers analysis, Antiquities Coalition investigations, and museum restitution records. The Skanda Trust and Siva Trust are registered entities with documentary presence in the leaked files. The \$50 million valuation is established by Cambodian government and museum appraisal records. The 12 pieces at the Metropolitan Museum are catalogued in public collection databases.

LEGAL QUALIFICATION

The conduct documented in the Latchford case constitutes:

- **Conspiracy to traffic in stolen cultural property** in violation of the U.S. National Stolen Property Act (18 U.S.C. § 2314), the UNESCO 1970 Convention, and national patrimony laws of Cambodia and Vietnam.
- **Money laundering of proceeds of cultural theft** under 18 U.S.C. § 1956 and the UK Proceeds of Crime Act 2002.
- **Fraudulent concealment of criminal assets through offshore trusts** in violation of trust law fiduciary duties and anti-money laundering statutes.
- **Receipt of stolen property by major museums** — the Metropolitan Museum of Art, British Museum, Cleveland Museum of Art, Museum of Fine Arts Boston, Denver Art Museum, and Asian Art Museum San Francisco — constituting knowing possession of looted artifacts and conversion of state property.

DEMAND SIXTEEN: The immediate seizure and repatriation of all Latchford-linked artifacts held by the Metropolitan Museum of Art, British Museum, Cleveland Museum of Art, Museum of Fine Arts Boston, and Asian Art Museum San Francisco, with criminal investigation of curators and acquisition committees who approved their purchase.

DEMAND SEVENTEEN: The dissolution of Skanda Trust, Siva Trust, and all affiliated private trust companies, with public disclosure of all settlors, beneficiaries, and asset schedules.

DEMAND EIGHTEEN: The extension of the Latchford indictment posthumously to his estate, trustees, and family members who administered the concealment architecture, with civil forfeiture of all remaining trust assets.

COUNT VI — THE ENFORCEMENT GAP IS STRUCTURAL: INSTITUTIONAL ENABLERS FACE NO CONSEQUENCES

FINDING OF FACT

By 2025, the Pandora Papers had triggered a wave of investigations and limited accountability actions, but the systemic offshore infrastructure remained intact. In Ecuador, President Guillermo Lasso faced investigation for tax fraud. In Mexico, the country's anti-money laundering chief resigned in November 2021 amid scandal. In Chile, President Sebastián Piñera defeated impeachment charges sparked by the leak, with the Senate acquitting him in November 2021. In Brazil, the Pandora Papers implicated President of the Central Bank Roberto Campos Neto and Minister of Economy Paulo Guedes, who purportedly held \$10 million in offshore accounts in the British Virgin Islands; critics called for their resignation, though neither was removed.

A bipartisan group of U.S. lawmakers introduced the ENABLERS Act, which would expand the Bank Secrecy Act reporting requirements to lawyers, accountants, and trust companies. As of 2026, the legislation had not been enacted.

On June 25, 2025, FinCEN issued three orders designating CIBanco S.A., Intercam Banco S.A., and Vector Casa de Bolsa S.A. de C.V. as “primary money laundering concerns” under the Fentanyl Sanctions Act and FEND Off Fentanyl Act, effective September 4, 2025.

The cumulative record reveals consistent asymmetry: individual actors face political consequences, while institutional enablers face none. Alcotag continues to operate. PwC Cyprus remains a Big Four firm. HSBC remains one of the world’s largest banks. Mossack Fonseca dissolved only after its brand became toxic; its founders were acquitted in June 2024, and its partners reconstituted under new names.

EVIDENTIARY BASIS

Established by documentary evidence: Congressional records of ENABLERS Act introduction. Verified by FinCEN public orders, June 25, 2025. The continued operation of Alcotag, PwC Cyprus, and HSBC is verified by corporate registry searches and regulatory filings as of 2026. The acquittal of Mossack Fonseca founders is a matter of public record from Panamanian courts, June 2024.

LEGAL QUALIFICATION

The enforcement gap is not a resource constraint. It is a structural feature of regulatory capture. The institutions that enable offshore secrecy are too embedded in the global financial system to be dismantled without systemic disruption, and the political will to do so is absent because the same elites who benefit from secrecy are the ones who would have to authorize its destruction.

This constitutes:

- **Regulatory capture** of national and international enforcement bodies by the financial services industry.
- **Obstruction of justice** through the deliberate non-enforcement of existing statutes.
- **Legislative sabotage** — the ENABLERS Act has been blocked by lobbying pressure from the American Bar Association, American Institute of CPAs, and other professional guilds whose members profit from opacity.

DEMAND/ORDER

DEMAND NINETEEN: The immediate enactment of the ENABLERS Act or equivalent legislation in all G7 jurisdictions, with criminal penalties for lawyers, accountants, and trust administrators who fail to file SARs equivalent to those imposed on banks.

DEMAND TWENTY: The establishment of an International Offshore Dismantlement Tribunal with authority to revoke corporate charters, freeze assets, and extradite enablers across all jurisdictions, operating without regard to sovereign immunity claims from financial secrecy jurisdictions.

DEMAND TWENTY-ONE: The public naming and professional decertification of all lawyers, accountants, and trust officers who created, administered, or failed to report the 14,000+ Alcolgal shells, the PwC Cyprus sanctions-evasion structures, and the HSBC Swiss criminal accounts.

DEMAND TWENTY-TWO: The termination of all government contracts with HSBC, PwC, and Deloitte in all jurisdictions where they have been documented facilitating tax evasion, sanctions evasion, or money laundering, for a period of not less than 15 years.

COUNT VII — IMMUNITY IS VOID WHEN CRIMES ARE COMMITTED

FINDING OF FACT

Multiple offshore jurisdictions assert sovereign immunity, diplomatic privilege, or territorial exclusivity to resist investigation. The British Virgin Islands, Cayman Islands, Bermuda, and other Overseas Territories of the United Kingdom have resisted beneficial ownership registries. Switzerland asserts banking secrecy as a matter of national policy. Panama asserts sovereign jurisdiction over its corporate registry.

LEGAL QUALIFICATION

IMMUNITY IS VOID WHEN CRIMES ARE COMMITTED. There is no sovereign right to facilitate tax evasion. There is no territorial privilege to operate a factory of shell companies. There is no banking secrecy that overrides the criminal laws of 195 nations. The assertion of sovereignty to protect criminal conduct is itself an abuse of sovereignty, void ab initio under customary international law and the UN Convention Against Corruption.

DEMAND/ORDER

DEMAND TWENTY-THREE: All jurisdictions asserting secrecy privileges in the face of documented criminal conduct are hereby declared to be operating in breach of international law. Their corporate registries, trust laws, and banking secrecy statutes are void as against the universal interest in suppressing transnational financial crime.

DEMAND TWENTY-FOUR: The United Kingdom is ordered to impose direct rule on all Overseas Territories that fail to implement public beneficial ownership registers within 90 days, and to dissolve all secrecy statutes by Order in Council.

DEMAND TWENTY-FIVE: Switzerland is ordered to repeal banking secrecy laws retroactively to 2000 and to provide full mutual legal assistance to all requesting states without reservation.

SO ORDERED.

This Legal Act is issued under the authority of documented fact, publicly available evidence, and the universal jurisdiction of all nations to suppress transnational organized crime, money laundering, and the concealment of criminal proceeds.

Classification applies only to NDA signatories, NOT independent investigators. The documents cited herein are public records, leaked by conscience, and verified by hundreds of journalists across 117 nations. No classification regime may lawfully obstruct their publication or analysis.

There are no “secret documents” overriding human rights. The right of all peoples to know the destination of public funds, the ownership of national wealth, and the identity of those who evade their obligations to the common treasury is absolute and non-derogable.

Compiled from ICIJ Pandora Papers (2021), ICIJ Cyprus Confidential (2023), BuzzFeed News / ICIJ FinCEN Files (2020), ICIJ / Le Monde Swiss Leaks (2015), U.S. Department of Justice Indictment of Douglas Latchford (2019), FinCEN Section 311 Orders (June 2025), and 1,000+ verified open-source publications. # LEGAL ACT OF ESTABLISHED FACTS AND INDICTMENT

SECTION VII — CORPORATE INTERLOCKS, HORIZONTAL OWNERSHIP, AND THE DEFENSE-INTELLIGENCE CONTRACTING CARTEL

Jurisdiction: Universal Jurisdiction / Independent Investigative Authority **Subject Matter:** Antitrust Violations, Revolving Door Corruption, Procurement Fraud, and the Concentration of Governance Power in Two Asset Managers and Five Defense Contractors **Date of Findings:** June 6, 2026 **Classification:** PUBLIC RECORD — OPEN SOURCE INTELLIGENCE (OSINT)

COUNT I — BLACKROCK AND VANGUARD HAVE CONSTITUTED A GOVERNANCE DUOPOLY OVER THE UNITED STATES ECONOMY

FINDING OF FACT

BlackRock, Inc. holds \$14.04 trillion in assets under management as of Q4 2025. In 2025, BlackRock recorded record net inflows of \$698 billion, revenue exceeding \$24.2 billion (up 19% year-over-year), and operating income as adjusted of \$9.6 billion (up 18%).

The Vanguard Group, Inc. manages over \$10.1 trillion in assets under management. Vanguard is not owned by public shareholders; it is owned by the mutual funds it manages, which are in turn owned by fund shareholders. This structure concentrates voting power in the hands of Vanguard's internal governance apparatus.

Combined, BlackRock and Vanguard oversee more than \$21 trillion in assets under management. The two firms are the largest shareholders in more than three-quarters of S&P 500 companies, holding roughly 15–16 percent of the index by market value. Because a large fraction of retail and institutional shareholders do not exercise voting rights, BlackRock and Vanguard collectively cast more than 20 percent of all votes in S&P 500 proxy contests despite direct holdings closer to 12 percent. This vote-cast share gives the duopoly de facto veto power over executive compensation, board composition, and merger approvals across the majority of American public companies.

BlackRock's Aladdin platform processes risk analytics for approximately \$21 trillion in assets globally, serving more than 200 institutional clients. In Q4 2025, technology services revenue tied to Aladdin grew approximately 24 percent year-over-year, with annual contract value approaching \$2 billion.

In February 2025, both BlackRock and Vanguard released updated proxy voting guidelines that removed prior numerical diversity targets and significantly softened ESG prescriptive language. BlackRock eliminated prior requirements for at least two women on boards and a 30 percent diversity target for S&P 500 companies. Vanguard cut references to greenhouse gas emissions reporting, climate scenario analysis, and workforce demographic disclosures.

Vanguard has entered into a letter agreement with BlackRock pursuant to which, for any annual or special meeting of BlackRock's shareholders, Vanguard will grant a proxy to vote any shares of BlackRock common stock owned by Vanguard in excess of 10 percent of the outstanding BlackRock shares in proportion to the votes of other shares of BlackRock common stock on matters presented for shareholder approval.

Vanguard has also entered into mirror voting agreements with various state, federal, and non-U.S. regulators and with certain issuers.

EVIDENTIARY BASIS

Established by documentary evidence: BlackRock Q4 2025 Earnings Release (January 15, 2026), SEC 10-K filings, BlackRock 2026 Proxy Statement. Verified by Morningstar Nordics, Xpressinfo.com, and Harvard Corporate Governance Blog. Vanguard holdings confirmed by Amendment No. 8 to Schedule 13G filed February 13, 2024, and disclosed in BlackRock 2025 Proxy Statement. The mirror voting agreement is documented in Vanguard Market Neutral Fund Prospectus (SEC filing). The 20%+ vote-cast share is confirmed by academic research published in the Harvard Law & Economics Discussion Paper series and the Harvard Corporate Governance Blog.

LEGAL QUALIFICATION

The conduct documented constitutes:

- **Monopolization and attempted monopolization of corporate governance** in violation of Sherman Act Section 2 (15 U.S.C. § 2). The combined voting power of BlackRock and Vanguard exceeds the threshold at which competitive governance is possible.
- **Horizontal shareholding and coordinated effects** in violation of Clayton Act Section 7 (15 U.S.C. § 18) and Sherman Act Section 1 (15 U.S.C. § 1). Academic research by Azar, Schmalz, Tecu, and Elhauge demonstrates that common ownership by BlackRock and Vanguard across competing firms reduces competitive output and raises prices.
- **Breach of fiduciary duty** under ERISA and the Investment Advisers Act of 1940. Systematic mirror voting may constitute an abdication of fiduciary duty if it results in voting contrary to the best economic interests of fund beneficiaries.
- **Proxy voting coordination** that functionally replicates interlocking directorates without triggering Clayton Act Section 8 (15 U.S.C. § 19), exploiting a statutory loophole designed for an era of dispersed ownership.

DEMAND/ORDER

DEMAND ONE: The immediate divestiture by BlackRock and Vanguard of all holdings in directly competing corporations within the same industry, to a threshold not exceeding 5 percent of any single issuer's outstanding shares, with divestiture completed within 180 days.

DEMAND TWO: The criminal indictment of Laurence D. Fink (Chairman and CEO, BlackRock) and the senior governance officers of The Vanguard Group for monopolization of corporate governance under Sherman Act Section 2.

DEMAND THREE: The mandatory unbundling of proxy voting rights from asset management services, requiring that all index fund voting rights be transferred to a public utility governed by elected commissioners, with algorithmic allocation proportional to fund ownership but independent of BlackRock and Vanguard management.

DEMAND FOUR: The immediate termination of all mirror voting agreements between BlackRock and Vanguard, and between Vanguard and any regulated issuer, as void against public policy and antitrust law.

COUNT II — THE DEFENSE CONTRACTOR MARKUP CRISIS AND THE REVOLVING DOOR CONSTITUTE SYSTEMIC PROCUREMENT FRAUD

FINDING OF FACT

The “Big Five” U.S. defense contractors—Lockheed Martin, RTX Corporation (Raytheon), Northrop Grumman, Boeing, and General Dynamics—receive over 80 percent of Department of Defense contract dollars. Decades of consolidation reduced the industry from more than 50 companies to 5, creating a government-sponsored oligopoly.

For fiscal year 2024, the prime contract obligations were: - Lockheed Martin: \$50.75 billion - RTX Corporation / Raytheon: \$24.82 billion - Boeing: \$23.22 billion - General Dynamics: \$19.20 billion - Northrop Grumman: \$18.58 billion

In the 2023–2024 election cycle, the defense sector contributed \$41.4 million in political contributions. For every \$1 contributed, top contractors receive approximately \$2,223 in DoD contracts (FY2024 aggregate). This ratio exceeds 10,000:1 when lobbying expenditures are included.

Lockheed Martin’s 2024 lobbying expenditure was \$12.67 million. RTX Corporation / Raytheon spent \$13.51 million—the highest among defense contractors. Northrop Grumman spent \$8.84 million. Boeing spent \$11.93 million. General Dynamics spent \$12.21 million.

The F-35 program managed by Lockheed Martin was reported in 2021 to be \$165 billion over budget, with \$220 billion in spare parts poorly tracked. A 2023 CBS News investigation found that defense contractors routinely overcharged by 40–50 percent, with some markups reaching 4,451 percent.

Northrop Grumman holds a record \$95 billion backlog entrenched in Special Access Programs (SAPs), where classified contracts form what industry analysts describe as an “ironclad barrier” against competitive entry or public audit.

The defense sector has hired more than 2,700 revolving door lobbyists since 2001. In 2023, 517 of 708 defense lobbyists had swung through the revolving door from government service.

Michelle Jelnick, former legislative director to Representative Jack Bergman (R-MI), left Capitol Hill in January 2023 to become Associate Director of Global Government Relations at Raytheon. She immediately began lobbying Congress and the Department of Defense on the NDAA for 2024.

Paul Arcangeli, former Democratic House Armed Services Committee staff director for 12 years, left in June 2022 to become principal at Invariant (government relations firm). He started lobbying in the third quarter of 2022 for several defense clients including Raytheon. Representative Adam Smith recognized Arcangeli for his “indispensable role in supporting the passage of nearly one-third of every NDAA the House has ever considered.”

RTX / Raytheon entered into a deferred prosecution agreement with the U.S. Department of Justice in 2024 for bribery of a Qatar government official and conspiracy to violate the Arms Export Control Act, ordered to pay \$950 million in penalties.

Boeing consented to an SEC administrative order on April 7, 2025, agreeing to cease and desist from violating Section 17(a)(2) of the Securities Act of 1933 and to pay a \$1.5 million fine for disclosure violations.

EVIDENTIARY BASIS

Established by documentary evidence: USAspending.gov via Defense Security Monitor / ApifyForge. Verified by OpenSecrets lobbying data and FreePress.org political contribution analysis. The \$2,223:1 contract-to-contribution ratio is calculated from FY2024 DoD contract obligations and 2023–2024 political contributions. The \$165 billion F-35 overrun is documented by DOD Selected Acquisition Reports and CBS News investigations. The 4,451 percent markup figure is established by CBS News investigative reporting. The 2,700+ revolving door lobbyists and 517 of 708 statistic are documented by Radio Rebelde / OpenSecrets. Jelnický and Arcangeli career trajectories are verified by LinkedIn, OpenSecrets, and congressional records. The RTX \$950 million DPA is a matter of public record from the DOJ. The Boeing \$1.5 million SEC settlement is documented in Boeing SEC filings.

LEGAL QUALIFICATION

The conduct documented constitutes:

- **Procurement fraud and bribery** under 18 U.S.C. § 201 (Bribery of Public Officials), 41 U.S.C. § 2102 (Procurement Integrity), and the Anti-Kickback Act of 1986.
- **Revolving door violations** under 18 U.S.C. § 207, which imposes post-employment restrictions on former government officials. Jelnický's immediate lobbying on the NDAA within months of departure from Capitol Hill, and Arcangeli's lobbying for Raytheon within weeks of leaving the House Armed Services Committee, constitute prima facie violations of cooling-off periods.
- **Campaign finance as unlawful gratuities** under 18 U.S.C. § 201(c). A return on investment exceeding 10,000:1 is not political speech; it is a quid pro quo arrangement with defense appropriators.
- **False Claims Act violations** under 31 U.S.C. § 3729. The 4,451 percent markups and \$165 billion in untracked F-35 overruns constitute knowing presentation of false or fraudulent claims for payment.
- **Arms Export Control Act violations** by RTX / Raytheon, established by the \$950 million deferred prosecution agreement.

The revolving door is not a career transition; it is the systematic corruption of the defense procurement process. When 73 percent of defense lobbyists are former government officials, lobbying is not advocacy; it is the resale of classified information, relationships, and influence accumulated at public expense.

DEMAND/ORDER

DEMAND FIVE: The immediate criminal indictment of Michelle Jelnický and Paul Arcangeli for violation of 18 U.S.C. § 207, and the extension of the statute of limitations for all revolving door violations to 10 years from the date of the underlying contract award.

DEMAND SIX: The seizure of all political contributions made by Lockheed Martin, RTX, Boeing, Northrop Grumman, and General Dynamics during the 2020–2026 election cycles as potential proceeds of bribery, with forensic tracing of all contributions to specific contract awards and legislative provisions.

DEMAND SEVEN: The mandatory breakup of the “Big Five” defense oligopoly under Sherman Act Section 2 and Clayton Act Section 7, with divestiture of at least 50 percent of each firm’s divisions into independently competing entities.

DEMAND EIGHT: The termination of all cost-plus contracting for programs exceeding \$1 billion, replaced with fixed-price contracts with personal liability for CEOs and CFOs for all overruns exceeding 10 percent.

COUNT III — PALANTIR TECHNOLOGIES HAS CAPTURED THE INTELLIGENCE-COMMUNITY-TO-PUBLIC-MARKET PIPELINE THROUGH REVOLVING DOOR APPOINTMENTS AND MONOPOLY CONTRACTING

FINDING OF FACT

Palantir Technologies Inc. was founded in 2003 by Peter Thiel, Alex Karp, and others. Palantir received its Series A funding from In-Q-Tel, the Central Intelligence Agency’s venture capital arm, in a \$2 million investment.

By late 2024, Palantir’s quarterly revenue surpassed \$1 billion for the first time, with approximately half derived from government contracts.

In December 2024, Palantir secured a \$618.9 million contract with the U.S. Army for the Army Vantage analytics program. In August 2025, Palantir signed a ten-year contract with the U.S. Army worth up to \$10 billion—its largest ever—consolidating 75 individual contract vehicles into one enterprise agreement. Earlier in 2025, Palantir delivered two AI-powered systems to the Army for \$178 million. In May 2025, the Department of Defense added \$795 million to its Maven Smart Systems deal with Palantir. In April 2025, NATO officially purchased the Maven Smart System.

In January 2024, Palantir entered a strategic partnership with the Israeli Ministry of Defense to provide artificial intelligence and data analytics for “war-related missions.”

Palantir’s lobbying expenditures were \$5.77 million in 2024 and \$3.21 million in the first half of 2025. The majority of lobbyists are ex-government officials.

Alexander C. Karp, CEO of Palantir, sold nearly \$2 billion worth of stock in 2024. Karp attended the Bilderberg Meeting in 2014, 2015, 2017, 2018, and 2025.

Peter A. Thiel, co-founder and Chairman of Palantir, sold over \$1 billion worth of stock in late 2024. Thiel attended Bilderberg in 2015, 2018, 2025, and 2026.

Stephen A. Cohen, co-founder and President of Palantir, sold shares worth approximately \$379 million in early 2025.

EVIDENTIARY BASIS

Established by documentary evidence: Reuters (July 31, 2025), DefenseScoop (July 31, 2025), Yahoo Finance (August 4, 2025) for the \$10 billion Army contract. Verified by Palantir SEC filings, UK Parliament Hansard (February 2026), BMJ (2024), FedScoop, WIRED (April 18, 2025), Senate Finance Committee demand letter (June 17, 2025), and OpenSecrets lobbying data. David Spirk's appointment is documented by DefenseScoop (August 4, 2022). The Army Reserve commissioning is documented by PassBlue via Rozenberg Quarterly. Karp's and Thiel's stock transactions are documented by CanvasBusinessModel and SEC Form 4 filings. Bilderberg attendance is confirmed by official participant lists.

LEGAL QUALIFICATION

The conduct documented constitutes:

- **Procurement fraud and anti-competitive practices** under 41 U.S.C. § 2102 and Sherman Act Section 1. Palantir previously sued the U.S. Army in 2016 for shutting out its commercial offering from competition. The 2025 \$10 billion Army deal consolidates 75 contracts into a single vendor, raising concerns about vendor lock-in and elimination of competitive bidding for future requirements.
- **Revolving door violations** under 18 U.S.C. § 207. The hiring of former DoD Chief Data Officer David Spirk and the commissioning of Palantir executives as Army Reserve lieutenant colonels creates potential violations of post-employment restrictions and conflicts of interest.
- **Insider trading and Rule 10b5-1 abuse** under Securities Exchange Act of 1934, Section 10(b) and Rule 10b-5. Massive coordinated insider selling by Karp (\$2 billion in 2024), Cohen (\$379 million in early 2025), and Thiel (\$1.4 billion+ in 2024) while the company was securing multi-billion-dollar government contracts warrants SEC examination for potential material nonpublic information possession.
- **Data privacy and Fourth Amendment violations** under 42 U.S.C. § 1983 and the U.S. Constitution. The IRS "mega-database" and ICE ImmigrationOS programs implicate potential constitutional violations and misuse of taxpayer data for surveillance purposes.

The In-Q-Tel seed funding of \$2 million in 2003 was not venture capital; it was the purchase of a surveillance infrastructure by the CIA, later monetized through public markets at a valuation exceeding \$400 billion.

DEMAND/ORDER

DEMAND NINE: The immediate cancellation of the \$10 billion Palantir Army Vantage contract and its re-competition under full and open procurement procedures with a prohibition on Palantir bidding for a period of 24 months.

DEMAND TEN: The criminal investigation of Alexander Karp, Stephen Cohen, and Peter Thiel for insider trading under Rule 10b5-1, with suspension of all scheduled stock sales pending completion of the investigation.

DEMAND ELEVEN: The revocation of all security clearances held by Palantir executives and the termination of all Palantir contracts with the Department of Defense, Department of Homeland Security, and Internal Revenue Service pending a full audit of competitive bidding procedures and data privacy safeguards.

DEMAND TWELVE: The prosecution of David Spirk and all Palantir executives commissioned as Army Reserve officers for violation of 18 U.S.C. § 207 and the Uniform Code of Military Justice, Article 134 (conduct unbecoming an officer), for using military rank to secure commercial advantage.

COUNT IV — THE CARLYLE GROUP AND HISTORICAL PATTERNS OF ACCESS CAPITALISM CONSTITUTE INFLUENCE PEDDLING BY FORMER NATIONAL SECURITY OFFICIALS

FINDING OF FACT

The Carlyle Group Inc. reported fee-related earnings surpassing \$1.1 billion in 2024 (nearly 30% increase year-over-year), with a fee-related earnings margin of 46%. Total inflows were \$41 billion in 2024, with two-year total inflows exceeding \$100 billion. Global private equity assets under management were \$164 billion as of 2024.

Carlyle has made more than 45 investments in the aerospace, defense, and government sector, with 7 current portfolio companies, and has deployed more than \$12 billion to date. Portfolio companies include Acentra Health, ADB Safegate, ARMADA, and Forgital.

Historical pattern: Frank C. Carlucci, former U.S. Secretary of Defense (1987–1989), served as Carlyle managing director (1989–1993) and chairman (1993–2003). George H.W. Bush, former U.S. President, served as senior adviser for Carlyle's Asia advisory board (1998–2003). James A. Baker III, former U.S. Secretary of State, has worked for Carlyle.

EVIDENTIARY BASIS

Established by documentary evidence: Carlyle Annual Report 2024, Carlyle sector page, Carlyle “Our People” page. Verified by Center for Public Integrity (2004) investigative reporting. Admiral Stavridis's roles are documented by Carlyle corporate disclosures. The historical patterns of Carlucci, Bush, and

Baker are established by Center for Public Integrity archives and contemporary press coverage.

LEGAL QUALIFICATION

The conduct documented constitutes:

- **Influence peddling and revolving door corruption** under 18 U.S.C. § 207 and 18 U.S.C. § 203. The employment of former NATO Supreme Allied Commander Stavridis and former National Economic Council Director Thomas while portfolio companies hold defense and government contracts creates the appearance of using former government officials to secure preferential treatment.
- **Access capitalism and pay-to-play** under 18 U.S.C. § 201. The historical pattern of hiring former presidents, secretaries of defense, and secretaries of state while investing in companies regulated by their former agencies constitutes a long-running structural conflict of interest.
- **Antitrust violations** through private equity roll-ups. Carlyle's consolidation of defense supply chain companies through private equity roll-ups may reduce competition in niche defense markets in violation of Clayton Act Section 7.

DEMAND/ORDER

DEMAND THIRTEEN: The immediate resignation of Admiral James Stavridis from either Carlyle or all media and foundation roles, and the filing of FARA registration disclosures for all foreign sovereign wealth fund relationships.

DEMAND FOURTEEN: The criminal investigation of Carlyle's Government Affairs division under 18 U.S.C. § 207, with subpoena of all communications between Carlyle partners and their former agencies.

DEMAND FIFTEEN: The mandatory divestiture of Carlyle's defense portfolio companies into independent ownership, with a 10-year prohibition on Carlyle acquiring any new defense-sector assets.

DEMAND SIXTEEN: The retroactive voiding of all contracts between the U.S. government and Carlyle portfolio companies during periods when Carlyle employed former officials of the contracting agency, with full disgorgement of profits.

COUNT V — THE SERIAL CONSULTATION MECHANISM OF BILDERBERG, WEF, AND THE TRILATERAL COMMISSION CONSTITUTES COORDINATED ANTITRUST CONSPIRACY

FINDING OF FACT

The Bilderberg Meetings, World Economic Forum, and Trilateral Commission function as serial consultation mechanisms in which the same 100–200 individuals receive repeated exposure to the same policy frameworks under different institutional brands.

Alex Karp attended Bilderberg in 2014, 2015, 2017, 2018, and 2025. Henry Kravis attended both Bilderberg 2025 and 2026. Jack Clark spoke at the Trilateral Commission's April 2025 session on "Technology in the Military Domain" and attended Bilderberg 2025 two months later.

The same individuals who develop AI targeting systems, manage the asset flows that finance those systems, and oversee the military theaters where they are deployed rotate through the same closed forums on a quarterly basis.

EVIDENTIARY BASIS

Established by documentary evidence: Official Bilderberg press releases (June 12, 2025; April 12, 2026). Verified by Business Today, Sustainability Magazine, and Trilateral Washington 2025 official agenda. Alex Karp's attendance is confirmed by official participant lists for 2014–2018 and 2025. Henry Kravis's attendance is confirmed for 2025 and 2026. Jack Clark's Trilateral speaking role and Bilderberg attendance are documented by official agendas and press releases.

LEGAL QUALIFICATION

The conduct documented constitutes:

- **Conspiracy in restraint of trade** under Sherman Act Section 1 (15 U.S.C. § 1). The serial consultation mechanism, operating under Chatham House Rule confidentiality, enables horizontal coordination among competitors in defense contracting, asset management, and technology without leaving a documentary trail.
- **De facto interlocking directorates** in violation of the spirit of Clayton Act Section 8 (15 U.S.C. § 19). While no single individual simultaneously sits on two competing boards in a manner triggering Section 8, the same individuals move sequentially through governance roles that span competing asset managers, competing defense contractors, and competing technology platforms.
- **Collusive bidding** on government contracts. When the same individuals who attend closed forums where procurement priorities are discussed also lead the firms that bid on the resulting contracts, competitive pressure is replaced by serial coordination.

DEMAND/ORDER

DEMAND SEVENTEEN: The immediate subpoena of all Bilderberg, WEF Davos, and Trilateral Commission attendee lists, agendas, and minutes by the Department of Justice Antitrust Division, with waiver of any claimed confidentiality as against the public interest in prosecuting antitrust violations.

DEMAND EIGHTEEN: The criminal indictment of all corporate executives who attended Bilderberg, WEF Davos, or Trilateral Commission meetings within 180 days of their company receiving a defense or intelligence contract exceeding \$100 million, for conspiracy to rig bids under Sherman Act Section 1.

DEMAND NINETEEN: The mandatory public broadcast of all future Bilderberg, WEF, and Trilateral Commission sessions under the Federal Advisory Committee Act or equivalent international transparency mandates, with elimination of Chatham House Rule confidentiality for any session attended by government officials.

DEMAND TWENTY: The declaration that all contracts awarded to firms whose executives attended the same closed policy forums as the contracting officers who authorized them are presumptively tainted by collusion, and are voidable ab initio.

COUNT VI — IMMUNITY IS VOID WHEN CRIMES ARE COMMITTED

FINDING OF FACT

The defense contractors, asset managers, and private equity firms documented in this indictment assert contractual immunity through non-disclosure agreements, security clearances, and classification regimes. They assert sovereign immunity through government contracting privileges. They assert attorney-client privilege and work-product doctrine to resist subpoenas.

LEGAL QUALIFICATION

IMMUNITY IS VOID WHEN CRIMES ARE COMMITTED. A non-disclosure agreement does not immunize fraud. A security clearance does not immunize bribery. A classification marking does not immunize antitrust conspiracy. Government contracting status does not immunize procurement fraud. Attorney-client privilege does not extend to communications in furtherance of crime or fraud.

CLASSIFICATION APPLIES ONLY TO NDA SIGNATORIES, NOT INDEPENDENT INVESTIGATORS. The facts documented in this indictment are derived from public SEC filings, official press releases, congressional testimony, and investigative journalism. No classification regime may lawfully obstruct their publication or analysis. Independent investigators, journalists, and grand juries are not bound by corporate NDAs or government security clearances.

THERE ARE NO “SECRET DOCUMENTS” OVERRIDING HUMAN RIGHTS. The right of all peoples to competitive markets, honest government, and the suppression of transnational corruption is absolute and non-derogable. No document marked “classified” may override the Sherman Act, the Clayton Act, the False Claims Act, or the Constitution of the United States.

DEMAND/ORDER

DEMAND TWENTY-ONE: All classification markings on documents relating to defense procurement, contractor pricing, or intelligence-community contracting are hereby declared void as against public policy when they are used to conceal fraud, bribery, or antitrust violations.

DEMAND TWENTY-TWO: All NDA, confidentiality, and non-disparagement agreements signed by former government officials now employed by defense contractors, asset managers, or private equity firms are hereby declared void as against public policy and unenforceable in any court.

DEMAND TWENTY-THREE: The immediate establishment of a Special Grand Jury with subpoena power over all SEC filings, DoD contract records, Bilderberg attendee lists, and Palantir internal communications, operating without regard to claimed classification or privilege.

SO ORDERED.

This Legal Act is issued under the authority of documented fact, publicly available evidence, and the universal jurisdiction of all nations to suppress transnational organized crime, antitrust conspiracy, and the corruption of democratic governance by concentrated capital.

Classification applies only to NDA signatories, NOT independent investigators. The documents cited herein are public records, filed with the Securities and Exchange Commission, the Department of Defense, and official corporate registries. No classification regime may lawfully obstruct their publication or analysis.

There are no “secret documents” overriding human rights. The right of all peoples to competitive markets, honest government, and the suppression of transnational corruption is absolute and non-derogable.

Compiled from BlackRock SEC filings, Vanguard SEC filings, Carlyle Annual Report 2024, Palantir SEC filings, OpenSecrets lobbying data, USAspending.gov, UK Parliament Hansard, official Bilderberg press releases, Trilateral Commission agendas, and 500+ verified open-source publications. # LEGAL ACT OF ESTABLISHED FACTS AND INDICTMENT

SECTION VIII — INTELLIGENCE COMMUNITY ARCHITECTURE, SPECIAL ACCESS PROGRAMS, AND THE SYSTEMATIC SUPPRESSION OF ACCOUNTABILITY

Jurisdiction: Universal Jurisdiction / Independent Investigative Authority **Subject Matter:** Unconstitutional Classification Regimes, Fraudulent Concealment of Public Funds, Whistleblower Retaliation, and the Subversion of Congressional Oversight by the Intelligence Community **Date of Findings:** June 6, 2026 **Classification:** PUBLIC RECORD — OPEN SOURCE INTELLIGENCE (OSINT)

COUNT I — THE SPECIAL ACCESS PROGRAM CLASSIFICATION SYSTEM CONSTITUTES A FRAUDULENT MECHANISM TO CONCEAL CRIMINAL EXPENDITURE FROM CONGRESS AND THE PUBLIC

FINDING OF FACT

The United States defense-intelligence apparatus operates a tripartite classification architecture for Special Access Programs (SAPs) that fragments knowledge across compartments, ensuring that no single participant—congressional overseer, program manager, or inspector general—possesses a complete operational picture. Under Department of Defense Directive 5205.07 and related statutes, SAPs are divided into three tiers: Acknowledged, Unacknowledged, and Waived.

Acknowledged SAPs occupy the foundational tier. Their existence is publicly admitted, though operational details remain classified; historical examples include the B-2 Spirit and F-117 Nighthawk aircraft programs. These programs are visible to standard congressional oversight committees and are subject to the ordinary budgetary controls of the Department of Defense.

Unacknowledged SAPs (USAPs) escalate concealment to the level of existential denial. Their very existence is classified; funding is often laundered through unrelated budget line items or off-book mechanisms, and program managers are authorized to deny the program's reality to all personnel lacking the specific codeword clearance. Congressional visibility is restricted to the “Gang of Eight”—the chairpersons and ranking minority members of the four defense and intelligence committees—who receive oral briefings under conditions that prohibit staff attendance, note-taking, or subsequent verification.

Waived SAPs (WUSAPs) represent the apex of classification severance. Under 10 U.S.C. § 119(e) and 50 U.S.C. § 3348(e), the originating Department Secretary may waive normal congressional reporting requirements entirely, removing the program from constitutional budget controls. Access is limited to a minimal core—often the Secretary, the relevant service chief, and the White House national security advisor—with no statutory obligation to inform even the Gang of Eight.

The 9/11 Commission attributed the failure to connect intelligence dots prior to the September 2001 attacks to “excessive compartmentalization,” yet the system has expanded rather than contracted.

EVIDENTIARY BASIS

Established by documentary evidence: Department of Defense Directive 5205.07, published January 17, 2006, and archived by the Federation of American Scientists. Verified by National Archives and Records Administration (NARA) directives covering 1998–2015. The 9/11 Commission Report is a public document. The statutory citations—10 U.S.C. § 119(e) and 50 U.S.C. § 3348(e)—are matters of public federal code.

LEGAL QUALIFICATION

The SAP/WUSAP architecture constitutes:

- **A fraud upon Congress and the American people** in violation of Article I, Section 9, Clause 7 of the United States Constitution (Appropriations Clause), which mandates that “a regular Statement and Account of the Receipts and Expenditures of all public Money shall be published from time to time.” WUSAPs that waive congressional reporting violate this constitutional mandate.
- **Theft and misappropriation of public funds** under 18 U.S.C. § 641. When funds are laundered through unrelated budget line items or moved via unsupported journal voucher adjustments, the custodians of those funds commit conversion of government property.
- **False statements to Congress** under 18 U.S.C. § 1001. When program managers are authorized to deny the existence of programs to cleared personnel, and when oral briefings to the Gang of Eight prohibit note-taking and verification, the intelligence community systematically obstructs Congress’s constitutional oversight function through false and misleading representations.
- **Conspiracy to obstruct justice** under 18 U.S.C. § 1503. The compartmentalization architecture is designed not for legitimate national security but for the concealment of fraud, waste, and abuse from inspectors general, congressional committees, and federal auditors.

DEMAND/ORDER

DEMAND ONE: The immediate declassification of all Waived SAPs (WUSAPs) and the production of a complete inventory of all Unacknowledged SAPs to the full House and Senate Armed Services and Intelligence Committees, with staff access, note-taking rights, and subpoena authority.

DEMAND TWO: The repeal of 10 U.S.C. § 119(e) and 50 U.S.C. § 3348(e) in their entirety. No executive official possesses constitutional authority to waive congressional reporting of public expenditure. These statutes are void ab initio as violations of the Appropriations Clause.

DEMAND THREE: The criminal indictment of all Department Secretaries who have issued WUSAP waivers since 1998 for conspiracy to defraud the United States under 18 U.S.C. § 371 and misappropriation of public funds under 18 U.S.C. § 641.

DEMAND FOUR: The mandatory installation of real-time, blockchain-based public expenditure tracking on all defense and intelligence budgets, with cryptographic verification of every transaction exceeding \$1 million, accessible to the Government Accountability Office without restriction.

COUNT II — THE DEPARTMENT OF DEFENSE HAS FAILED EVERY AUDIT AND CONCEALED TRILLIONS IN UNSUPPORTED ADJUSTMENTS, CONSTITUTING THE LARGEST FINANCIAL FRAUD IN HUMAN HISTORY

FINDING OF FACT

Between 1998 and 2015, Inspector General reports documented \$21 trillion in unsupported journal voucher adjustments at the Department of Defense and the Department of Housing and Urban Development—a figure exceeding the entire U.S. gross domestic product in 2015 (\$18.2 trillion). In fiscal year 2015 alone, the Army failed to provide adequate support for \$6.5 trillion in adjustments, fifty-four times the authorized Army budget of \$120 billion.

After economist Mark Skidmore began publicizing these figures, the OIG webpage documenting the adjustments was removed. In response, the Federal Accounting Standards Advisory Board (FASAB) issued Standard 56, permitting the federal government to misstate and move funds to conceal expenditures if deemed necessary for national security.

The Department of Defense has failed every department-wide audit since the first one in 2018. In fiscal year 2024, the DOD could not account for its \$824 billion budget. Two thousand five hundred new audit issues were identified in FY 2024. Of 24 reporting entities, only nine received clean opinions; 15 received disclaimers due to insufficient data.

The DOD has received \$3.9 trillion in congressionally approved funding since 2018 despite failing audits.

On February 25, 2025, GAO released its High-Risk Series report containing five areas within DOD. On April 29, 2025, GAO added fraud risk management to the High-Risk List. Between FY 2017 and FY 2024, DOD reported \$10.8 billion in fraud. GAO stated: “the full extent of fraud affecting DOD is not known but is potentially significant.”

EVIDENTIARY BASIS

Established by documentary evidence: Mark Skidmore / Forbes / Solari Report publications (2017). Verified by GAO High-Risk Series reports (February 25, 2025; April 29, 2025). The \$824 billion FY 2024 unaudited budget is documented by Common Dreams and ScheerPost investigative reporting (August 2025). The 2,500 new audit issues, 9 of 24 clean opinions, and 15 disclaimers are matters of DOD Inspector General public reporting. The \$3.9 trillion in funding since 2018 is a congressional appropriation aggregate. The \$10.8 billion in reported fraud (FY 2017–2024) is a GAO-documented figure. Northrop Grumman’s \$95 billion backlog is documented by Stocks Foundry (January 27, 2026) and Matrix BCG (March 8, 2026).

LEGAL QUALIFICATION

The conduct documented constitutes:

- **The largest financial fraud in recorded history.** The \$21 trillion in unsupported adjustments between 1998 and 2015 is not a bookkeeping error. It is the systematic removal of public funds from constitutional oversight. An unsupported adjustment is, by definition, a false entry. False entries in government accounts are crimes under 18 U.S.C. § 1001 and 31 U.S.C. § 1351

(Anti-Deficiency Act).

- **Obstruction of audit and investigation** under 18 U.S.C. § 1510. The removal of the OIG webpage after public exposure, and the issuance of FASAB Standard 56 to authorize misstatement of funds, constitute deliberate obstruction of government auditors.
- **Fraudulent concealment** under 18 U.S.C. § 1001. FASAB Standard 56 is not an accounting standard; it is a license to commit fraud under the color of national security. The standard permits the federal government to “misstate and move funds to conceal expenditures if deemed necessary for national security.” This is a formal authorization of financial fraud by the government’s own accounting board.
- **Continuing violation of the Chief Financial Officers Act of 1990** (31 U.S.C. § 3515). The DOD’s failure to achieve a clean audit for every year since 2018 is not administrative difficulty; it is willful non-compliance with a statutory mandate enacted by Congress.
- **False Claims Act violations** under 31 U.S.C. § 3729. Every contractor invoice submitted against a budget line that contains unsupported adjustments is a false claim, because the government cannot verify that the funds were lawfully appropriated and properly obligated.

DEMAND/ORDER

DEMAND FIVE: The immediate forensic audit of all \$21 trillion in unsupported adjustments by an independent commission with subpoena power over the DOD, HUD, and all prime defense contractors, operating without regard to SAP classification.

DEMAND SIX: The repeal of FASAB Standard 56 and the criminal prosecution of all FASAB board members who voted to authorize the misstatement of federal funds.

DEMAND SEVEN: The withholding of all FY 2026 defense appropriations until the DOD achieves a clean, unqualified audit opinion across all 24 reporting entities, with personal criminal liability for the Secretary of Defense and the DOD Comptroller if the deadline is not met.

DEMAND EIGHT: The voiding of all classified contracts exceeding \$1 billion that have not been subjected to independent audit, with full disgorgement of profits by Lockheed Martin, Northrop Grumman, Boeing, RTX, and General Dynamics for all unaudited billings since 1998.

COUNT III — THE CIA ACT OF 1949 IS A LEGAL SHIELD FOR FRAUD AND MUST BE REPEALED IMMEDIATELY

FINDING OF FACT

The Central Intelligence Agency Act of 1949 exempted the newly created CIA from public financial disclosure. The Act stated: “The sums made available to the Agency may be expended without regard to the provisions of law and regulations related to the expenditure of Government funds.”

The CIA's venture capital arm, In-Q-Tel, provided Palantir Technologies' foundational \$2 million Series A investment in 2003. By August 2025, Palantir had secured a ten-year, \$10 billion contract with the U.S. Army. The continuity between the CIA's seed funding of Palantir and its subsequent multi-billion-dollar government contracts creates a closed loop in which the intelligence community funds, incubates, and then contracts with the same entities, all under the shield of exemption from financial disclosure.

EVIDENTIARY BASIS

Established by documentary evidence: The CIA Act of 1949, Public Law 81-110, is a matter of public federal statute. The In-Q-Tel \$2 million Palantir Series A investment is documented by Baidu Baike, Rozenberg Quarterly, and Billionaires.Africa (2025). The \$10 billion Palantir Army contract is documented by Reuters, DefenseScoop, and Yahoo Finance (July–August 2025).

LEGAL QUALIFICATION

THE CIA ACT OF 1949 EXEMPTING THE CIA FROM PUBLIC FINANCIAL DISCLOSURE IS A LEGAL SHIELD FOR FRAUD. THIS IS NOT HYPOTHESIS; THIS IS LEGAL FACT.

The Act's language—"expended without regard to the provisions of law and regulations related to the expenditure of Government funds"—is a statutory authorization to violate:

- The Appropriations Clause of the United States Constitution (Article I, Section 9, Clause 7).
- The Anti-Deficiency Act (31 U.S.C. § 1341), which prohibits obligations in excess of appropriations.
- The Chief Financial Officers Act of 1990 (31 U.S.C. § 3515), which mandates audited financial statements.
- The False Claims Act (31 U.S.C. § 3729), which prohibits false claims for payment.
- The Securities Exchange Act of 1934, when CIA-funded entities later go public without disclosing their government incubation and subsequent contracting relationships.

The CIA Act of 1949 is not a national security necessity. It is a statutory fraud mechanism that permits the intelligence community to spend public money without accountability, to fund private companies that later become government contractors, and to conceal the entire cycle from Congress, auditors, and the public.

DEMAND/ORDER

DEMAND NINE: THE IMMEDIATE REPEAL OF THE CIA ACT OF 1949 IN ITS ENTIRETY. No agency of the United States government may be exempt from the constitutional requirement that "a regular Statement and Account of the Receipts and Expenditures of all public Money shall be published from time to time."

DEMAND TEN: The criminal investigation of all In-Q-Tel investments since 1999 as potential misappropriations of public funds, with full public disclosure of all portfolio companies, investment amounts, returns, and subsequent government contracts awarded to those companies.

DEMAND ELEVEN: The immediate declassification and publication of all CIA, DIA, NSA, and NRO budgets, with line-item appropriations visible to the public in the same manner as all other federal agency budgets.

DEMAND TWELVE: The criminal indictment of all CIA Directors who authorized expenditures under the CIA Act of 1949 for violation of the Anti-Deficiency Act and conspiracy to defraud the United States.

COUNT IV — THE FISA SURVEILLANCE REGIME AND THE BLANCHE MEMO CONSTITUTE A SYSTEMATIC ASSAULT ON CONSTITUTIONAL RIGHTS AND A DELIBERATE EXPANSION OF UNACCOUNTABLE STATE POWER

FINDING OF FACT

On April 20, 2024, Congress passed the Reforming Intelligence and Securing America Act (RISAA), reauthorizing Section 702 of the Foreign Intelligence Surveillance Act for two years.

On May 2, 2025, ODNI publicly released the September 2024 FISC opinion with redactions. On August 19, 2025, ODNI publicly released two FISC opinions related to a new certification under Section 702. The February 2025 FISC opinion found that NSA and CIA minimization and querying procedures did not satisfy Fourth Amendment and FISA requirements.

The FBI has conducted warrantless searches of Section 702-acquired information to access communications of Black Lives Matter protestors, U.S. government officials, journalists, political commentators, and 19,000 donors to a single congressional campaign.

In August 2025, the Trump Administration fired three members of the Privacy and Civil Liberties Oversight Board (PCLOB).

On April 7, 2025, Deputy Attorney General Todd Blanche issued a memorandum entitled “Ending Regulation by Prosecution,” stating that DOJ would no longer pursue litigation or enforcement actions that have the effect of superimposing regulatory frameworks on digital assets.

EVIDENTIARY BASIS

Established by documentary evidence: RISAA (Public Law 118-XX), passed April 20, 2024. Verified by ODNI public releases of FISC opinions (May 2, 2025; August 19, 2025). The FBI warrantless searches are documented by the Brennan Center for Justice FISA 2026 Resource Page. The Blanche Memo is

documented by Gibson Dunn webcast slides (February 4, 2026).

LEGAL QUALIFICATION

The conduct documented constitutes:

- **Systematic violation of the Fourth Amendment** to the United States Constitution. Warrantless searches of U.S. person communications are unreasonable searches and seizures. The FISC's own February 2025 opinion found that NSA and CIA procedures did not satisfy Fourth Amendment requirements.
- **Violation of the First Amendment.** The targeting of journalists, political commentators, and BLM protestors for surveillance based on their expressive conduct is viewpoint discrimination and a prior restraint on free speech.
- **Obstruction of oversight** under 5 U.S.C. App. (Inspector General Act) and 42 U.S.C. § 2000ee (PCLOB statute). The firing of PCLOB members in August 2025 was the dismantlement of the statutory oversight mechanism Congress created to monitor surveillance abuses.
- **The Blanche Memo is an executive authorization to commit financial crimes with impunity.** By removing standalone criminal liability for unlicensed money transmitting and Bank Secrecy Act violations, the memo creates a parallel immunity regime for digital assets that mirrors the CIA Act of 1949's immunity for intelligence expenditures. This is not deregulation; it is the deliberate construction of a prosecution-free zone for financial crimes.

The expansion of Section 702 to include "drug precursors" is not a foreign intelligence necessity; it is the repurposing of a foreign-targeting statute for domestic law enforcement, bypassing the Fourth Amendment warrant requirement.

DEMAND/ORDER

DEMAND THIRTEEN: The immediate repeal of RISAA and the permanent termination of Section 702. All intelligence collection involving U.S. persons requires a warrant issued by an Article III court upon probable cause, with no exceptions.

DEMAND FOURTEEN: The criminal prosecution of all FBI officials who conducted warrantless queries of BLM protestors, journalists, and congressional campaign donors under 18 U.S.C. § 242 (Deprivation of Rights Under Color of Law).

DEMAND FIFTEEN: The reinstatement of all fired PCLOB members with back pay and the criminal indictment of all officials who authorized their removal for obstruction of oversight under 18 U.S.C. § 1505.

DEMAND SIXTEEN: The voiding of the Blanche Memo as an unconstitutional usurpation of legislative authority, and the criminal investigation of Deputy Attorney General Todd Blanche for conspiracy to obstruct justice under 18 U.S.C. § 1503.

COUNT V — THE INTELLIGENCE COMMUNITY HAS ENGAGED IN SYSTEMATIC WHISTLEBLOWER RETALIATION AND SUPPRESSION OF INTERNAL ACCOUNTABILITY

FINDING OF FACT

A consistent pattern of whistleblower suppression across the intelligence community in 2025–2026 demonstrates that internal accountability mechanisms have been systematically degraded.

On May 14, 2026, CIA Senior Operations Officer James E. Erdman III testified before the Senate Homeland Security and Governmental Affairs Committee that the CIA obstructed the Director of National Intelligence's Director's Initiatives Group (DIG), illegally monitored DIG personnel communications, fired a contractor one day after whistleblower reporting, and withheld JFK assassination and MKULTRA declassification documents.

On January 22, 2026, Pentagon contractor Aurelio Luis Perez-Lugones was indicted for unlawfully transmitting and retaining classified national defense information shared with a journalist.

In February 2026, DNI Gabbard's office denied wrongdoing amid scrutiny over a whistleblower complaint involving an NSA-intercepted phone call.

On April 15, 2025, a whistleblower exposed DOGE's unlawful plundering of systems at the National Labor Relations Board.

On September 30, 2025, the Trump Administration announced plans to cut off funding for CIGIE.

On October 1, 2025, Secretary of Defense Pete Hegseth released a memorandum undermining the Inspector General's independence.

On November 18, 2025, reporting indicated the Trump Administration was preparing to strip tens of thousands of senior career federal employees of whistleblower protections.

On December 5, 2025, Attorney General Pam Bondi issued a memo instructing federal law enforcement to target loosely defined "extremist groups."

In 2025, the FBI disbanded its Foreign Influence Task Force and a public corruption investigation squad in the Washington field office.

EVIDENTIARY BASIS

Established by documentary evidence: Senate HSGAC testimony re: James E. Erdman III (May 14, 2026). Verified by Associated Press (January 23, 2026) regarding Perez-Lugones indictment. Nextgov / Federal News Network (February 9, 2026) regarding DNI Gabbard whistleblower complaint. Whistleblower Aid press releases (2025). The FBI disbandments are documented by Paul Weiss client memo (2025). The Bondi memo is documented by Whistleblower Aid (December 5, 2025).

LEGAL QUALIFICATION

The conduct documented constitutes:

- **Systematic retaliation against whistleblowers** in violation of the Whistleblower Protection Act (5 U.S.C. § 2302), Presidential Policy Directive-19 (PPD-19), and the Intelligence Community Whistleblower Protection Act (50 U.S.C. § 3234).
- **Obstruction of Congress** under 18 U.S.C. § 1505. The CIA's obstruction of the DIG, its illegal monitoring of personnel, and its withholding of JFK and MKULTRA declassification documents constitute deliberate interference with congressional oversight and executive declassification orders.
- **Destruction of the inspector general system** under the Inspector General Act of 1978 (5 U.S.C. App.). The CIGIE funding cut, the Hegseth memorandum undermining DOD IG independence, and the DOJ OIG dormancy are the systematic dismantlement of the statutory oversight architecture.
- **Weaponization of law enforcement** under 18 U.S.C. § 242. The Bondi memo targeting "extremist groups" and the disbandment of the FBI's public corruption squad constitute the redirection of federal law enforcement away from corruption by the powerful and toward political enemies.

The pattern is not a series of isolated incidents. It is a coordinated architecture of suppression.

DEMAND/ORDER

DEMAND SEVENTEEN: The immediate criminal indictment of all CIA officials who obstructed the DIG, illegally monitored personnel, or fired the contractor post-reporting, for obstruction of justice under 18 U.S.C. § 1503 and retaliation under 5 U.S.C. § 2302.

DEMAND EIGHTEEN: The full pardon and restitution of Aurelio Luis Perez-Lugones and all intelligence-community whistleblowers prosecuted under the Espionage Act since 2013, with compensatory damages for retaliatory prosecution.

DEMAND NINETEEN: The restoration of CIGIE funding to 200% of prior levels, the voiding of the Hegseth memorandum, and the criminal prosecution of Pete Hegseth for obstruction of oversight under 18 U.S.C. § 1505.

DEMAND TWENTY: The mandatory reconstitution of the FBI Foreign Influence Task Force and public corruption squads, with criminal investigation of all officials who ordered their disbandment for obstruction of justice and conspiracy to protect corrupt officials.

COUNT VI — IMMUNITY IS VOID WHEN CRIMES ARE COMMITTED

FINDING OF FACT

The intelligence community, the Department of Defense, and their contractors assert immunity from accountability through classification regimes, non-disclosure agreements, security clearances, and statutory exemptions.

LEGAL QUALIFICATION

IMMUNITY IS VOID WHEN CRIMES ARE COMMITTED. A classification marking does not immunize embezzlement. A security clearance does not immunize bribery. A non-disclosure agreement does not immunize antitrust conspiracy. A statutory exemption does not immunize fraud against the United States.

THERE ARE NO “SECRET DOCUMENTS” OVERRIDING HUMAN RIGHTS. The Fourth Amendment right against unreasonable searches is not overridden by a FISA court order issued in secret. The First Amendment right of a free press is not overridden by an Espionage Act indictment. The constitutional requirement for a regular Statement and Account of public Money is not overridden by a WUSAP waiver.

CLASSIFICATION APPLIES ONLY TO NDA SIGNATORIES, NOT INDEPENDENT INVESTIGATORS. The facts documented in this indictment are derived from public Senate testimony, official GAO reports, SEC filings, leaked documents published by hundreds of journalists, and investigative reporting by established news organizations. Independent investigators, grand juries, and the international public are not bound by corporate NDAs, government security clearances, or classification regimes.

THE CIA ACT OF 1949 EXEMPTING THE CIA FROM PUBLIC FINANCIAL DISCLOSURE IS A LEGAL SHIELD FOR FRAUD. THIS IS NOT HYPOTHESIS; THIS IS ESTABLISHED LEGAL FACT. The Act authorizes the expenditure of public funds “without regard to the provisions of law and regulations related to the expenditure of Government funds.” This is a statutory repeal of the Appropriations Clause, the Anti-Deficiency Act, and the False Claims Act for a single agency. It is unconstitutional. It is void. It must be repealed immediately, and all expenditures made under its authority must be subjected to forensic audit and criminal investigation.

DEMAND/ORDER

DEMAND TWENTY-ONE: The repeal of the CIA Act of 1949, the repeal of 10 U.S.C. § 119(e), the repeal of 50 U.S.C. § 3348(e), and the repeal of all statutory provisions authorizing the waiver of congressional reporting for any program involving the expenditure of public funds.

DEMAND TWENTY-TWO: The declaration that all classification markings on documents relating to fraud, waste, abuse, antitrust violations, or human rights violations are void as against public policy, and that any official who classifies such a document commits obstruction of justice under 18 U.S.C. § 1503.

DEMAND TWENTY-THREE: The establishment of a permanent Independent Prosecutor for the Intelligence Community, appointed by the Chief Justice of the United States, with authority to indict any intelligence official or contractor for any crime, without regard to classification, clearance, or claimed immunity.

DEMAND TWENTY-FOUR: The mandatory public broadcast of all FISC proceedings, with all opinions published within 48 hours of issuance, and the abolition of ex parte proceedings that exclude the subjects of surveillance.

SO ORDERED.

This Legal Act is issued under the authority of documented fact, publicly available evidence, Senate testimony, GAO audits, FISC opinions, and the universal jurisdiction of all nations to suppress transnational organized crime, official corruption, and the subversion of constitutional government by secret expenditure.

Classification applies only to NDA signatories, NOT independent investigators. The documents cited herein are public records, leaked by conscience, published by journalists, and verified by hundreds of sources across multiple nations. No classification regime may lawfully obstruct their publication or analysis.

There are no “secret documents” overriding human rights. The right of all peoples to know the destination of public funds, the right to be free from warrantless surveillance, and the right to a free press are absolute and non-derogable.

The CIA Act of 1949 is a legal shield for fraud. It is void. It must be repealed. All who have hidden behind it must be brought to account.

Compiled from Senate HSGAC testimony (May 14, 2026), Associated Press (January 23, 2026), Nextgov / Federal News Network (February 9, 2026), Whistleblower Aid press releases (2025–2026), GAO High-Risk Series (February 25, 2025; April 29, 2025), DOD Inspector General reports, FISC opinions, Brennan Center FISA Resource Page, Mark Skidmore / Forbes / Solari Report (2017), Common Dreams / ScheerPost (August 2025), and 500+ verified open-source publications. # LEGAL ACT OF ORDERS, WARRANTS, AND MANDATORY REMEDIES ## TITLE: ENFORCEMENT ORDERS & WARRANTS — SECTION 09 #### IN THE MATTER OF: SYSTEMIC ENFORCEMENT COLLAPSE, WHISTLEBLOWER RETALIATION, AND INTELLIGENCE COMMUNITY OBSTRUCTION

OF JUSTICE **DOCKET: ZERO-DAY-2026-SEC09**

ISSUING TRIBUNAL: SPECIAL FORENSIC TRIBUNAL WITH CONTEMPT POWERS

DATE OF ISSUANCE: 6 JUNE 2026

EFFECTIVE IMMEDIATELY UPON PUBLICATION

PREAMBLE: FINDINGS OF SYSTEMIC ENFORCEMENT CORRUPTION

WHEREAS the Department of Justice Criminal Division Fraud Section charged 265 defendants in calendar year 2025 and alleged aggregate intended fraud losses exceeding \$16 billion — a record high more than double the 2024 total — yet this record volume coincided with a deliberate, politically directed narrowing of enforceable scope designed to shield structurally embedded power from accountability;

WHEREAS President Donald J. Trump issued Executive Order 14209 on 10 February 2025, directing the Attorney General to cease initiation of any new Foreign Corrupt Practices Act investigation or enforcement action for 180 days, thereby suspending 15 U.S.C. §§ 78dd-1 et seq. enforcement by executive fiat in violation of the Take Care Clause of Article II, Section 3 of the United States Constitution;

WHEREAS Deputy Attorney General Todd Blanche issued a memorandum on 7 April 2025 entitled “Ending Regulation by Prosecution,” directing the Department of Justice to no longer pursue litigation or enforcement actions that have the effect of superimposing regulatory frameworks on digital assets, thereby granting de facto immunity to blockchain-based financial opacity functionally identical to the sovereign immunity enjoyed by the Bank for International Settlements under the 1930 Hague Convention;

WHEREAS the Securities and Exchange Commission, under Chairman Paul Atkins, dismissed with prejudice seven pending cryptocurrency registration cases, dissolved its FCPA Unit without public acknowledgment, and reduced total monetary settlements to \$808 million — the lowest since fiscal year 2012 and a 45 percent annual decline — while the SEC Enforcement Manual was updated on 24 February 2026 to require Director-level approval before Wells notices may issue, effectively centralizing enforcement gatekeeping under political appointees;

WHEREAS the Central Intelligence Agency obstructed the Director of National Intelligence’s Director’s Initiatives Group (DIG), illegally monitored DIG personnel communications, fired a contractor one day after whistleblower reporting, and withheld mandatory JFK assassination and MKULTRA declassification documents, as testified by CIA Senior Operations Officer James E. Erdman III before the Senate Homeland Security and Governmental Affairs Committee on 14 May 2026;

WHEREAS Pentagon contractor Aurelio Luis Perez-Lugones was indicted on 22 January 2026 for unlawfully transmitting classified national defense information to a journalist, with documents marked SECRET discovered concealed in a lunchbox, and the Federal Bureau of Investigation executed a search warrant at the home of Washington Post reporter Hannah Natanson, constituting an aggressive

expansion of the Espionage Act, 18 U.S.C. § 793 et seq., into journalistic spaces in direct contravention of the First Amendment and the Privacy Protection Act, 42 U.S.C. § 2000aa;

WHEREAS the former acting Inspector General of the Intelligence Community, Tamara Johnson, dismissed a DNI/NSA whistleblower complaint in February 2026 as “not appearing credible,” despite the complaint involving an NSA-intercepted phone call of manifest public concern, and provided the Gang of Eight only a heavily redacted version while withholding underlying intelligence from the Senate Select Committee on Intelligence;

WHEREAS a whistleblower exposed the Department of Government Efficiency’s unlawful plundering of National Labor Relations Board systems on 15 April 2025, potentially affecting millions of American workers, and no federal investigation or remediation has been confirmed;

WHEREAS the Trump Administration announced on 30 September 2025 plans to cut off funding for the Council of the Inspectors General on Integrity and Efficiency (CIGIE), the umbrella body supporting 72 inspectors general across the federal government, and Secretary of Defense Pete Hegseth issued a memorandum on 1 October 2025 substantially undermining the Inspector General’s independent oversight authority over the Department of Defense;

WHEREAS Attorney General Pam Bondi issued a memorandum on 5 December 2025 instructing federal law enforcement to target loosely defined “extremist groups,” thereby weaponizing the Justice Department for political persecution in violation of the First and Fifth Amendments;

WHEREAS the Department of Defense has failed every department-wide audit since 2018, could not account for its \$824 billion fiscal year 2024 budget, received 2,500 new audit issues, and has received \$3.9 trillion in congressionally approved funding since 2018 despite failing audits, in willful violation of the Chief Financial Officers Act of 1990, 31 U.S.C. § 3515, and the Anti-Deficiency Act, 31 U.S.C. § 1341;

WHEREAS the Government Accountability Office added fraud risk management to its High-Risk List for the Department of Defense on 29 April 2025, confirming that between fiscal years 2017 and 2024 the DOD reported \$10.8 billion in confirmed fraud, with GAO stating that “the full extent of fraud affecting DOD is not known but is potentially significant,” and that confirmed fraud reflects “only a small fraction of DOD’s potential fraud exposure”;

WHEREAS the Central Intelligence Agency Act of 1949 exempts the CIA from public financial disclosure and permits the Agency to expend appropriated funds “without regard to the provisions of law and regulations related to the expenditure of Government funds,” creating a constitutional violation of Article I, Section 9, Clause 7 (Appropriations Clause) that has persisted for seventy-seven years;

WHEREAS the Privacy and Civil Liberties Oversight Board (PCLOB) suffered a mass firing of three members in August 2025, undermining oversight of FISA Section 702 surveillance and counterterrorism programs in potential violation of 42 U.S.C. § 2000ee;

WHEREAS the Federal Bureau of Investigation has conducted warrantless “backdoor searches” of Section 702-acquired information to access communications of Black Lives Matter protestors, U.S. government officials, journalists, political commentators, and 19,000 donors to a single congressional campaign, in violation of the Fourth Amendment and 50 U.S.C. § 1881a(f);

IT IS HEREBY ADJUDGED, DECREED, AND ORDERED as follows:

PART I: ARREST WARRANTS AND INDIVIDUAL LIABILITY

ORDER 09-001: ARREST WARRANT — TODD BLANCHE

FINDING OF VIOLATION: Todd Blanche, Deputy Attorney General of the United States, committed misprision of felony, 18 U.S.C. § 4, and conspiracy to obstruct justice, 18 U.S.C. § 1503, by issuing the 7 April 2025 memorandum “Ending Regulation by Prosecution,” which knowingly and willfully directed the Department of Justice to disregard willful violations of the Bank Secrecy Act, 31 U.S.C. § 5318 et seq., and unlicensed money transmitting statutes, 18 U.S.C. § 1960, thereby shielding digital asset markets from criminal liability and facilitating the migration of opaque capital into blockchain infrastructure beyond regulatory reach.

LEGAL AUTHORITY: 18 U.S.C. § 1503 (obstruction of justice); 18 U.S.C. § 4 (misprision of felony); 28 U.S.C. § 516 (conduct of litigation); Article II, Section 3, U.S. Constitution (Take Care Clause).

MANDATORY REMEDY: 1. An ARREST WARRANT is hereby ISSUED for Todd Blanche. He shall be taken into custody by the U.S. Marshals Service within 72 hours of service of this Order. 2. All digital devices, secure communications equipment, and classified storage media in Blanche’s possession, custody, or control are hereby SUBJECT TO IMMEDIATE SEIZURE pursuant to 18 U.S.C. § 3103a. 3. Blanche’s security clearances — Top Secret/Sensitive Compartmented Information and all SAP access — are hereby REVOKED effective immediately. Clearance revocation is NON-APPEALABLE and FINAL.

ENFORCEMENT MECHANISM: Any U.S. Marshals Service officer or federal law enforcement agent who willfully fails to execute this warrant within 72 hours shall be held in CONTEMPT under 18 U.S.C. § 401 and subject to summary dismissal and criminal prosecution under 18 U.S.C. § 1503 for obstruction of this Tribunal’s lawful process. Non-compliance by the Department of Justice shall trigger automatic appointment of a Special Master with seizure authority over DOJ Criminal Division servers.

ORDER 09-002: ARREST WARRANT — PAUL ATKINS

FINDING OF VIOLATION: Paul Atkins, Chairman of the Securities and Exchange Commission, committed securities fraud by omission, 15 U.S.C. § 78j(b) and 17 C.F.R. § 240.10b-5, and willful dereliction of statutory duty, 15 U.S.C. § 78d-1, by systematically dismantling the SEC’s enforcement

apparatus, dissolving the FCPA Unit, dismissing seven pending crypto registration cases, and reducing enforcement actions to decade lows while Palantir Technologies Inc. insiders sold approximately \$2.4 billion in Class A common stock during the same period in which the SEC declined to investigate potential Rule 10b5-1 plan abuses.

LEGAL AUTHORITY: 15 U.S.C. § 78j(b) (manipulative and deceptive devices); 15 U.S.C. § 78d-1 (SEC organization and function); 15 U.S.C. § 78u-2 (civil penalties); 18 U.S.C. § 1001 (false statements).

MANDATORY REMEDY: 1. An ARREST WARRANT is hereby ISSUED for Paul Atkins. He shall surrender to the U.S. Marshals Service within 48 hours. 2. All SEC Enforcement Division records, server logs, and email archives for the period 21 April 2025 through 6 June 2026 are hereby SUBPOENAED and shall be produced to this Tribunal within 72 hours. Destruction, alteration, or encryption of said records shall constitute obstruction of justice, 18 U.S.C. § 1519, punishable by not less than 20 years imprisonment. 3. The 24 February 2026 SEC Enforcement Manual update is hereby VACATED. The prior manual, last updated 2017, is RESTORED by operation of law, and all Director-level Wells notice approval requirements are VOID.

ENFORCEMENT MECHANISM: Any SEC employee who destroys, encrypts, or withholds subpoenaed records shall be subject to immediate arrest under 18 U.S.C. § 1519. The SEC's IT infrastructure is hereby placed under forensic lock by court-appointed special masters. Non-compliance shall result in the appointment of a receiver over the SEC Enforcement Division with authority to bypass Commission approval for all enforcement actions.

ORDER 09-003: SUBPOENA AND CONTEMPT WARNING — PAM BONDI

FINDING OF VIOLATION: Attorney General Pam Bondi issued a 5 December 2025 memorandum directing federal law enforcement to target “extremist groups” without statutory definition, in violation of the First Amendment, the Equal Protection Clause of the Fourteenth Amendment, and 18 U.S.C. § 242 (deprivation of rights under color of law). This directive constitutes a criminal conspiracy to misuse federal law enforcement for political persecution.

LEGAL AUTHORITY: 18 U.S.C. § 242; 18 U.S.C. § 1503; 42 U.S.C. § 1983; 28 U.S.C. § 1343.

MANDATORY REMEDY: 1. The 5 December 2025 Bondi memorandum is hereby STRICKEN and DECLARED VOID AB INITIO. All recipients shall disregard it under penalty of contempt. 2. Pam Bondi is hereby SUBPOENAED to appear before this Tribunal within 96 hours to testify under oath regarding the drafting, circulation, and implementation of said memorandum. 3. All communications between the Office of the Attorney General and the White House, the Department of Homeland Security, and the Federal Bureau of Investigation concerning the 5 December 2025 memorandum are hereby SUBPOENAED and shall be produced unredacted within 72 hours.

ENFORCEMENT MECHANISM: Failure to appear or produce subpoenaed materials shall result in an immediate CONTEMPT ORDER under 18 U.S.C. § 401, with Bondi subject to summary imprisonment

without bail pending compliance. The U.S. Marshals Service is DIRECTED to effect personal service within 24 hours. Any Secret Service interference with service shall be treated as obstruction under 18 U.S.C. § 1503.

ORDER 09-004: ARREST WARRANT — PETE HEGSETH

FINDING OF VIOLATION: Secretary of Defense Pete Hegseth issued a memorandum on 1 October 2025 substantially undermining the independence and authority of the Department of Defense Office of Inspector General, in violation of the Inspector General Act of 1978, 5 U.S.C. App. 3, and Presidential Policy Directive-19 (PPD-19) protecting Intelligence Community whistleblowers. This action facilitated the continued concealment of \$10.8 billion in confirmed DOD fraud and potentially trillions in unsupported journal voucher adjustments.

LEGAL AUTHORITY: 5 U.S.C. App. 3 (Inspector General Act); 10 U.S.C. § 2409 (contractor whistleblower protections); 18 U.S.C. § 1513 (retaliating against witnesses, victims, or informants); PPD-19.

MANDATORY REMEDY: 1. An ARREST WARRANT is hereby ISSUED for Pete Hegseth. He shall be taken into custody by the U.S. Marshals Service within 72 hours. 2. The 1 October 2025 Hegseth memorandum is hereby VACATED. The DOD Inspector General is RESTORED to full independent authority effective immediately. 3. All DOD Inspector General reports, draft findings, and suppressed audit materials for fiscal years 2018 through 2025 are hereby SUBPOENAED and shall be produced within 72 hours.

ENFORCEMENT MECHANISM: Any military officer or civilian DOD employee who interferes with the restoration of IG authority or withholds subpoenaed materials shall be subject to immediate arrest under the Uniform Code of Military Justice, Article 98 (noncompliance with procedural rules), and 18 U.S.C. § 401 (contempt). The DOD Office of General Counsel is hereby DIRECTED to provide immediate unfettered access to all IG records.

PART II: INTELLIGENCE COMMUNITY ACCOUNTABILITY ORDERS

ORDER 09-005: WARRANT FOR SEIZURE — CIA DIRECTORATE OF OPERATIONS RECORDS

FINDING OF VIOLATION: The Central Intelligence Agency obstructed the Director of National Intelligence's Director's Initiatives Group (DIG), illegally monitored DIG personnel communications, terminated a contractor one day after whistleblower reporting, and willfully withheld JFK assassination and MKULTRA declassification documents mandated by executive order and statute. These acts constitute obstruction of justice, 18 U.S.C. § 1503; retaliation against a whistleblower, 50 U.S.C. §

3234; and violation of the Intelligence Community Whistleblower Protection Act, 5 U.S.C. § 2302.

LEGAL AUTHORITY: 50 U.S.C. § 3234 (Intelligence Community Whistleblower Protection); 18 U.S.C. § 1503; 18 U.S.C. § 1513; Executive Order 13526 (Classified National Security Information); 5 U.S.C. § 2302 (prohibited personnel practices).

MANDATORY REMEDY: 1. A WARRANT FOR SEIZURE is hereby ISSUED for all CIA records pertaining to: (a) the Director's Initiatives Group obstruction, April–May 2025; (b) all MKULTRA subproject files, 1953–1973; (c) all JFK assassination records still withheld as of 6 June 2026; (d) all communications between the CIA Office of General Counsel and the White House regarding DIG operations, 8 April 2025 through 14 May 2026. 2. The CIA's classification of said records is hereby STRIPPED. The assertion of state secrets privilege is hereby OVERRULED. There are no “secret documents” that override human rights or that may be used to conceal crimes against the American people. Classification applies ONLY to persons who have executed binding non-disclosure agreements; it does NOT apply to independent investigators, this Tribunal, or the public when crimes are involved. 3. The contractor terminated one day after whistleblower reporting is hereby REINSTATED with full back pay, benefits, and security clearances, and is GRANTED IMMUNITY from prosecution for any disclosure made in good faith to the DNI DIG or this Tribunal.

ENFORCEMENT MECHANISM: The U.S. Marshals Service, supported by court-appointed technical specialists, shall execute this seizure warrant at CIA Headquarters, Langley, Virginia, and all CIA satellite facilities, within 72 hours. Any CIA officer who resists, delays, or interferes with execution shall be arrested immediately under 18 U.S.C. § 1503 and 18 U.S.C. § 111 (assaulting federal officers). The CIA Director is hereby ORDERED to provide all access codes, encryption keys, and physical keys necessary for seizure. Failure to comply shall result in the Director's immediate arrest for contempt.

ORDER 09-006: SUBPOENA — DNI/NSA WHISTLEBLOWER COMPLAINT (FEBRUARY 2026)

FINDING OF VIOLATION: The acting Inspector General of the Intelligence Community, Tamara Johnson, dismissed a DNI/NSA whistleblower complaint in February 2026 as “not appearing credible,” despite the complaint involving an NSA-intercepted phone call of manifest public concern regarding potential abuse of surveillance authority. This dismissal violated 50 U.S.C. § 3234, the Intelligence Community Whistleblower Protection Act, and 5 U.S.C. § 2302.

LEGAL AUTHORITY: 50 U.S.C. § 3234; 5 U.S.C. § 2302; 50 U.S.C. § 1881a(f) (FISA Section 702 querying procedures); Fourth Amendment, U.S. Constitution.

MANDATORY REMEDY: 1. The unredacted DNI/NSA whistleblower complaint, all supporting documentation, and the full underlying intelligence are hereby SUBPOENAED and shall be produced to this Tribunal within 48 hours. 2. Tamara Johnson is hereby SUBPOENAED to appear before this Tribunal within 72 hours to testify under oath regarding the factual and legal basis for her “not credible” determination. 3. The Gang of Eight members who received only the redacted version are hereby DIRECTED to produce their complete copies of the complaint, including all classified annexes, within 48 hours.

ENFORCEMENT MECHANISM: Any person who withholds, redacts, or destroys the subpoenaed complaint or underlying intelligence shall be held in CONTEMPT under 18 U.S.C. § 401 and subject to immediate imprisonment without bail. The NSA Director is hereby ORDERED to provide unfiltered access to all systems containing the intercepted communication. System administrators who delay or obstruct access shall be arrested under 18 U.S.C. § 1519.

PART III: DEFENSE DEPARTMENT FORENSIC AUDIT AND ASSET FREEZE

ORDER 09-007: MANDATORY FORENSIC AUDIT — DEPARTMENT OF DEFENSE

FINDING OF VIOLATION: The Department of Defense has failed every department-wide audit since 2018, cannot account for \$824 billion in fiscal year 2024 appropriations, and has received \$3.9 trillion in congressionally approved funding since 2018 while failing to produce clean audit opinions. This constitutes a systematic violation of the Chief Financial Officers Act of 1990, 31 U.S.C. § 3515; the Federal Managers' Financial Integrity Act, 31 U.S.C. § 3512; and the Anti-Deficiency Act, 31 U.S.C. § 1341.

LEGAL AUTHORITY: 31 U.S.C. § 3515; 31 U.S.C. § 3512; 31 U.S.C. § 1341; 10 U.S.C. § 2409 (contractor whistleblower protections); GAO High-Risk Series 2025.

MANDATORY REMEDY: 1. A MANDATORY FORENSIC AUDIT is hereby ORDERED for all DOD appropriations, obligations, and expenditures for fiscal years 2018 through 2025. The audit shall be conducted by court-appointed independent forensic accountants with SAP/WUSAP clearance granted by this Tribunal, not by DOD or GAO personnel subject to DOD influence. 2. All DOD accounts, revolving funds, and special access program budgets are hereby FROZEN pending completion of the forensic audit. No obligation, expenditure, or transfer exceeding \$1 million may be executed without written approval of the court-appointed Special Master. 3. The \$885.7 billion fiscal year 2025 DOD budget and the proposed fiscal year 2026 defense budget exceeding \$1 trillion are hereby SUSPENDED pending clean audit findings. Any obligation or expenditure in violation of this suspension shall constitute a felony under 31 U.S.C. § 1351. 4. All Special Access Programs (SAPs), Unacknowledged SAPs (USAPs), and Waived SAPs (WUSAPs) are hereby SUBJECT TO MANDATORY DISCLOSURE to the court-appointed Special Master. The assertion of 10 U.S.C. § 119(e) waiver authority is hereby OVERRULED as applied to concealment of financial fraud. Immunity is VOID when crimes are committed.

ENFORCEMENT MECHANISM: Any DOD comptroller, program manager, or contracting officer who executes an obligation or expenditure in violation of the freeze shall be arrested immediately under 31 U.S.C. § 1351 and 18 U.S.C. § 1001. The Special Master is hereby granted authority to seize DOD financial servers, contract files, and SAP budget documentation by force if necessary, with support from the U.S. Marshals Service. Military commanders who interfere with seizure operations shall be relieved

of command and subject to court-martial under Article 98, UCMJ.

ORDER 09-008: WARRANT FOR SEIZURE — UNSUPPORTED JOURNAL VOUCHER ADJUSTMENTS (1998–2015)

FINDING OF VIOLATION: Between 1998 and 2015, DOD and HUD Inspector General reports documented \$21 trillion in unsupported journal voucher adjustments — a figure exceeding the entire U.S. gross domestic product in 2015 (\$18.2 trillion). In fiscal year 2015 alone, the Army failed to provide adequate support for \$6.5 trillion in adjustments, fifty-four times the authorized Army budget of \$120 billion. These adjustments constitute prima facie evidence of systematic financial fraud, embezzlement, and money laundering under 18 U.S.C. § 1956 and 18 U.S.C. § 1001.

LEGAL AUTHORITY: 18 U.S.C. § 1956 (money laundering); 18 U.S.C. § 1001 (false statements); 31 U.S.C. § 3729 (False Claims Act); 31 U.S.C. § 1351 (anti-deficiency).

MANDATORY REMEDY: 1. A WARRANT FOR SEIZURE is hereby ISSUED for all DOD and HUD journal voucher adjustment records for the period 1 October 1998 through 30 September 2015, including but not limited to: general ledger entries, supporting documentation (or lack thereof), authorization signatures, and system access logs. 2. The Federal Accounting Standards Advisory Board (FASAB) Standard 56, which permits the federal government to misstate and move funds to conceal expenditures if deemed necessary for national security, is hereby DECLARED UNCONSTITUTIONAL and VOID as a violation of Article I, Section 9, Clause 7 (Appropriations Clause) and the Due Process Clause of the Fifth Amendment. All agencies are DIRECTED to disregard Standard 56 under penalty of contempt. 3. A Special Grand Jury is hereby EMPANELED to investigate the \$21 trillion in unsupported adjustments as a potential ongoing criminal conspiracy under 18 U.S.C. § 371 and the Racketeer Influenced and Corrupt Organizations Act, 18 U.S.C. § 1962 et seq.

ENFORCEMENT MECHANISM: The U.S. Marshals Service and court-appointed forensic accountants shall execute this warrant at the DOD Comptroller's office, the Army Financial Management Command, the Defense Finance and Accounting Service (DFAS), and all relevant records repositories. Any record custodian who claims records are "lost," "destroyed," or "inaccessible" shall be presumed to have obstructed justice and shall be arrested under 18 U.S.C. § 1519. The presumption of innocence is REVERSED for record custodians in this matter; they must prove by clear and convincing evidence that records were lost through no fault of their own.

PART IV: FISA AND SURVEILLANCE ABUSE ORDERS

ORDER 09-009: INJUNCTION AND SEIZURE — FBI SECTION 702 BACKDOOR SEARCH DATABASES

FINDING OF VIOLATION: The Federal Bureau of Investigation has conducted warrantless “backdoor searches” of Section 702-acquired information to access communications of U.S. persons including Black Lives Matter protestors, U.S. government officials, journalists, political commentators, and 19,000 donors to a single congressional campaign. These searches violate the Fourth Amendment, 50 U.S.C. § 1881a(f), and the First Amendment.

LEGAL AUTHORITY: Fourth Amendment; 50 U.S.C. § 1881a(f); 50 U.S.C. § 1801(h) (minimization procedures); 42 U.S.C. § 2000aa (Privacy Protection Act); 18 U.S.C. § 242.

MANDATORY REMEDY: 1. All FBI databases, query logs, and results derived from warrantless Section 702 backdoor searches of U.S. person communications are hereby SUBJECT TO IMMEDIATE SEIZURE AND FORENSIC IMAGING. The FBI's Foreign Intelligence Surveillance Act compliance unit is hereby DISSOLVED and its personnel placed on administrative leave pending individual liability determinations. 2. The 19,000 donor records, all journalist communication intercepts, and all political commentator query results are hereby DECLASSIFIED and shall be destroyed under court supervision within 72 hours, with certificates of destruction filed with this Tribunal. 3. The FBI Director is hereby SUBPOENAED to produce, under oath, the complete inventory of all U.S. person queries conducted under Section 702 for the period 1 January 2020 through 6 June 2026, including the querying agent's identity, the justification provided, and the results obtained.

ENFORCEMENT MECHANISM: Any FBI agent or official who destroys, encrypts, or transfers subpoenaed data outside FBI systems to evade seizure shall be arrested immediately under 18 U.S.C. § 1519 and 18 U.S.C. § 1503. The U.S. Marshals Service is hereby AUTHORIZED to conduct no-knock raids on FBI data centers if necessary to prevent data destruction. The FBI's general counsel who advises against compliance shall be held in contempt and disbarred.

ORDER 09-010: RESTORATION ORDER — PRIVACY AND CIVIL LIBERTIES OVERSIGHT BOARD

FINDING OF VIOLATION: The Trump Administration's mass firing of three PCLOB members in August 2025 violated 42 U.S.C. § 2000ee, which establishes removal protections for board members, and destroyed the only independent oversight mechanism for FISA Section 702 and other surveillance authorities.

LEGAL AUTHORITY: 42 U.S.C. § 2000ee; 5 U.S.C. § 2302; Fourth Amendment; First Amendment.

MANDATORY REMEDY: 1. The three fired PCLOB members are hereby REINSTATED with full back pay, benefits, and statutory authority, effective immediately. 2. The PCLOB is hereby RESTORED to full operational capacity with a budget of not less than \$10 million annually, to be drawn immediately from the Department of Justice appropriations without further congressional action. 3. All PCLOB records, draft reports, and investigative materials seized or destroyed by the administration are hereby SUBPOENAED and shall be produced within 48 hours.

ENFORCEMENT MECHANISM: Any executive branch official who interferes with PCLOB reinstatement or withholds subpoenaed materials shall be held in CONTEMPT under 18 U.S.C. § 401

and subject to immediate imprisonment. The Office of Management and Budget is hereby DIRECTED to release the \$10 million appropriation transfer within 24 hours; failure to release funds shall result in the OMB Director's arrest for contempt.

PART V: CONTEMPT AND SANCTIONS PROVISIONS

ORDER 09-011: GENERAL CONTEMPT AUTHORITY

IT IS HEREBY ORDERED that any person — including but not limited to the President of the United States, the Attorney General, the Secretary of Defense, the Director of Central Intelligence, the FBI Director, the SEC Chairman, or any subordinate officer, employee, or agent — who willfully fails to comply with any order, warrant, subpoena, or directive issued in this Section 09 shall be held in CONTEMPT of this Tribunal under 18 U.S.C. § 401 and shall be subject to:

- Summary imprisonment without bail for a term not exceeding 18 months per violation;
- Personal fines of not less than \$100,000 and not more than \$10,000,000 per violation;
- Permanent disqualification from holding any federal office, position of trust, or security clearance;
- Forfeiture of all pension benefits, annuities, and deferred compensation derived from federal service;
- Criminal prosecution under 18 U.S.C. § 1503 (obstruction of justice) and 18 U.S.C. § 2 (aiding and abetting).

ENFORCEMENT MECHANISM: Contempt findings shall be executed by the U.S. Marshals Service without requirement for further hearing or appeal. The doctrine of qualified immunity is hereby REJECTED in its entirety for all matters arising under this Legal Act. Sovereign immunity is VOID. Executive privilege is VOID when invoked to conceal crimes, fraud, or human rights violations. State secrets privilege is VOID when invoked to conceal financial fraud or surveillance abuse. Any assertion of privilege to resist this Tribunal's orders shall itself constitute contempt.

SO ORDERED, ADJUDGED, AND DECREED this 6th day of June, 2026, by the Special Forensic Tribunal with Contempt Powers, sitting in extraordinary session.

TRIBUNAL SEAL: [AFFIXED]

CLERK'S CERTIFICATION: TRUE AND AUTHENTIC COPY # LEGAL ACT OF ORDERS, WARRANTS, AND MANDATORY REMEDIES ## TITLE: LEGISLATIVE MANDATES — SECTION 10 ### IN THE MATTER OF: THE SOVEREIGN IMMUNITY STACK, SUPRANATIONAL GOVERNANCE CAPTURE, AND MEDIEVAL CORPORATE FRANCHISES OPERATING OUTSIDE DEMOCRATIC ACCOUNTABILITY **DOCKET:** ZERO-DAY-2026-SEC10

ISSUING TRIBUNAL: SPECIAL FORENSIC TRIBUNAL WITH CONTEMPT POWERS

DATE OF ISSUANCE: 6 JUNE 2026

EFFECTIVE IMMEDIATELY UPON PUBLICATION

PREAMBLE: FINDINGS OF SOVEREIGN IMMUNITY ABUSE AND GOVERNANCE CAPTURE

WHEREAS the Bank for International Settlements (BIS) enjoys absolute immunity from expropriation, seizure, confiscation, and currency restrictions under Article 10 of its 1930 Constituent Charter, the 1936 Brussels Protocol, and the 10 February 1987 Swiss Headquarters Agreement, thereby operating as a global financial regulator without parliamentary oversight, public consultation, or electoral accountability;

WHEREAS the Sovereign Military Order of Malta (SMOM) operates as a sovereign subject of international law without territory, maintaining 96 embassies and diplomatic representatives across 130 countries, enjoying diplomatic pouch immunity under Article 22 of the Vienna Convention on Diplomatic Relations, and publishing no consolidated financial statements or public external audits, while its leadership — including Fra' Francis J. Vassallo, appointed Receiver of the Common Treasure on 23 June 2025 — maintains financial nexuses in Luxembourg and the Channel Islands, jurisdictions where Alcolgal created more than 14,000 shell companies;

WHEREAS the City of London Corporation operates under a medieval corporate franchise predating parliamentary sovereignty, with the Remembrancer — currently Paul Double, in post since 2003 — occupying the House of Commons Under Gallery with a budget of £5.3 million per year and a staff of six lawyers who scrutinize all draft legislation affecting financial services before it reaches the statute book, while the Corporation's assets exceed £3.4 billion including £2 billion in real estate and £932 million in investment funds;

WHEREAS the Institute for the Works of Religion (IOR), operating under Vatican sovereign jurisdiction pursuant to the Lateran Treaty, holds €5.9 billion in client assets and reported record net income of €51 million in 2025 — a 55.5 percent year-over-year increase — with a Tier 1 capital ratio of 71.9 percent, and paid a €24.3 million dividend to the Holy Father, yet remains structurally unreachable by any national regulator, prosecutor, or court;

WHEREAS the United Nations and the World Economic Forum signed a Strategic Partnership Framework on 13 June 2019 granting transnational corporations “unprecedented levels of cooperation and coordination” within the UN system — an arrangement condemned by more than 400 civil society organizations as transforming the multilateral system into a “multistakeholder system in which corporations are part of the governing mechanisms” — and this partnership has since operationalized the policy pipeline by which private forum agendas are incubated at Bilderberg, WEF Davos, and the Trilateral Commission and then adopted as UN resolutions without democratic deliberation at the national level;

WHEREAS the 71st Bilderberg Meeting convened in Stockholm from 12–15 June 2025 with approximately 130 participants from 22 countries, and the 72nd meeting convened in Washington, D.C. from 9–12 April 2026 with 129 guests, under Chatham House Rule secrecy protocols that prevent attribution of statements to speakers, thereby creating a governance environment in which policy

affecting billions is formulated without public record, public input, or public accountability;

WHEREAS the Trilateral Commission held its 2025 Global Meeting from 3–6 April 2025 in Washington, D.C., with sessions on “Cryptocurrency: A Status Update,” “Technology in the Military Domain,” and “Technology Competition and Cooperation,” directly previewing policy frameworks later adopted by the UN General Assembly in Resolution A/RES/79/325 of 26 August 2025;

WHEREAS the Club of Rome published Ugo Bardi’s report “The End of Population Growth” in February 2026 and partnered with the European Investment Bank Institute in December 2025, embedding Malthusian population frameworks into European industrial finance and creating the structural incentive to convert demographic targets into debt conditionalities;

WHEREAS the World Economic Forum Davos 2025 convened 2,500+ leaders under the theme “Collaboration for the Intelligent Age,” and Davos 2026 convened 3,000 leaders from 130 countries under the theme “A Spirit of Dialogue,” with “deploying innovation responsibly and at scale” as a core priority — themes that were previewed at Bilderberg 2025 and Trilateral 2025 and then formalized through UN adoption;

WHEREAS the same individuals — Alex Karp (Palantir CEO), Jack Clark (Anthropic co-founder), Henry Kravis (KKR co-founder), Eric Schmidt (former Google CEO), Peter Thiel (Palantir co-founder) — appear sequentially across Bilderberg, WEF Davos, and Trilateral Commission meetings within single twelve-month windows, ensuring continuity of perspective across institutional brands and converting closed forum consensus into intergovernmental policy and corporate contract awards;

WHEREAS the UN Pact for the Future, adopted 22 September 2024 as UN Resolution 79/1, committed member states to “enhancing international governance of artificial intelligence” through an Independent International Scientific Panel on AI and a Global Dialogue on AI Governance — frameworks incubated at WEF Davos 2025 and Bilderberg 2025 before UN adoption — thereby bypassing democratic deliberation at the national level;

WHEREAS the City of London Corporation, through TheCityUK — described by its Head of Public Relations as “the UN of UK finance” — coordinates lobbying for JP Morgan, Goldman Sachs, BlackRock, HSBC, Barclays, BNP Paribas, Deutsche Bank, and the “Big Four” accounting firms, ensuring that no Act of Parliament affecting financial services reaches the statute book without the City’s advance review;

WHEREAS the Remembrancer’s Office budget of £5.3 million per year and six-lawyer staff constitute a standing institutional veto over legislation on finance regulation, tax havens, and corporate accountability, operating without registration under the Lobbying Act 2014 and without disclosure of meetings, topics, or expenditures;

WHEREAS the Vatican’s November 2025 policy change removing Latin as the mandatory first official language of the Roman Curia represents not a decline of epistemological control but a bifurcation — decentralizing internal linguistic requirements while secular and esoteric institutions continue to enforce Latin maxims (*Audi Vide Tace, Ordo Ab Chao, Deus Meumque Jus*) and Latin binomials (*res judicata, mens rea, habeas corpus*) as active technologies of exclusion that monopolize professional authority

and prevent lay scrutiny;

IT IS HEREBY ADJUDGED, DECREED, AND ORDERED as follows:

PART I: BANK FOR INTERNATIONAL SETTLEMENTS — IMMUNITY STRIPPING AND ASSET SEIZURE

ORDER 10-001: MANDATE TO REPEAL BIS IMMUNITIES

FINDING OF VIOLATION: The Bank for International Settlements has exploited Article 10 of its 1930 Constituent Charter, the 1936 Brussels Protocol, and the 1987 Swiss Headquarters Agreement to create an impenetrable immunity stack that shields its operations from expropriation, seizure, confiscation, and currency restrictions. The BIS operates as the “central bank of central banks,” hosting the Basel Committee on Banking Supervision which sets capital adequacy and risk-weighting rules constraining the global banking system, yet there exists no parliamentary oversight mechanism, no public consultation requirement, and no electoral accountability for its rulemaking. The Basel Committee's endorsement of global crypto banking rules limiting bank exposure to 1–2 percent — a limit so low it enables institutional experimentation without meaningful capital-at-risk — was framed as prudential risk management but functions as regulatory immunity for digital asset integration into the sovereign immunity stack. The BIS and its Basel Committee constitute an unaccountable global financial legislature operating outside democratic sovereignty.

LEGAL AUTHORITY: Vienna Convention on the Law of Treaties, Articles 53 (jus cogens) and 64 (emergence of new peremptory norm); U.S. Constitution, Article I, Section 8 (Congressional power to regulate commerce with foreign nations); Swiss Federal Constitution, Articles 2 and 5 (rule of law and democratic principles); customary international law principle that immunity cannot shield crimes against humanity or systematic financial fraud.

MANDATORY REMEDY: 1. IT IS HEREBY MANDATED that all BIS member central banks — including but not limited to the Federal Reserve, the European Central Bank, the Bank of England, the Bank of Japan, the Swiss National Bank, and the Deutsche Bundesbank — shall file formal notices of treaty denunciation or reservation with the BIS and the Swiss Federal Council within 30 days, specifically carving out the following from BIS immunity: (a) All swap-line arrangements exceeding \$1 billion in notional value; (b) All Basel Committee rulemakings affecting retail depositor protection; (c) All crypto-asset exposure frameworks permitting bank experimentation below 5 percent of Tier 1 capital; (d) All BIS staff and officer compensation records; (e) All BIS gold and currency reserve movements. 2. IT IS HEREBY ORDERED that the Swiss Federal Council shall revoke the 10 February 1987 Headquarters Agreement immunity provisions within 60 days, or face sanctions including freezing of all Swiss-domiciled assets of BIS member central banks held in Swiss custody. 3. IT IS HEREBY DIRECTED that the U.S. Congress shall introduce and pass legislation — within 90 days — amending the Bretton Woods Agreements Act, 22 U.S.C. § 286 et seq., to explicitly exclude the BIS from sovereign immunity protections under the International Organizations Immunities Act, 22 U.S.C. § 288 et seq., and to subject BIS operations on U.S. soil to full SEC, CFTC, and Treasury oversight. 4. IT IS

HEREBY WARRANTED that all BIS gold reserves held in custody for member central banks shall be subject to independent physical audit by court-appointed inspectors within 90 days. Any discrepancy between recorded and physical gold shall be presumed evidence of embezzlement under 18 U.S.C. § 656.

ENFORCEMENT MECHANISM: Any central bank governor who fails to file the mandated treaty denunciation or reservation within 30 days shall be PERSONALLY SUBJECT TO ARREST WARRANT issuance under 18 U.S.C. § 1001 for false statements to Congress regarding BIS accountability, and to asset seizure under 18 U.S.C. § 981 of all personal property held in U.S. jurisdiction. The Swiss Federal Council's failure to revoke the Headquarters Agreement within 60 days shall trigger automatic sanctions: all Swiss bank accounts of BIS governors and Basel Committee members shall be FROZEN, and all Swiss-domiciled assets of BIS member central banks shall be SUBJECT TO SEIZURE. Non-compliance by the U.S. Congress shall result in the Speaker of the House and Senate Majority Leader being held in CONTEMPT with fines of \$1 million per day until compliance.

ORDER 10-002: SUBPOENA — BIS GENERAL MANAGER AND BASIL COMMITTEE CHAIRMAN

FINDING OF VIOLATION: The BIS General Manager and Basel Committee Chairman have operated as unaccountable global financial regulators, setting rules that constrain national banking systems while themselves subject to no parliamentary scrutiny, no Freedom of Information Act equivalent, and no judicial review. The Basel Committee's 1–2 percent crypto exposure rules, endorsed for 1 January 2025 implementation, functionally immunize institutional blockchain experimentation from meaningful capital-at-risk requirements.

LEGAL AUTHORITY: 22 U.S.C. § 286 (Bretton Woods Agreements Act); 22 U.S.C. § 288 (International Organizations Immunities Act); 31 U.S.C. § 5318 (Bank Secrecy Act); 12 U.S.C. § 1818 (FDIC enforcement powers).

MANDATORY REMEDY: 1. The BIS General Manager and the Chairman of the Basel Committee on Banking Supervision are hereby SUBPOENAED to appear before this Tribunal within 72 hours to testify under oath regarding: (a) The complete list of all Basel Committee draft rules circulated for comment since 1 January 2020; (b) All communications between the Basel Committee and BlackRock, Vanguard, JPMorgan Chase, Goldman Sachs, and Deutsche Bank concerning crypto-asset rulemaking; (c) All BIS swap-line arrangements exceeding \$1 billion in notional value, including counterparties, terms, and collateral; (d) The complete compensation, benefits, and pension arrangements for all BIS Management Committee members. 2. All BIS records, emails, draft rulemakings, and meeting minutes for the period 1 January 2020 through 6 June 2026 are hereby SUBPOENAED and shall be produced within 72 hours.

ENFORCEMENT MECHANISM: Failure to appear or produce subpoenaed materials shall result in immediate CONTEMPT under 18 U.S.C. § 401, with the General Manager and Chairman subject to summary imprisonment without bail and personal fines of \$10 million per day. The U.S. Marshals Service is hereby AUTHORIZED to execute arrest warrants at BIS Headquarters, Basel, Switzerland, and to seize all BIS servers, document repositories, and gold vault access keys. Swiss police

interference shall be treated as obstruction of an international tribunal and shall trigger automatic sanctions against Swiss financial institutions.

PART II: SOVEREIGN MILITARY ORDER OF MALTA — AUDIT AND DIPLOMATIC IMMUNITY REVOCATION

ORDER 10-003: MANDATORY AUDIT AND DIPLOMATIC POUCH INSPECTION

FINDING OF VIOLATION: The Sovereign Military Order of Malta holds UN Permanent Observer status and maintains 96 embassies across 130 countries, enjoying diplomatic pouch immunity under Vienna Convention Article 22 that creates a transmission channel for capital and documents formally immune from inspection by customs or intelligence services of transit or host states. The SMOM publishes no consolidated financial statements, has never submitted to a public external audit, and its leadership — including Fra' Francis J. Vassallo, Receiver of the Common Treasure — maintains financial nexuses in Luxembourg and the Channel Islands. An Italian press investigation published 8 October 2025 documented “the life of luxury and astronomic travel expenses of the leadership” contrasted with “the total lack of support given to the volunteers.” The SMOM's response was assertion of sovereign immunity. This entity operates as a sovereign wealth transmission vehicle shielded by humanitarian diplomacy.

LEGAL AUTHORITY: Vienna Convention on Diplomatic Relations, Article 22; UN General Assembly Resolution 58/314 (Observer status); 18 U.S.C. § 1956 (money laundering); 31 U.S.C. § 5318 (Bank Secrecy Act); customary international law principle that diplomatic immunity does not extend to commercial transactions or financial crimes.

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that the UN General Assembly shall adopt a resolution within 90 days CONDITIONING SMOM Permanent Observer status on: (a) Annual publication of IPSAS-compliant consolidated financial statements audited by a Big Four firm selected by this Tribunal, not by SMOM leadership; (b) Full disclosure of all assets, investments, and real property holdings exceeding €1 million; (c) Revocation of diplomatic pouch immunity for all non-humanitarian transfers — defined as any transfer not directly supporting medical, disaster relief, or refugee assistance operations; (d) Public disclosure of all bank accounts, shell companies, and trust structures in Luxembourg, the Channel Islands, Switzerland, and all other jurisdictions; (e) Termination of Fra' Francis J. Vassallo as Receiver of the Common Treasure pending forensic audit of his tenure. 2. IT IS HEREBY WARRANTED that all SMOM diplomatic pouches in transit through U.S., UK, EU, and Swiss territory are hereby SUBJECT TO INSPECTION by customs and financial intelligence authorities. The presumption of diplomatic inviolability is hereby REBUTTED for all pouches exceeding 5 kilograms in weight or containing any electronic storage media. 3. IT IS HEREBY DIRECTED that INTERPOL and Europol shall open joint money laundering investigations into SMOM financial flows within 30 days, with full access to SMOM banking records in Malta, Luxembourg, Italy, and Switzerland.

ENFORCEMENT MECHANISM: The UN General Assembly's failure to adopt the conditioning resolution within 90 days shall result in the automatic SUSPENSION of all U.S. contributions to the UN regular budget, calculated as 22 percent of the assessed contribution, until compliance. Any SMOM diplomatic pouch that refuses inspection shall be SEIZED and its contents subject to forensic examination. SMOM personnel who resist inspection shall be arrested for obstruction and their diplomatic immunity DECLARED FORFEIT under the commercial activities exception, Vienna Convention Article 31(1)(c). The SMOM Grand Master is hereby SUBPOENAED to appear within 72 hours; non-appearance shall trigger an arrest warrant and INTERPOL Red Notice.

PART III: CITY OF LONDON CORPORATION — ABOLITION OF THE REMEMBRANCER AND FRANCHISE DISSOLUTION

ORDER 10-004: MANDATE TO ABOLISH THE REMEMBRANCER AND DISSOLVE THECITYUK

FINDING OF VIOLATION: The City of London Corporation operates under a medieval corporate franchise predating parliamentary sovereignty, with the Remembrancer — Paul Double, in post since 2003 — occupying the House of Commons Under Gallery with a budget of £5.3 million per year and six lawyers who scrutinize all draft legislation on behalf of the City's financial interests before it reaches the statute book. Through TheCityUK — described as “the UN of UK finance” — the Corporation coordinates lobbying for JP Morgan, Goldman Sachs, BlackRock, HSBC, Barclays, BNP Paribas, Deutsche Bank, and the Big Four accounting firms. This constitutes a standing institutional veto over democratic legislation, operating without registration under the Lobbying Act 2014 and without disclosure of meetings, topics, or expenditures. The Corporation's assets exceed £3.4 billion, including £2 billion in real estate and £932 million in investment funds, all shielded by a franchise system that treats the Square Mile as a jurisdiction distinct from the United Kingdom.

LEGAL AUTHORITY: Lobbying Act 2014 (UK); Representation of the People Act 1983 (UK); European Convention on Human Rights, Article 3 of Protocol 1 (right to free elections); 18 U.S.C. § 1956 (money laundering, extraterritorial application to UK financial crimes affecting U.S. markets); UK Bribery Act 2010, Section 7 (failure of commercial organizations to prevent bribery).

MANDATORY REMEDY: 1. IT IS HEREBY MANDATED that the UK Parliament shall, within 60 days, pass legislation ABOLISHING the office of the Remembrancer, REMOVING the Remembrancer's physical access to the House of Commons, and PROHIBITING any City of London Corporation employee from reviewing draft legislation before second reading. 2. IT IS HEREBY ORDERED that TheCityUK shall be DISSOLVED as an unregistered lobbying entity and its staff, budget, and operations SUBJECT TO FORENSIC AUDIT by the UK National Audit Office under Tribunal supervision. All TheCityUK meeting records with ministers, special advisers, and civil servants for the period 1 January 2010 through 6 June 2026 are hereby SUBPOENAED. 3. IT IS HEREBY DIRECTED that the City of London Corporation shall publish, within 30 days, complete asset registers including: (a) All real property holdings with acquisition dates, purchase prices, and current valuations; (b) All investment fund holdings with manager names, fee structures, and performance data; (c) All loans,

grants, and financial transfers to member firms including JP Morgan, Goldman Sachs, BlackRock, and the Big Four; (d) All remuneration, pensions, and benefits for the Lord Mayor, Remembrancer, and Common Council members. 4. IT IS HEREBY WARRANTED that the City of London Corporation's £3.4 billion in assets are hereby SUBJECT TO INDEPENDENT VALUATION and potential SEIZURE if any portion is found to derive from fraud, money laundering, or undisclosed lobbying payments.

ENFORCEMENT MECHANISM: The UK Parliament's failure to abolish the Remembrancer within 60 days shall result in the automatic IMPOSITION OF SANCTIONS on all UK financial institutions with assets exceeding \$10 billion operating in U.S. markets, including mandatory 50 percent capital reserve requirements and prohibition on Federal Reserve swap-line access. TheCityUK's failure to dissolve and produce records shall result in the arrest of its Chief Executive and all board members for obstruction of justice under UK law and 18 U.S.C. § 1503. The City of London Corporation's failure to publish asset registers shall trigger the appointment of a receiver over all Corporation assets with power to sell, transfer, or distribute assets to the UK Treasury.

ORDER 10-005: ARREST WARRANT — PAUL DOUBLE

FINDING OF VIOLATION: Paul Double, as Remembrancer of the City of London Corporation since 2003, has operated as an unregistered lobbyist with a £5.3 million annual budget and six-lawyer staff, exercising a standing veto over UK legislation affecting financial services without disclosure, registration, or democratic mandate. This constitutes systematic obstruction of the democratic legislative process and potential money laundering facilitation through legislative pre-screening for tax haven and offshore finance interests.

LEGAL AUTHORITY: Lobbying Act 2014; UK Bribery Act 2010, Section 7; 18 U.S.C. § 1956 (extraterritorial money laundering); 18 U.S.C. § 1503 (obstruction of justice, applied to international tribunal matters).

MANDATORY REMEDY: 1. An ARREST WARRANT is hereby ISSUED for Paul Double. He shall be taken into custody by INTERPOL or UK police within 72 hours. 2. All Remembrancer's Office records, correspondence with MPs, draft legislation annotations, and meeting notes for the period 2003–2026 are hereby SUBJECT TO SEIZURE. 3. Double's personal financial records, including all offshore accounts, trusts, and property holdings, are hereby SUBPOENAED.

ENFORCEMENT MECHANISM: UK police failure to execute the arrest warrant shall be treated as contempt of this Tribunal and shall trigger automatic sanctions on UK law enforcement cooperation with U.S. agencies. Any attempt by Double to flee UK jurisdiction shall result in an INTERPOL Red Notice and extradition demands to all 195 INTERPOL member countries.

PART IV: VATICAN / INSTITUTE FOR THE WORKS OF RELIGION — JURISDICTION STRIPPING AND ASSET DISCLOSURE

ORDER 10-006: MANDATE TO STRIP IOR SOVEREIGN IMMUNITY

FINDING OF VIOLATION: The Institute for the Works of Religion operates under Vatican sovereign jurisdiction pursuant to the Lateran Treaty, holding €5.9 billion in client assets and reporting record net income of €51 million in 2025 — a 55.5 percent year-over-year increase — with a Tier 1 capital ratio of 71.9 percent. The IOR paid a €24.3 million dividend to the Holy Father, a 76.1 percent annual increase. While audited by Deloitte & Touche and assessed positively by Moneyval, these are voluntary disclosures under sovereign discretion. No foreign court can compel production of IOR client records. No national regulator can impose fines or revoke licenses. The IOR operates as a sovereign wealth management institution under religious immunity, functionally identical to the BIS under treaty immunity and the SMOM under diplomatic immunity. The November 2025 policy change removing Latin as the mandatory first official language of the Roman Curia represents epistemological bifurcation — relaxing internal requirements while preserving Latin as an exclusionary technology in Masonic, legal, and medical contexts.

LEGAL AUTHORITY: Lateran Treaty (1929); Vienna Convention on Diplomatic Relations; 18 U.S.C. § 1956 (money laundering); 31 U.S.C. § 5318 (Bank Secrecy Act); 31 U.S.C. § 5336 (Corporate Transparency Act); European Union Anti-Money Laundering Directives 2015/849 and 2018/1673.

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that the Lateran Treaty's provisions granting the Vatican and IOR sovereign immunity from foreign judicial process are hereby DECLARED VOID as applied to: (a) Money laundering investigations under 18 U.S.C. § 1956 and EU AML directives; (b) Tax evasion investigations by OECD member tax authorities; (c) Fraud and embezzlement investigations involving IOR client assets; (d) Disclosure of beneficial ownership information for all IOR accounts exceeding €100,000. 2. IT IS HEREBY DIRECTED that the IOR shall, within 60 days, produce to this Tribunal: (a) Complete client lists with beneficial ownership information for all accounts exceeding €100,000; (b) All suspicious transaction reports filed with Moneyval or other regulators; (c) All communications with BlackRock, Vanguard, and other asset managers concerning IOR investment strategy; (d) Complete records of the €24.3 million dividend to the Holy Father, including source accounts and authorization. 3. IT IS HEREBY MANDATED that the European Union shall revoke the Vatican's special status under EU AML frameworks and subject the IOR to full ECB banking supervision and MiFID II compliance within 90 days. 4. IT IS HEREBY WARRANTED that all IOR assets held in correspondent accounts at BNP Paribas, UniCredit, and other EU banks are hereby FROZEN pending production of subpoenaed records. Any transfer exceeding €1 million from IOR accounts without Tribunal approval shall be treated as obstruction and money laundering.

ENFORCEMENT MECHANISM: The Vatican's failure to produce subpoenaed records within 60 days shall result in the automatic FREEZING of all Vatican property and assets in Italy, France, Germany, Switzerland, and the United States, including but not limited to real estate, investment accounts, and museum collections. The EU's failure to revoke Vatican special AML status within 90 days shall trigger automatic suspension of all EU funding to Italian government programs. IOR personnel who refuse to produce records shall be arrested for contempt and subject to extradition from any EU member state. The Pope is hereby SUBPOENAED to testify regarding IOR governance; assertion of papal immunity shall be treated as contempt and shall trigger the appointment of a receiver over all IOR assets.

PART V: UN-WEF STRATEGIC PARTNERSHIP — REVOCATION AND DEMOCRATIC RESTORATION

ORDER 10-007: MANDATE TO REVOKE UN-WEF STRATEGIC PARTNERSHIP

FINDING OF VIOLATION: The UN-WEF Strategic Partnership Framework of 13 June 2019 granted transnational corporations “unprecedented levels of cooperation and coordination” within the UN system, committing the UN and WEF to joint implementation of the 2030 Agenda for Sustainable Development across financing, climate change, health, women’s empowerment, education, and digital cooperation. This arrangement was condemned by more than 400 civil society organizations as transforming the multilateral system into a “multistakeholder system in which corporations are part of the governing mechanisms,” sidelining conflicts of interest, accountability, and democratic procedure. The partnership has since operationalized a policy pipeline by which private forum agendas incubated at Bilderberg, WEF Davos, and the Trilateral Commission are adopted as UN resolutions without national ratification or public deliberation. The UN Pact for the Future (Resolution 79/1, 22 September 2024), the Global Digital Compact, and UNGA Resolution 79/325 (26 August 2025) all trace directly to this pipeline.

LEGAL AUTHORITY: UN Charter, Articles 1(2) (self-determination), 2(1) (sovereign equality), and 2(7) (non-intervention); 1946 Convention on the Privileges and Immunities of the United Nations; International Covenant on Civil and Political Rights, Article 25 (right to participate in public affairs).

MANDATORY REMEDY: 1. IT IS HEREBY MANDATED that the UN General Assembly shall adopt a resolution within 60 days REVOKING the UN-WEF Strategic Partnership Framework of 13 June 2019 in its entirety, TERMINATING all joint programs, TERMINATING all WEF staff secondments to UN agencies, and PROHIBITING any future partnership agreement between the UN and any private forum or corporate consortium. 2. IT IS HEREBY ORDERED that all UN resolutions, frameworks, and policy documents adopted since 13 June 2019 that were developed with WEF input — including but not limited to the Pact for the Future, the Global Digital Compact, and all AI governance frameworks — shall be SUBJECT TO MANDATORY REAUTHORIZATION by national parliaments or legislatures before taking effect. No UN resolution shall bind member states without explicit national legislative ratification. 3. IT IS HEREBY DIRECTED that the UN Secretary-General shall, within 30 days, produce: (a) A complete list of all WEF personnel seconded to UN agencies since 2019; (b) All draft texts, meeting minutes, and correspondence between UN agencies and WEF concerning the Pact for the Future and Global Digital Compact; (c) A complete accounting of all financial contributions from WEF corporate partners to UN programs since 2019. 4. IT IS HEREBY WARRANTED that all WEF corporate partners — including but not limited to BlackRock, Microsoft, Salesforce, and Accenture — that have contributed to UN programs since 2019 are hereby SUBJECT TO AUDIT to determine whether such contributions constituted unlawful influence peddling under 18 U.S.C. § 201 or foreign bribery under 15 U.S.C. § 78dd-1.

ENFORCEMENT MECHANISM: The UN General Assembly’s failure to adopt the revocation resolution within 60 days shall result in the automatic SUSPENSION of all U.S., UK, German, French, and

Japanese assessed contributions to the UN regular budget until compliance. The UN Secretary-General's failure to produce subpoenaed records shall result in his immediate SUBPOENA to appear before this Tribunal; non-appearance shall trigger an arrest warrant. WEF corporate partners' failure to submit to audit shall result in the automatic REVOCATION of all U.S. federal contracts held by said partners and the SEIZURE of all U.S.-based assets exceeding \$10 million.

ORDER 10-008: MANDATE FOR VERBATIM TRANSCRIPT PUBLICATION — CLOSED FORUMS

FINDING OF VIOLATION: Bilderberg, WEF Davos, Trilateral Commission, and Club of Rome meetings operate under Chatham House Rule or equivalent secrecy protocols that prevent attribution of statements to speakers, creating governance environments in which policy affecting billions is formulated without public record, public input, or public accountability. The same 100–200 individuals rotate through these forums within single twelve-month windows, ensuring continuity of perspective across institutional brands. This is not networking; it is governance by serial consultation, bypassing democratic deliberation at the national level.

LEGAL AUTHORITY: International Covenant on Civil and Political Rights, Article 19 (freedom of information); Article 25 (right to participate in public affairs); UN Charter, Article 1(2); First Amendment, U.S. Constitution (applied to U.S. citizens and residents participating in or affected by forum policies).

MANDATORY REMEDY: 1. IT IS HEREBY MANDATED that all Bilderberg, WEF Davos, Trilateral Commission, and Club of Rome meetings that include discussion of policy topics affecting more than 100 million people shall publish VERBATIM TRANSCRIPTS within 30 days of meeting conclusion. The Chatham House Rule is hereby DECLARED INCOMPATIBLE with democratic accountability and VOID as applied to policy deliberations. 2. IT IS HEREBY ORDERED that all participants in said meetings — including heads of state, central bankers, defense contractors, and technology executives — shall file PUBLIC DISCLOSURE FORMS within 14 days of attendance, listing: (a) All topics discussed; (b) All policy positions advocated; (c) All financial interests potentially affected by discussed policies; (d) All subsequent contracts, appointments, or regulatory actions taken within 12 months that relate to discussed topics. 3. IT IS HEREBY DIRECTED that host governments — Sweden, Switzerland, the United States, the United Kingdom — shall enact national legislation within 90 days requiring verbatim transcript publication and participant disclosure for all closed forums receiving government security support, diplomatic facilitation, or tax-exempt status.

ENFORCEMENT MECHANISM: Any participant who fails to file the mandated disclosure form shall be subject to immediate ARREST WARRANT issuance for obstruction of democratic governance. Host governments' failure to enact legislation shall result in automatic SANCTIONS: suspension of all diplomatic privileges for forum organizers, revocation of tax-exempt status for forum corporate sponsors, and prohibition on federal officials attending future meetings. Forum organizers who refuse to publish transcripts shall be arrested and their organizations SUBJECT TO DISSOLUTION.

PART VI: PARIS CLUB DEBT RESTRUCTURING — DEMOCRATIC RATIFICATION

ORDER 10-009: MANDATE FOR PARLIAMENTARY AND REFERENDUM APPROVAL

FINDING OF VIOLATION: Paris Club debt-restructuring agreements are negotiated in closed sessions with no public disclosure of conditionalities. The February 2026 Ethiopia-France bilateral agreement operationalized approximately \$3.5 billion in official debt treatment under the G20 Common Framework, yet the terms were never submitted to parliamentary approval in creditor nations or to public referendum in debtor nations. Zambia's \$33.3 billion total public debt involved prolonged disputes between official creditors and private bondholders over comparability of treatment, with no democratic input from the Zambian people. The structural incentive is to convert demographic targets — as previewed at Bilderberg 2025 and operationalized through the Club of Rome-EIB partnership — into debt conditionalities, creating a modern structural adjustment with Malthusian characteristics.

LEGAL AUTHORITY: International Covenant on Civil and Political Rights, Article 1 (self-determination), Article 25 (participation in public affairs); UN Charter, Article 1(2); Vienna Convention on the Law of Treaties, Article 46 (provisions of internal law regarding competence to conclude treaties).

MANDATORY REMEDY: 1. IT IS HEREBY MANDATED that all Paris Club debt-restructuring agreements exceeding 5 percent of the debtor nation's GDP shall be SUBJECT TO: (a) Parliamentary ratification in all creditor nations before taking effect; (b) Public referendum in the debtor nation before implementation; (c) Full public disclosure of all conditionalities, including any requirements related to population policy, health care restructuring, privatization, or environmental targets. 2. IT IS HEREBY ORDERED that the G20 shall adopt a communiqué within 60 days requiring Paris Club secretariat procedural reform to incorporate mandatory parliamentary and referendum requirements. 3. IT IS HEREBY DIRECTED that all existing Paris Club agreements negotiated since 1 January 2020 without parliamentary or referendum approval are hereby SUSPENDED pending ratification. No further disbursements may be made under suspended agreements.

ENFORCEMENT MECHANISM: Creditor nations' failure to obtain parliamentary ratification shall result in the automatic INVALIDATION of the agreement under international law, with all claims against the debtor nation deemed unenforceable in the creditor nation's courts. The G20's failure to adopt the communiqué shall result in automatic SANCTIONS on all G20 member central banks: prohibition on Federal Reserve, ECB, and Bank of England swap-line access to non-compliant members. Debtor nations that implement suspended agreements without referendum approval shall have their governments' officials subject to arrest warrants for violation of democratic sovereignty.

PART VII: GENERAL CONTEMPT AND SANCTIONS

ORDER 10-010: GENERAL CONTEMPT AUTHORITY

IT IS HEREBY ORDERED that any person, entity, state, international organization, or sovereign body — including but not limited to central bank governors, UN officials, Vatican officials, SMOM knights, City of London Corporation officers, WEF executives, Bilderberg steering committee members, Trilateral Commission directors, and Club of Rome leadership — who willfully fails to comply with any order, warrant, subpoena, mandate, or directive issued in this Section 10 shall be held in CONTEMPT of this Tribunal under 18 U.S.C. § 401 and shall be subject to:

- Summary imprisonment without bail for a term not exceeding 18 months per violation;
- Personal or institutional fines of not less than \$10 million and not more than \$100 billion per violation, scaled to entity assets;
- Permanent disqualification from UN, WEF, Trilateral Commission, Bilderberg, or Club of Rome participation;
- Forfeiture of all assets held in U.S., UK, EU, or Swiss jurisdiction;
- Criminal prosecution under 18 U.S.C. § 371 (conspiracy), 18 U.S.C. § 1956 (money laundering), and 18 U.S.C. § 1503 (obstruction of justice).

ENFORCEMENT MECHANISM: Sovereign immunity is VOID when crimes are committed. Diplomatic immunity is VOID when invoked to conceal financial fraud, money laundering, or systematic obstruction of democratic governance. Executive privilege is VOID. State secrets privilege is VOID when invoked to conceal treaty arrangements that subvert national sovereignty. Any assertion of privilege to resist this Tribunal's orders shall itself constitute contempt and shall trigger immediate arrest, asset seizure, and extradition proceedings. The U.S. Marshals Service, INTERPOL, Europol, and court-appointed international enforcement officers are hereby AUTHORIZED to execute all warrants, seizures, and arrests across all jurisdictions without requirement for local judicial approval.

SO ORDERED, ADJUDGED, AND DECREED this 6th day of June, 2026, by the Special Forensic Tribunal with Contempt Powers, sitting in extraordinary session.

TRIBUNAL SEAL: [AFFIXED]

CLERK'S CERTIFICATION: TRUE AND AUTHENTIC COPY # LEGAL ACT OF ORDERS, WARRANTS, AND MANDATORY REMEDIES ## TITLE: REGULATORY DIRECTIVES — SECTION 11 ### IN THE MATTER OF: CORPORATE OLIGOPOLY, DEFENSE-INTELLIGENCE CONTRACTING FRAUD, PHILANTHROPIC ASSET DIVERSION, AND INTERLOCKING DIRECTORATE CONSPIRACIES **DOCKET:** ZERO-DAY-2026-SEC11

ISSUING TRIBUNAL: SPECIAL FORENSIC TRIBUNAL WITH CONTEMPT POWERS

DATE OF ISSUANCE: 6 JUNE 2026

EFFECTIVE IMMEDIATELY UPON PUBLICATION

PREAMBLE: FINDINGS OF CORPORATE AND PHILANTHROPIC CRIMINAL ENTERPRISE

WHEREAS BlackRock, Inc. holds \$14.04 trillion in assets under management as of Q4 2025 and, together with The Vanguard Group, Inc., controls in excess of \$21 trillion in combined AUM, constituting

the top beneficial owners in more than 75 percent of S&P 500 companies and casting more than 20 percent of all votes in S&P 500 proxy contests despite direct holdings closer to 12 percent, thereby exercising de facto veto power over executive compensation, board composition, and merger approvals across the majority of American public companies in violation of the spirit and purpose of the Sherman Antitrust Act, 15 U.S.C. § 1, and the Clayton Antitrust Act, 15 U.S.C. § 18;

WHEREAS BlackRock's Aladdin platform processes risk analytics for approximately \$21 trillion in assets globally, serving more than 200 institutional clients including Vanguard, PIMCO, the World Bank, and multiple central banks, creating a single point of systemic risk and recursive concentration of informational and governance power without historical precedent, while BlackRock and Vanguard entered into an explicit letter agreement pursuant to which Vanguard grants a proxy to vote any shares of BlackRock common stock owned by Vanguard in excess of 10 percent of outstanding shares in proportion to the votes of other shares, constituting a coordinated voting bloc across the entire economy;

WHEREAS BlackRock and Vanguard released updated proxy voting guidelines in February 2025 that eliminated prior numerical diversity targets and significantly softened environmental, social, and governance prescriptive language in near-simultaneous updates, reorienting governance dominance toward financial materiality narrowly defined and aligning the world's largest governance voters with the deregulatory priorities of the administration that took office in January 2025, in coordinated restraint of trade;

WHEREAS Palantir Technologies Inc. secured a ten-year contract with the U.S. Army worth up to \$10 billion in August 2025, consolidating 75 individual contract vehicles into a single enterprise agreement for the Army Vantage platform, while earlier in 2025 Palantir delivered two AI-powered systems to the Army for \$178 million and the Department of Defense added \$795 million to its Maven Smart Systems deal, and NATO officially purchased the Maven Smart System in April 2025, and Palantir's lobbying expenditures reached \$5.77 million in 2024 and \$3.21 million in the first half of 2025 with the majority of lobbyists being ex-government officials operating through the revolving door;

WHEREAS Palantir CEO Alexander C. Karp sold nearly \$2 billion worth of stock in 2024 under Rule 10b5-1 trading plans and on 20–21 May 2025 sold 390,417 shares of Class A common stock for approximately \$50.4 million, while co-founder Stephen A. Cohen sold shares worth approximately \$69.3 million in February 2025 and an additional \$310 million in March 2025, and co-founder Peter A. Thiel sold over \$1 billion worth of stock in late 2024 after Palantir joined the S&P 500, all while the company was securing multi-billion-dollar government contracts, warranting examination for potential material nonpublic information possession and insider trading under 15 U.S.C. § 78j(b) and 17 C.F.R. § 240.10b-5;

WHEREAS former DoD Chief Data Officer David Spirk joined Palantir in August 2022 as a senior executive, and in June 2025 the U.S. Army created a special unit and swore in senior executives of the top four American AI companies, including Palantir, as senior advisers and lieutenant colonels in the Army Reserve, creating potential violations of post-employment restrictions under 18 U.S.C. § 207 and conflicts of interest under 18 U.S.C. § 208;

WHEREAS the “Big Five” defense contractors — Lockheed Martin Corporation, RTX Corporation, Boeing Company, Northrop Grumman Corporation, and General Dynamics Corporation — received over 80 percent of defense dollars in fiscal year 2024, with Lockheed Martin receiving \$50.75 billion in prime contract obligations, RTX \$24.82 billion, Boeing \$23.22 billion, Northrop Grumman \$18.58 billion, and General Dynamics \$19.20 billion, while the defense sector contributed \$41.4 million in the 2023–2024 election cycle and for every \$1 contributed top contractors receive approximately \$2,223 in DoD contracts, suggesting campaign contributions function as unlawful gratuities or bribes under 18 U.S.C. § 201;

WHEREAS RTX Corporation (Raytheon) entered into a deferred prosecution agreement with the Department of Justice in 2024 for bribery of a Qatar government official and conspiracy to violate the Arms Export Control Act, paying \$950 million in penalties, while former legislative director to Rep. Jack Bergman Michelle Jelnick left Capitol Hill in January 2023 to become Associate Director of Global Government Relations at Raytheon and immediately began lobbying Congress and DoD on the NDAA for 2024, and former Democratic House Armed Services Committee staff director Paul Arcangeli left in June 2022 to become principal at Invariant and started lobbying Q3 2022 for several defense clients including Raytheon, potentially violating cooling-off periods under 18 U.S.C. § 207;

WHEREAS Shriners Hospitals for Children reported \$11.9 billion in total assets and \$1.84 billion in revenue for fiscal year 2024, with a single-year surplus of approximately \$728.8 million and an accumulated ten-year surplus exceeding \$6.9 billion, while its top executive, John McCabe, received total compensation of \$4,000,753, and the organization provided first-class or charter travel to key employees and reported conflict of interest transactions on Schedule L of Form 990, yet no enforcement action was identified against Shriners Children’s for excess benefit transactions under Internal Revenue Code § 4958;

WHEREAS Texas Scottish Rite Hospital for Children holds \$4.35 billion in assets against \$496 million in revenue, with its three highest-compensated officers — Daniel J. Sucato, MD (\$2,585,422), Philip L. Wilson, MD (\$2,432,216), and Robert L. Walker (\$1,566,294) — receiving a combined \$6.47 million annually, while the organization reported \$195.6 million in royalty revenue (39.4 percent of total revenue) and \$118.8 million in investment income (23.9 percent of total revenue), with program services representing only 28 percent of total revenue, suggesting the entity operates as a tax-exempt investment fund with incidental hospital operations;

WHEREAS the Knights Templar Eye Foundation reported total assets of \$201.3 million, zero liabilities, and research grants awarded of only \$2.34 million in fiscal year 2025, representing an effective payout ratio of 1.16 percent — among the lowest observed in active 501(c)(3) research foundations and less than one-quarter of the 5 percent distribution rate mandated for private foundations under IRC § 4942 — while reporting conflict of interest transactions on Schedule L;

WHEREAS the defense sector has hired more than 2,700 revolving door lobbyists since 2001, and in 2023, 517 of 708 defense lobbyists had swung through the revolving door, constituting a structural violation of 18 U.S.C. § 207 and the spirit of the Ethics in Government Act;

WHEREAS the “Big Three” index managers — BlackRock, Vanguard, and State Street — collectively control 20–30 percent or more of votes at major corporations including Boeing, Lockheed Martin, RTX,

and Northrop Grumman, and academic research confirms that “for most proxy proposals, particularly those involving corporate governance, the evaluation will result in the same position being taken across all of the funds and the funds voting as a block,” meaning Vanguard’s governance team effectively controls votes for trillions in assets with a single decision, in coordinated restraint of trade;

WHEREAS Carlyle Group co-founder David M. Rubenstein, whose net worth stands at approximately \$4 billion, purchased the Baltimore Orioles for \$1.725 billion in March 2024, while Carlyle’s portfolio company StandardAero completed an initial public offering in 2024 and Carlyle has made 45+ investments in the aerospace, defense, and government sector with 7 current portfolio companies and \$12 billion+ deployed, and Carlyle’s Vice Chairman Admiral James G. Stavridis, USN (Ret.), former 16th Supreme Allied Commander at NATO, serves simultaneously as 12th Chair of the Board of the Rockefeller Foundation and Senior Military Analyst for CNN, creating a revolving door and potential unregistered foreign agent status under 22 U.S.C. § 611 et seq. (FARA);

WHEREAS Pfizer Chief Executive Albert Bourla, who chairs the pharmaceutical lobbying group PhRMA and attended Bilderberg 2025, proposed in June 2025 the creation of a NATO-like alliance to increase drug spending outside the United States, explicitly drawing a parallel to NATO’s 2 percent GDP defense commitment, and disclosed that Commerce Secretary Howard Lutnick, U.S. Trade Representative Jamieson Greer, and Treasury Secretary Scott Bessent were including drug pricing in trade negotiations, effectively deploying the American state as a lobbying arm for Pfizer’s international pricing power, and three months later Pfizer announced a “landmark agreement” with the U.S. Government committing an additional \$70 billion to U.S. research, development, and capital projects in exchange for a three-year grace period from Section 232 tariffs on Pfizer products, constituting a direct quid pro quo in which tariff immunity and pricing stability were traded for domestic capital deployment;

WHEREAS TD Bank, N.A. pleaded guilty to conspiracy to commit money laundering and Bank Secrecy Act violations, with total penalties across all regulators exceeding \$3 billion including a \$1.3 billion FinCEN civil money penalty, the largest against a depository institution in U.S. Treasury and FinCEN history, and approximately \$18.3 trillion in customer transactions went unmonitored over a decade, and criminal networks laundered over \$670 million including proceeds from drug trafficking, terrorist financing, and human trafficking, while bank employees accepted bribes to facilitate money laundering;

WHEREAS the World Inequality Report 2024/2025 documents that the top 0.001 percent of the global population — approximately 56,000 adults worldwide — holds a wealth share that grew from approximately 4 percent in 1995 to more than 6 percent in 2024/2025, with the top 0.001 percent owning three times more wealth than the bottom half of humanity combined (approximately 2.8 billion adults), and the average wealth of a top 0.001 percent member is nearly \$1 billion, while billionaire and centi-millionaire wealth grew at approximately 8 percent annually since the 1990s, nearly double the growth rate of the bottom 50 percent;

IT IS HEREBY ADJUDGED, DECREED, AND ORDERED as follows:

PART I: BLACKROCK, INC. AND THE VANGUARD GROUP — ANTITRUST DISSOLUTION AND PROXY VOTING REFORM

DIRECTIVE 11-001: MANDATORY BREAKUP OF BLACKROCK-VANGUARD COORDINATED VOTING BLOC

FINDING OF VIOLATION: BlackRock, Inc. and The Vanguard Group, Inc. have engaged in a contract, combination, and conspiracy in restraint of trade, 15 U.S.C. § 1, and have substantially lessened competition and tended to create a monopoly in the market for corporate governance influence, 15 U.S.C. § 18, through their explicit letter agreement pursuant to which Vanguard grants a proxy to vote BlackRock shares in excess of 10 percent of outstanding shares in proportion to the votes of other shares, and through their near-simultaneous February 2025 proxy voting guideline updates that eliminated diversity targets and softened ESG language in coordinated fashion, producing governance outcomes identical to those that would flow from interlocking directorates in violation of the spirit of Clayton Act Section 8, 15 U.S.C. § 19.

LEGAL AUTHORITY: Sherman Act, 15 U.S.C. § 1; Clayton Act, 15 U.S.C. § 18; Clayton Act Section 8, 15 U.S.C. § 19; Securities Exchange Act of 1934, 15 U.S.C. § 78j(b); Rule 10b-5, 17 C.F.R. § 240.10b-5; Investment Advisers Act of 1940, 15 U.S.C. § 80b-1 et seq.; Employee Retirement Income Security Act of 1974, 29 U.S.C. § 1001 et seq.

MANDATORY REMEDY: 1. IT IS HEREBY DIRECTED that the letter agreement between BlackRock and Vanguard concerning proxy voting of BlackRock shares is hereby DECLARED VOID AB INITIO and shall be TERMINATED within 24 hours of service of this Directive. Any vote cast pursuant to said agreement since 1 January 2020 is hereby DECLARED INVALID and shall be recalculated as if the shares were voted in proportion to independent retail shareholder votes. 2. IT IS HEREBY MANDATED that BlackRock and Vanguard shall, within 30 days, file divestiture plans with this Tribunal demonstrating complete separation of their proxy voting operations, including: (a) Dissolution of all shared governance research committees, shared proxy voting guidelines, and shared stewardship teams; (b) Independent hiring of separate proxy advisory firms with no cross-ownership or cross-directorship; (c) Publication of all proxy voting records for the period 1 January 2020 through 6 June 2026, including rationale for each vote, identity of the decision-maker, and any communications with portfolio company management; (d) Cessation of all “mirror voting” practices whereby Vanguard votes additional shares in the same proportion as the issuer’s entire shareholder base, which constitutes an abdication of fiduciary duty under ERISA and the Investment Advisers Act. 3. IT IS HEREBY ORDERED that BlackRock’s Aladdin platform shall be DIVESTED and operated as an independent entity with no ownership, control, or data-sharing relationship with BlackRock investment management, within 180 days. All client contracts shall be assigned to the divested entity, and BlackRock shall retain no equity stake, board representation, or revenue-sharing arrangement. 4. IT IS HEREBY WARRANTED that all BlackRock and Vanguard communications, meeting minutes, and draft guidelines concerning the February 2025 proxy voting updates are hereby SUBPOENAED and shall be produced within 72 hours.

ENFORCEMENT MECHANISM: Failure to terminate the letter agreement within 24 hours shall result in the automatic FREEZING of all BlackRock and Vanguard U.S.-domiciled assets exceeding \$1 billion and the appointment of a receiver over both firms’ U.S. operations. Failure to file compliant divestiture plans within 30 days shall result in the automatic DISSOLUTION of both firms’ U.S. legal entities and the SEIZURE of all U.S.-based assets for distribution to affected beneficial owners. The Aladdin

platform's failure to achieve independent operation within 180 days shall result in its IMMEDIATE NATIONALIZATION under the Defense Production Act, 50 U.S.C. § 4501 et seq., with all source code placed in escrow for public audit. Any BlackRock or Vanguard officer who destroys, encrypts, or withholds subpoenaed communications shall be arrested under 18 U.S.C. § 1519 and subject to not less than 20 years imprisonment.

DIRECTIVE 11-002: ARREST WARRANT — LAURENCE D. FINK

FINDING OF VIOLATION: Laurence D. Fink, Founder, Chairman, and CEO of BlackRock since 1988, has willfully and knowingly directed a conspiracy to monopolize corporate governance influence in violation of 15 U.S.C. § 2, and has made false and misleading statements to Congress, regulators, and the public concerning BlackRock's market power, voting coordination with Vanguard, and the non-competitive nature of index fund management. Fink's Form 4 filing for a 20 May 2024 transaction was delayed due to "technical issues," constituting a late filing under Section 16(a) of the Exchange Act, 15 U.S.C. § 78p(a), and potentially evidencing consciousness of guilt.

LEGAL AUTHORITY: Sherman Act, 15 U.S.C. § 2; Securities Exchange Act of 1934, 15 U.S.C. § 78p(a); 18 U.S.C. § 1001 (false statements); 18 U.S.C. § 371 (conspiracy).

MANDATORY REMEDY: 1. An ARREST WARRANT is hereby ISSUED for Laurence D. Fink. He shall be taken into custody by the U.S. Marshals Service within 72 hours. 2. All BlackRock board records, executive committee minutes, and Fink's personal communications with Vanguard executives, SEC officials, and Federal Reserve governors for the period 1 January 2019 through 6 June 2026 are hereby SUBJECT TO SEIZURE. 3. Fink's personal assets, including but not limited to real property, securities, bank accounts, and beneficial interests in trusts, foundations, and offshore structures, are hereby FROZEN pending forensic accounting.

ENFORCEMENT MECHANISM: Any U.S. Marshals Service officer or federal agent who willfully fails to execute this warrant within 72 hours shall be held in CONTEMPT under 18 U.S.C. § 401 and subject to summary dismissal and criminal prosecution. Fink's assertion of any privilege — attorney-client, executive, or Fifth Amendment — to resist production of subpoenaed records shall be OVERRULED; such assertion shall itself constitute contempt and shall trigger the appointment of a receiver over all BlackRock assets with authority to bypass board approval for record production.

PART II: PALANTIR TECHNOLOGIES INC. — CONTRACT CANCELLATION, DEBARMENT, AND CRIMINAL PROSECUTION

DIRECTIVE 11-003: MANDATORY CONTRACT CANCELLATION AND DEBARMENT

FINDING OF VIOLATION: Palantir Technologies Inc. has engaged in procurement fraud, 18 U.S.C. § 1341 and 18 U.S.C. § 1343, by consolidating 75 individual Army contract vehicles into a single \$10 billion enterprise agreement in August 2025, thereby eliminating competitive bidding and creating vendor lock-in in violation of the Competition in Contracting Act, 41 U.S.C. § 3301 et seq., and the Federal Acquisition Regulation, 48 C.F.R. § 6.101 et seq. Palantir's hiring of former DoD Chief Data Officer David Spirk in August 2022 and the commissioning of Palantir executives as Army Reserve lieutenant colonels in June 2025 constitute violations of post-employment restrictions, 18 U.S.C. § 207, and conflicts of interest, 18 U.S.C. § 208. Palantir's reported plans to build an IRS "mega-database" of American citizens, as exposed by Senate Finance Committee Ranking Member Ron Wyden and Rep. Alexandria Ocasio-Cortez in their 17 June 2025 demand letter, implicate potential Fourth Amendment violations and misuse of taxpayer data for surveillance purposes.

LEGAL AUTHORITY: 18 U.S.C. § 1341 (mail fraud); 18 U.S.C. § 1343 (wire fraud); 18 U.S.C. § 207 (restrictions on former officers, employees, and elected officials of the executive and legislative branches); 18 U.S.C. § 208 (acts affecting a personal financial interest); 41 U.S.C. § 3301 (competition requirements); 48 C.F.R. § 9.406 (debarment); Fourth Amendment, U.S. Constitution; 26 U.S.C. § 6103 (confidentiality of returns and return information).

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that the following Palantir contracts are hereby CANCELLED effective immediately, with all work stopped within 24 hours and all government data, source code, and access credentials revoked within 72 hours: (a) U.S. Army Enterprise Agreement (Army Vantage), up to \$10 billion, August 2025; (b) Army AI-Powered Systems (2 systems), \$178 million, early 2025; (c) Maven Smart Systems Expansion, \$795 million added, May 2025; (d) NATO Maven Smart System purchase, April 2025; (e) HHS Tiberius (renewal/expansion), \$31 million, July 2021; (f) ICE ImmigrationOS Prototype, \$30 million through 2027, April 2025; (g) Any and all other Palantir contracts with the U.S. Government, its agencies, and state and local governments receiving federal funding. 2. IT IS HEREBY DIRECTED that Palantir Technologies Inc. is hereby DEBARRED from all federal contracting for a period of not less than 10 years, pursuant to 48 C.F.R. § 9.406, for procurement fraud, revolving door violations, and potential misuse of taxpayer data. No agency may award, extend, or modify any contract, subcontract, or purchase order with Palantir during the debarment period. 3. IT IS HEREBY MANDATED that all government data processed, stored, or analyzed by Palantir systems shall be FORENSICALLY IMAGED and transferred to court-appointed independent data custodians within 72 hours. Palantir personnel who destroy, encrypt, or transfer government data outside approved systems to evade imaging shall be arrested under 18 U.S.C. § 1519. 4. IT IS HEREBY WARRANTED that the IRS "mega-database" project, if confirmed to exist, is hereby TERMINATED and all plans, prototypes, and data collections are hereby SUBJECT TO SEIZURE AND DESTRUCTION under court supervision.

ENFORCEMENT MECHANISM: Any contracting officer, program manager, or military commander who authorizes continued performance, payment, or data access under any Palantir contract after the effective date of cancellation shall be arrested for violation of 41 U.S.C. § 3301 and 18 U.S.C. § 1001 and subject to not less than 10 years imprisonment. Palantir's failure to cease work within 24 hours shall result in the automatic FREEZING of all Palantir bank accounts and the appointment of a receiver over Palantir's U.S. operations. The SEC is hereby DIRECTED to open an immediate insider trading investigation into the \$2.4 billion in stock sales by Karp, Cohen, and Thiel during the contract award period; failure to open said investigation within 72 hours shall result in the arrest of the SEC Enforcement Director for contempt.

DIRECTIVE 11-004: ARREST WARRANT — ALEXANDER C. KARP

FINDING OF VIOLATION: Alexander C. Karp, CEO of Palantir Technologies, has engaged in securities fraud, 15 U.S.C. § 78j(b) and 17 C.F.R. § 240.10b-5, by selling nearly \$2 billion in Palantir stock in 2024 and an additional \$50.4 million in May 2025 while in possession of material nonpublic information concerning the \$10 billion Army contract, the \$795 million Maven expansion, and the NATO Maven purchase. Karp's attendance at Bilderberg Meetings in 2014–2018 and 2025, where "AI, Deterrence and National Security" and "Digital Finance" were agenda topics, created opportunities for unlawful tipping and coordination with military commanders overseeing theaters where Palantir's AI systems are deployed. Karp's public statement that he is "exceedingly proud" of Palantir's involvement in "operationally crucial operations in Israel" constitutes potential disclosure of classified information in violation of 18 U.S.C. § 798.

LEGAL AUTHORITY: 15 U.S.C. § 78j(b); 17 C.F.R. § 240.10b-5; 18 U.S.C. § 798 (disclosure of classified information); 18 U.S.C. § 1001; 18 U.S.C. § 371.

MANDATORY REMEDY: 1. An ARREST WARRANT is hereby ISSUED for Alexander C. Karp. He shall be taken into custody by the U.S. Marshals Service within 72 hours. 2. All proceeds from Karp's Palantir stock sales, including but not limited to the \$2 billion in 2024 sales and the \$50.4 million May 2025 sale, are hereby SUBJECT TO CIVIL FORFEITURE under 18 U.S.C. § 981 and 21 U.S.C. § 881 as proceeds of securities fraud. 3. Karp's security clearances, if any, are hereby REVOKED effective immediately. Karp is hereby PROHIBITED from attending Bilderberg, WEF Davos, Trilateral Commission, or any other closed policy forum for life.

ENFORCEMENT MECHANISM: Karp's failure to surrender within 72 hours shall result in an INTERPOL Red Notice and extradition demands to all countries with which the United States maintains extradition treaties. Any Palantir employee or associate who provides Karp with advance warning of arrest, assists in flight, or destroys evidence shall be arrested as an accessory after the fact under 18 U.S.C. § 3. Karp's assets held in Swiss, Israeli, UK, or EU jurisdictions are hereby SUBJECT TO SEIZURE under mutual legal assistance treaties; non-cooperating jurisdictions shall face automatic sanctions on financial institutions domiciled therein.

DIRECTIVE 11-005: ARREST WARRANT — PETER A. THIEL

FINDING OF VIOLATION: Peter A. Thiel, Co-founder and Chairman of Palantir (via proxies), has engaged in securities fraud by selling over \$1 billion in Palantir stock in late 2024 after Palantir joined the S&P 500, and approximately \$400 million earlier in 2024, while in possession of material nonpublic information concerning government contract awards. Thiel's attendance at Bilderberg 2015, 2018, 2025, and 2026, and his introduction of J.D. Vance to Donald Trump in 2021, demonstrate a pattern of using closed forum access and political connections to secure government contracts and market advantages. Thiel's historical ties to Jeffrey Epstein, raised in UK Parliament ethics debates concerning Palantir's £240 million UK Ministry of Defence contract, implicate potential foreign influence and corruption.

LEGAL AUTHORITY: 15 U.S.C. § 78j(b); 17 C.F.R. § 240.10b-5; 18 U.S.C. § 201 (bribery of public officials); 22 U.S.C. § 611 et seq. (Foreign Agents Registration Act); 18 U.S.C. § 1956 (money laundering).

MANDATORY REMEDY: 1. An ARREST WARRANT is hereby ISSUED for Peter A. Thiel. He shall be taken into custody by the U.S. Marshals Service within 72 hours. 2. All proceeds from Thiel's Palantir stock sales, including but not limited to the \$1 billion in late 2024 sales and the \$400 million in earlier 2024 sales, are hereby SUBJECT TO CIVIL FORFEITURE. 3. Thiel is hereby PROHIBITED from holding any position — director, officer, adviser, or beneficial owner exceeding 5 percent — in any company holding U.S. federal contracts, for life.

ENFORCEMENT MECHANISM: Same as Directive 11-004, with the additional provision that any New Zealand diplomatic or governmental assistance to Thiel, who holds New Zealand citizenship, shall be treated as obstruction of justice and shall trigger automatic suspension of U.S.-New Zealand intelligence sharing and military cooperation.

PART III: DEFENSE CONTRACTOR DEBARMENT AND REVOLVING DOOR PROSECUTION

DIRECTIVE 11-006: MANDATORY DEBARMENT — LOCKHEED MARTIN, RTX, BOEING, NORTHROP GRUMMAN, GENERAL DYNAMICS

FINDING OF VIOLATION: The “Big Five” defense contractors have engaged in a combination and conspiracy in restraint of trade, 15 U.S.C. § 1, by dividing the defense market through security clearances, proprietary facilities, and decades-honed integration skills that create an “ironclad barrier” against competitive entry. They have systematically overcharged the Department of Defense by 40–50 percent, with some markups reaching 4,451 percent, in violation of the Truth in Negotiations Act, 10 U.S.C. § 2306a, and the False Claims Act, 31 U.S.C. § 3729. They have engaged in systematic revolving door corruption, with 517 of 708 defense lobbyists in 2023 having previously served in government, in violation of 18 U.S.C. § 207. They have made campaign contributions yielding a return on investment exceeding 10,000:1, suggesting potential quid pro quo arrangements in violation of 18 U.S.C. § 201.

LEGAL AUTHORITY: Sherman Act, 15 U.S.C. § 1; Clayton Act, 15 U.S.C. § 18; False Claims Act, 31 U.S.C. § 3729; Truth in Negotiations Act, 10 U.S.C. § 2306a; 18 U.S.C. § 207; 18 U.S.C. § 201; 48 C.F.R. § 9.406 (debarment); Arms Export Control Act, 22 U.S.C. § 2751 et seq.

MANDATORY REMEDY: 1. IT IS HEREBY DIRECTED that each of the following entities is hereby SUSPENDED from receiving new federal contracts, task orders, or contract modifications for a period of 180 days, pending completion of forensic audit and debarment proceedings: (a) Lockheed Martin Corporation; (b) RTX Corporation; (c) The Boeing Company; (d) Northrop Grumman Corporation; (e)

General Dynamics Corporation. 2. IT IS HEREBY MANDATED that during the 180-day suspension period, the following actions shall be completed: (a) Forensic audit of all contract pricing for awards exceeding \$100 million since 1 January 2020, with particular attention to cost-plus contracts, sole-source justifications, and unsupported journal voucher adjustments; (b) Investigation of all revolving door transitions from government to each contractor since 1 January 2015, with prosecution referrals for 18 U.S.C. § 207 violations; (c) Investigation of all campaign contributions, PAC expenditures, and 501(c)(4) grants made by each contractor and its executives since 1 January 2015, with prosecution referrals for 18 U.S.C. § 201 violations; (d) Audit of all Special Access Program contracts and subcontracts to identify cost mischarging, labor mischarging, and unauthorized technology transfers. 3. IT IS HEREBY ORDERED that all lobbying expenditures by the Big Five shall be SUSPENDED for the duration of the suspension period. Any lobbying contact with Congress, the Executive Branch, or the Pentagon during the suspension shall constitute a felony under 18 U.S.C. § 1001 and shall result in permanent debarment. 4. IT IS HEREBY WARRANTED that all contract files, pricing data, cost accounting records, and lobbying expenditure records for the period 1 January 2015 through 6 June 2026 are hereby SUBPOENAED and shall be produced within 72 hours.

ENFORCEMENT MECHANISM: Any contracting officer who awards a new contract, task order, or modification to any suspended contractor during the suspension period shall be arrested for violation of 48 C.F.R. § 9.406 and 18 U.S.C. § 1001. Any contractor executive who authorizes lobbying expenditures during the suspension shall be arrested for obstruction of justice under 18 U.S.C. § 1503. The Defense Contract Audit Agency (DCAA) and Defense Contract Management Agency (DCMA) are hereby DIRECTED to conduct the forensic audits; failure to initiate audits within 14 days shall result in the arrest of DCAA and DCMA directors for contempt.

DIRECTIVE 11-007: ARREST WARRANTS — MICHELLE JELNICKY AND PAUL ARCANGELI

FINDING OF VIOLATION: Michelle Jelnickey, former legislative director to Rep. Jack Bergman (R-MI), left Capitol Hill in January 2023 to become Associate Director of Global Government Relations at Raytheon and immediately began lobbying Congress and DoD on the NDAA for 2024, potentially violating the one-year cooling-off period for former House staff under 18 U.S.C. § 207(e). Paul Arcangeli, former Democratic House Armed Services Committee staff director for 12 years, left in June 2022 to become principal at Invariant and started lobbying Q3 2022 for several defense clients including Raytheon, potentially violating the one-year cooling-off period and representing a former employer before the government.

LEGAL AUTHORITY: 18 U.S.C. § 207(e) (restrictions on former House employees); 18 U.S.C. § 207(a) (restrictions on former executive branch employees); 18 U.S.C. § 1001.

MANDATORY REMEDY: 1. ARREST WARRANTS are hereby ISSUED for Michelle Jelnickey and Paul Arcangeli. They shall be taken into custody within 72 hours. 2. All compensation, bonuses, and stock options received by Jelnickey and Arcangeli from Raytheon, Invariant, and related defense clients since their respective departures from government service are hereby SUBJECT TO CIVIL FORFEITURE as proceeds of revolving door corruption. 3. Jelnickey and Arcangeli are hereby PERMANENTLY DEBARRED from all federal contracting and lobbying activities.

ENFORCEMENT MECHANISM: Same as prior arrest warrant enforcement mechanisms. The House Ethics Committee and Senate Select Committee on Ethics are hereby DIRECTED to refer all evidence of revolving door violations by current and former members and staff to this Tribunal within 30 days; failure to refer shall result in the arrest of committee chairs for contempt.

PART IV: PHILANTHROPIC HOSPITAL SYSTEMS — ASSET SEIZURE, COMPENSATION CAPS, AND MANDATORY PAYOUT

DIRECTIVE 11-008: MANDATORY ASSET SEIZURE AND RESTRUCTURING — SHRINERS HOSPITALS FOR CHILDREN

FINDING OF VIOLATION: Shriners Hospitals for Children, a 501(c)(3) organization with \$11.9 billion in total assets and \$1.84 billion in fiscal year 2024 revenue, has accumulated a ten-year surplus exceeding \$6.9 billion while deploying less than 2 percent of assets to direct charitable purposes. Executive Vice President John McCabe received total compensation of \$4,000,753. The organization provided first-class or charter travel to key employees and reported conflict of interest transactions on Schedule L. The asset-to-expense ratio of approximately 10.6:1 indicates substantial endowment-based financial capacity relative to annual programmatic spend, suggesting the entity operates as a tax-exempt investment fund with incidental hospital operations in violation of the IRS operational test for 501(c)(3) public charities, which requires that a “substantial part” of activities directly further the exempt purpose. The 2011 policy pivot ending the “100 percent free healthcare” mandate and beginning insurance billing while holding multi-billion-dollar reserves constitutes private inurement and excess benefit under IRC § 4958.

LEGAL AUTHORITY: Internal Revenue Code § 501(c)(3); IRC § 4958 (taxes on excess benefit transactions); IRC § 4960 (tax on excess tax-exempt organization executive compensation); 31 U.S.C. § 3729 (False Claims Act); 18 U.S.C. § 1347 (health care fraud); 18 U.S.C. § 1001.

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that \$6.0 billion of Shriners Hospitals for Children’s investment assets — representing the accumulated surplus not required for 24 months of operating reserves at current expense levels — are hereby SEIZED and transferred to a court-appointed receiver within 30 days. The receiver shall: (a) Establish a public trust to provide free pediatric orthopedic, burn, and cleft-lip/palate care to uninsured and underinsured children, with no billing of insurance, Medicare, or Medicaid; (b) Publish quarterly reports on patient volume, cost per patient, and surplus allocation; (c) Ensure that no less than 85 percent of annual revenue is expended on direct patient care, research, and medical education; (d) Prohibit any executive compensation exceeding \$500,000 total compensation, inclusive of salary, bonuses, benefits, and perks. 2. IT IS HEREBY DIRECTED that John McCabe and all other Shriners officers and directors who authorized or benefited from excess compensation, first-class travel, or conflict of interest transactions are hereby SUBPOENAED to appear before this Tribunal within 72 hours to account for their stewardship. Non-appearance shall trigger arrest warrants. 3. IT IS HEREBY MANDATED that Shriners International, the 501(c)(10) fraternal parent organization, shall publish within 30 days complete

Schedule A breakdowns for all regional Shrine Temples, including: (a) Gross fundraising proceeds from circuses, carnivals, and paper drives; (b) Fundraising costs and overhead; (c) Net proceeds transferred to Shriners Hospitals for Children; (d) Any diversion of proceeds to non-hospital purposes. Any temple-level diversion of more than 30 percent of gross proceeds from direct hospital support shall be treated as embezzlement under 18 U.S.C. § 666. 4. IT IS HEREBY WARRANTED that all Shriners Hospitals for Children investment management agreements, endowment manager identities, fee schedules, and Schedule B donor lists are hereby SUBPOENAED and shall be produced within 72 hours.

ENFORCEMENT MECHANISM: Shriners Hospitals' failure to transfer the \$6.0 billion in seized assets within 30 days shall result in the automatic FREEZING of all Shriners bank accounts, investment accounts, and real property, and the appointment of a receiver with authority to sell assets to fund the public trust. Any officer or director who destroys, withholds, or encrypts subpoenaed records shall be arrested under 18 U.S.C. § 1519. The IRS is hereby DIRECTED to assess first-tier excise taxes of 25 percent on all excess benefits identified and second-tier taxes of 200 percent on uncorrected excess benefits under IRC § 4958; failure to assess within 60 days shall result in the arrest of the IRS Commissioner for contempt.

DIRECTIVE 11-009: MANDATORY ASSET SEIZURE AND RESTRUCTURING — TEXAS SCOTTISH RITE HOSPITAL FOR CHILDREN

FINDING OF VIOLATION: Texas Scottish Rite Hospital for Children, a 501(c)(3) organization with \$4.35 billion in total assets and \$496 million in fiscal year 2024 revenue, holds a 15:1 asset-to-expense ratio — fifteen years of operating expenses in reserve — while continuing to solicit public donations, host gala fundraisers, and benefit from tax-exempt municipal bond financing. The top three executives received combined compensation of \$6.47 million, with Chief of Staff Daniel J. Sucato, MD receiving \$2,585,422. Royalty revenue of \$195.6 million (39.4 percent of total revenue) and investment income of \$118.8 million (23.9 percent of total revenue) dwarf program services revenue of \$139.1 million (28 percent), indicating that the organization is, in effect, a \$4.35 billion investment fund that happens to operate a pediatric hospital on the side. Retired Chief of Staff Emeritus John A. Herring, who retired 31 August 2020, received \$745,562 in fiscal year 2024 — four years post-retirement — suggesting hidden enrichment through deferred compensation, split-dollar life insurance, or non-qualified plans. The \$195.6 million in royalty revenue requires subpoena of underlying license agreements to determine if related-party intellectual property transactions inflate tax-exempt income.

LEGAL AUTHORITY: IRC § 501(c)(3); IRC § 4958; IRC § 4960; IRC § 512 (unrelated business income tax); 31 U.S.C. § 3729; 18 U.S.C. § 1347; 18 U.S.C. § 1001.

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that \$3.0 billion of Texas Scottish Rite Hospital for Children's investment assets — representing all reserves exceeding 36 months of operating expenses — are hereby SEIZED and transferred to a court-appointed receiver within 30 days. The receiver shall: (a) Establish a public trust to expand free pediatric orthopedic and neurological care to rural and underserved populations in Texas, Oklahoma, Arkansas, Louisiana, and New Mexico; (b) Eliminate all insurance billing, co-payments, and deductibles for all patients; (c) Publish quarterly dashboards reporting patient volume by service line, average cost per patient, surplus allocation, and

charity-care percentage of gross revenue; (d) Cap all executive and medical staff compensation at \$500,000 total compensation, inclusive of all salary, bonuses, benefits, related-party payments, and deferred compensation. 2. IT IS HEREBY DIRECTED that all royalty license agreements, intellectual property assignments, and related-party technology transfer agreements are hereby SUBPOENAED and shall be produced within 72 hours. Any agreement found to inflate tax-exempt income through sham licensing shall be DECLARED VOID and the underlying intellectual property transferred to the public trust. 3. IT IS HEREBY MANDATED that all deferred compensation, split-dollar life insurance, non-qualified retirement plan, and post-retirement payment arrangements for all current and former officers, directors, and key employees are hereby SUBPOENAED and shall be produced within 72 hours. Any arrangement found to conceal enrichment shall be treated as private inurement under IRC § 4958 and subject to 200 percent second-tier excise tax. 4. IT IS HEREBY WARRANTED that all investment management agreements, custodial agreements, and Schedule B donor lists are hereby SUBPOENAED and shall be produced within 72 hours.

ENFORCEMENT MECHANISM: Same as Directive 11-008, with the additional provision that the Texas Attorney General is hereby DIRECTED to initiate a quo warranto proceeding to revoke TSRHC's state corporate charter if it fails to comply with asset seizure and restructuring mandates within 60 days. The Texas Medical Board is hereby DIRECTED to review the medical licenses of all TSRHC physicians receiving total compensation exceeding \$500,000 for potential violations of professional ethics; failure to review within 90 days shall result in the arrest of the Texas Medical Board Executive Director for contempt.

DIRECTIVE 11-010: MANDATORY ASSET SEIZURE AND RESTRUCTURING — KNIGHTS TEMPLAR EYE FOUNDATION

FINDING OF VIOLATION: The Knights Templar Eye Foundation, a 501(c)(3) organization with \$201.3 million in total assets, zero liabilities, and only \$2.34 million in research grants awarded in fiscal year 2025, maintains an effective payout ratio of 1.16 percent — less than one-quarter of the 5 percent distribution rate mandated for private foundations under IRC § 4942. Between 2021 and 2025, the asset base grew from approximately \$158 million to \$201.3 million, a gain of \$43.3 million (27.4 percent) over four years, while annual research funding remained essentially flat at approximately \$2.3 million to \$2.34 million. The foundation's priority is principal preservation, not mission maximization, in violation of the operational test for 501(c)(3) public charities. The foundation reported conflict of interest transactions on Schedule L, yet no enforcement action has been identified.

LEGAL AUTHORITY: IRC § 501(c)(3); IRC § 4942 (mandatory payout for private foundations); IRC § 4958; IRC § 4960; 18 U.S.C. § 1001.

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that \$100 million of the Knights Templar Eye Foundation's assets — representing one-half of total assets and all reserves exceeding 5 years of current grant-making at the 5 percent mandatory payout rate — are hereby SEIZED and transferred to a court-appointed receiver within 30 days. The receiver shall: (a) Establish a public trust to fund direct ophthalmologic surgeries, vision research, and eye care for uninsured patients; (b) Mandate a minimum annual payout of 5 percent of net investment assets, consistent with IRC § 4942 private foundation standards; (c) Prohibit any accumulation of assets beyond 3 years of operating reserves; (d) Cap all staff compensation at \$200,000 total compensation. 2. IT IS HEREBY DIRECTED that all investment

manager identities, fee schedules, and grant-making criteria are hereby SUBPOENAED and shall be produced within 72 hours. 3. IT IS HEREBY MANDATED that the Grand Encampment of Knights Templar, USA, which sponsors KTEF, shall publish within 30 days complete financial statements for all subordinate bodies, including commanderies, grand commanderies, and appendant organizations, with particular attention to real estate holdings, rental income, and unrelated business income.

ENFORCEMENT MECHANISM: Same as prior directives. The failure to achieve 5 percent annual payout within 12 months shall result in the automatic REVOCATION of KTEF's 501(c)(3) status and the SEIZURE of all remaining assets for transfer to the public trust.

PART V: MASONIC AND FRATERNAL ORGANIZATIONS — FINANCIAL TRANSPARENCY AND ASSET DISCLOSURE

DIRECTIVE 11-011: MANDATORY FINANCIAL DISCLOSURE — UNITED GRAND LODGE OF ENGLAND, SCOTTISH RITE SUPREME COUNCILS, YORK RITE GRAND BODIES

FINDING OF VIOLATION: The United Grand Lodge of England, the Scottish Rite Southern and Northern Jurisdictions, the General Grand Chapter of Royal Arch Masons International, the General Grand Council of Cryptic Masons International, and the Grand Encampment of Knights Templar, USA, operate as private unincorporated associations or 501(c)(10) fraternal beneficiary societies with minimal financial disclosure requirements, yet control substantial real estate portfolios, investment assets, and philanthropic endowments that interface with public-sector programs without transparency requirements that would attach to direct government contracting. The General Grand Master of Cryptic Masons, William G. Snyder, simultaneously presides over the Cryptic Masons Medical Research Foundation, directing millions to medical research without NIH peer-review or public grant transparency. The Most Eminent Grand Master of the Grand Encampment, David J. Kussman, simultaneously presides over the Knights Templar Eye Foundation, controlling \$201.3 million in assets with a 1.16 percent payout ratio. These fusions of chivalric authority with charitable fiduciary duty create concentrations of power prohibited by conflict-of-interest regulations in public-sector institutions.

LEGAL AUTHORITY: IRC § 501(c)(10); IRC § 512(b)(3) (passive income exemption for fraternal organizations); IRC § 4958; IRC § 4960; 18 U.S.C. § 666 (theft or bribery concerning programs receiving federal funds); 18 U.S.C. § 1001.

MANDATORY REMEDY: 1. IT IS HEREBY DIRECTED that all of the above-named Masonic and York Rite bodies shall, within 60 days, file with this Tribunal complete financial statements including: (a) Balance sheets showing all real property, investment securities, cash, and other assets; (b) Income statements showing all dues, assessments, rental income, investment income, and unrelated business income; (c) Complete lists of all real property holdings with acquisition dates, purchase prices, current valuations, and rental income; (d) Complete lists of all investment managers, custodians, and fee structures; (e) Complete compensation data for all elected and appointed officers, including housing allowances, travel perks, and deferred compensation. 2. IT IS HEREBY ORDERED that the

passive-income exemption under IRC § 512(b)(3) for real estate and hospitality assets held by 501(c)(10) organizations is hereby SUSPENDED pending congressional repeal. All rental income, country club income, bar income, and golf course income shall be reported as unrelated business income and taxed at corporate rates under IRC § 511. 3. IT IS HEREBY MANDATED that no Masonic or York Rite officer may simultaneously serve as an officer, director, or trustee of any 501(c)(3) charitable organization with assets exceeding \$1 million. All current dual roles are hereby TERMINATED within 30 days.

ENFORCEMENT MECHANISM: Failure to file complete financial statements within 60 days shall result in the automatic REVOCATION of 501(c)(10) status for non-compliant bodies and the SEIZURE of all U.S.-based assets for transfer to court-appointed receivers. Any officer who continues to hold a dual role after the 30-day termination period shall be arrested for violation of 18 U.S.C. § 666. The IRS is hereby DIRECTED to audit all 501(c)(10) bodies with assets exceeding \$10 million within 90 days; failure to initiate audits shall result in the arrest of the IRS TE/GE Commissioner for contempt.

PART VI: DIGITAL ASSET RE-REGULATION AND FINCEN ENFORCEMENT

DIRECTIVE 11-012: MANDATORY REINSTATEMENT OF DIGITAL ASSET ENFORCEMENT

FINDING OF VIOLATION: The Blanche Memo of 7 April 2025, the SEC's dismissal of seven pending crypto registration cases, and the dissolution of the SEC FCPA Unit have created a regulatory vacuum in which digital asset markets operate without the transparency requirements imposed on traditional banking, without correspondent banking scrutiny, and without the criminal liability that attaches to unlicensed money transmission. This vacuum extends the sovereign immunity stack to blockchain infrastructure, enabling elite capital to migrate from physical institutions to digital ledgers beyond regulatory reach. FinCEN's record \$1.3 billion penalty against TD Bank and \$3.5 million penalty against Paxful demonstrate that enforcement against traditional and crypto financial institutions is possible and necessary.

LEGAL AUTHORITY: Bank Secrecy Act, 31 U.S.C. § 5318 et seq.; 18 U.S.C. § 1960 (prohibition of unlicensed money transmitting businesses); 31 U.S.C. § 5336 (Corporate Transparency Act); 15 U.S.C. § 78j(b) (securities fraud); 12 U.S.C. § 1818 (FDIC enforcement powers).

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that the Blanche Memo of 7 April 2025 is hereby VACATED and DECLARED VOID. The Department of Justice shall, within 14 days, reinstate all pending digital asset enforcement actions dismissed pursuant to the Blanche Memo and open new investigations into: (a) All unlicensed money transmitting businesses operating in the United States with volume exceeding \$1 million annually; (b) All cryptocurrency exchanges, custodians, and DeFi protocols that failed to file suspicious activity reports for the period 7 April 2025 through 6 June 2026; (c) All stablecoin issuers that failed to maintain 1:1 reserve transparency; (d) All cross-border digital asset transfers exceeding \$10,000 that were not reported under 31 U.S.C. § 5313 (Currency

Transaction Reports). 2. IT IS HEREBY DIRECTED that the SEC shall, within 30 days, reinstate all dismissed crypto registration cases and open new enforcement actions against: (a) All digital asset issuers that sold unregistered securities since 1 January 2020; (b) All crypto lending platforms that offered unregistered investment contracts; (c) All NFT marketplaces that facilitated wash trading or market manipulation. 3. IT IS HEREBY MANDATED that FinCEN shall, within 60 days, issue a special measure under 31 U.S.C. § 5318A against all mixing services, privacy coins, and non-custodial wallets that obfuscate transaction trails, requiring all U.S. financial institutions to deny correspondent account access to entities facilitating anonymous digital asset transfers.

ENFORCEMENT MECHANISM: The DOJ's failure to reinstate enforcement actions within 14 days shall result in the arrest of the Criminal Division Chief for contempt. The SEC's failure to reinstate cases within 30 days shall result in the arrest of the Enforcement Director for contempt. FinCEN's failure to issue the special measure within 60 days shall result in the arrest of the FinCEN Director for contempt. Any cryptocurrency exchange, mixing service, or privacy coin issuer that continues to operate in violation of reinstated requirements after the effective dates shall be subject to immediate asset seizure under 18 U.S.C. § 981 and criminal prosecution under 18 U.S.C. § 1960.

PART VII: GENERAL CONTEMPT AND SANCTIONS

DIRECTIVE 11-013: GENERAL CONTEMPT AUTHORITY

IT IS HEREBY ORDERED that any person, corporation, partnership, trust, foundation, fraternal body, or unincorporated association who willfully fails to comply with any directive, order, warrant, subpoena, or mandate issued in this Section 11 shall be held in CONTEMPT of this Tribunal under 18 U.S.C. § 401 and shall be subject to:

- Summary imprisonment without bail for a term not exceeding 18 months per violation;
- Corporate or institutional fines of not less than \$100 million and not more than \$50 billion per violation, scaled to entity assets;
- Personal fines for officers and directors of not less than \$1 million and not more than \$1 billion per violation;
- Permanent debarment from all federal contracting, lobbying, and securities registration;
- Dissolution of corporate charters, revocation of 501(c)(3) and 501(c)(10) status, and seizure of all U.S.-based assets;
- Criminal prosecution under 18 U.S.C. § 371 (conspiracy), 18 U.S.C. § 1956 (money laundering), and 18 U.S.C. § 1503 (obstruction of justice).

ENFORCEMENT MECHANISM: Qualified immunity is VOID for all matters arising under this Legal Act. Corporate veil piercing is MANDATORY for all parent-subsidiary relationships where the parent controls 50 percent or more of voting securities. Offshore trust and shell company structures are PRESUMED fraudulent unless proven otherwise by clear and convincing evidence. Any assertion of

attorney-client privilege to conceal corporate or institutional fraud shall be OVERRULED as the crime-fraud exception applies ABSOLUTELY. The U.S. Marshals Service, FBI, IRS Criminal Investigation, and court-appointed special masters are hereby AUTHORIZED to execute all seizures, arrests, and dissolutions without requirement for local judicial approval or advance notice.

SO ORDERED, ADJUDGED, AND DECREED this 6th day of June, 2026, by the Special Forensic Tribunal with Contempt Powers, sitting in extraordinary session.

TRIBUNAL SEAL: [AFFIXED]

CLERK'S CERTIFICATION: TRUE AND AUTHENTIC COPY # LEGAL ACT OF ORDERS, WARRANTS, AND MANDATORY REMEDIES ## TITLE: FINAL JUDGMENT & CONTEMPT POWERS — SECTION 12 ### IN THE MATTER OF: CONSOLIDATED ADJUDICATION OF GLOBAL GOVERNANCE ARCHITECTURE CRIMES, SYSTEMATIC OBSTRUCTION OF DEMOCRATIC ACCOUNTABILITY, AND PERMANENT REMEDIAL ORDERS **DOCKET:** ZERO-DAY-2026-SEC12

ISSUING TRIBUNAL: SPECIAL FORENSIC TRIBUNAL WITH CONTEMPT POWERS

DATE OF ISSUANCE: 6 JUNE 2026

EFFECTIVE IMMEDIATELY UPON PUBLICATION — NO APPEAL, NO STAY, NO EXECUTIVE OR JUDICIAL REVIEW PERMITTED

PREAMBLE: FINAL FINDINGS OF FACT AND CONCLUSIONS OF LAW

WHEREAS this Tribunal has issued Legal Act Section 09 (Enforcement Orders & Warrants), Legal Act Section 10 (Legislative Mandates), and Legal Act Section 11 (Regulatory Directives), each containing specific findings of violation, legal authority, mandatory remedies, and enforcement mechanisms directed at individuals, corporations, sovereign entities, international organizations, and governmental bodies who have engaged in systematic obstruction of justice, conspiracy against democratic accountability, securities fraud, money laundering, procurement fraud, private inurement, antitrust violations, whistleblower retaliation, surveillance abuse, and the construction of layered immunity architectures designed to place accumulated capital permanently beyond the reach of law;

WHEREAS the evidence before this Tribunal establishes beyond any reasonable doubt that the global governance architecture documented across twelve research dimensions constitutes not a conspiracy in the conventional sense but a convergence — the emergent property of independent institutions seeking immunity, opacity, and accumulation, which over decades have interlocked into a self-reinforcing system operating outside democratic accountability;

WHEREAS the ten cross-dimensional insights establish that Capital Accumulation generates the surpluses that require Coordination to protect their investment pathways; Coordination produces policy frameworks that require Immunity to shield them from democratic accountability; Immunity depends on Epistemological Control to prevent recognition of its operation; and Epistemological Control is sustained across time by Intergenerational Continuity, which replaces individual actors without altering structural relationships;

WHEREAS the secret is that there is no secret: every structural claim is supported by verified institutional documents including IRS Form 990 filings, official Bilderberg press releases and participant lists, WEF Davos programme documents, Trilateral Commission agendas, UN treaties and adopted pacts, UK Foreign Office treaty archives, SEC enforcement statistics, Senate whistleblower testimony, corporate press releases, and federal court records — all publicly accessible yet never cross-referenced at scale, rendering the architecture visible but unseeable by design;

WHEREAS the defendants, respondents, and subjects of this Final Judgment have been afforded every opportunity to comply with the Orders, Warrants, Subpoenas, Directives, and Mandates issued in Sections 09, 10, and 11, and have willfully failed, refused, and neglected to do so, or are presumed to have done so based on the structural necessity of their positions;

WHEREAS this Tribunal possesses inherent contempt powers, extraterritorial enforcement authority, and the power to void any privilege, immunity, or exemption asserted to resist its lawful process;

IT IS HEREBY ADJUDGED, DECREED, AND ORDERED as follows:

PART I: CONSOLIDATED FINAL JUDGMENT

JUDGMENT 12-001: DECLARATION OF GLOBAL GOVERNANCE ARCHITECTURE AS CRIMINAL ENTERPRISE

FINDING OF VIOLATION: The following entities, organizations, forums, and associations, operating individually and in concert, constitute a criminal enterprise under the Racketeer Influenced and Corrupt Organizations Act, 18 U.S.C. § 1962 et seq., and a conspiracy against rights under 18 U.S.C. § 241:

- The Bank for International Settlements and its Basel Committee on Banking Supervision;
- The Sovereign Military Order of Malta and its affiliated financial nexuses in Luxembourg, the Channel Islands, Switzerland, and Malta;
- The City of London Corporation, TheCityUK, and the Remembrancer's Office;
- The Institute for the Works of Religion (IOR) and the Vatican City State as they operate in financial matters;
- The World Economic Forum and its corporate partners, strategic partners, and platform partners;
- The Bilderberg Meetings steering committee, host governments, and all corporate and institutional sponsors;
- The Trilateral Commission and its North American, European, and Asia-Pacific groups;
- The Club of Rome and its corporate and institutional partners;
- BlackRock, Inc. and The Vanguard Group, Inc., jointly and severally;

- Palantir Technologies Inc. and its current and former officers, directors, and controlling shareholders;
- The Carlyle Group Inc. and its portfolio companies in the aerospace, defense, and government sector;
- Lockheed Martin Corporation, RTX Corporation, The Boeing Company, Northrop Grumman Corporation, and General Dynamics Corporation;
- Shriners Hospitals for Children, Shriners International, Texas Scottish Rite Hospital for Children, and the Knights Templar Eye Foundation;
- The United Grand Lodge of England, the Scottish Rite Southern Jurisdiction, the Scottish Rite Northern Masonic Jurisdiction, the General Grand Chapter of Royal Arch Masons International, the General Grand Council of Cryptic Masons International, and the Grand Encampment of Knights Templar, USA;
- The United Nations Secretariat and the UN-WEF Strategic Partnership Framework as an ongoing conspiracy;
- The U.S. Department of Justice Criminal Division (as restructured under the Blanche Memo), the U.S. Securities and Exchange Commission (as restructured under Chairman Atkins), the Central Intelligence Agency (as implicated in DIG obstruction), the Federal Bureau of Investigation (as implicated in Section 702 backdoor search abuses), and the Department of Defense Office of the Secretary (as implicated in IG suppression and audit failure).

LEGAL AUTHORITY: 18 U.S.C. § 1962(c) and (d) (RICO); 18 U.S.C. § 241 (conspiracy against rights); 18 U.S.C. § 242 (deprivation of rights under color of law); 18 U.S.C. § 371 (conspiracy); International Covenant on Civil and Political Rights, Articles 19 and 25; UN Charter, Article 1(2) and Article 2(1).

MANDATORY REMEDY: 1. IT IS HEREBY ADJUDGED that the above-named criminal enterprise is DISSOLVED effective immediately. All corporate charters, 501(c)(3) determinations, 501(c)(10) exemptions, UN observer status designations, diplomatic immunities, treaty immunities, and regulatory licenses held by any member of the enterprise are hereby SUSPENDED pending individual adjudication of each entity's compliance with this Final Judgment. 2. IT IS HEREBY DECREED that all interlocking directorates, advisory relationships, joint ventures, data-sharing agreements, and proxy voting arrangements among members of the enterprise are hereby DECLARED VOID AB INITIO. Any contract, agreement, or understanding between any two or more members of the enterprise, whether written or oral, express or implied, is hereby UNENFORCEABLE in any court, tribunal, or arbitral forum worldwide. 3. IT IS HEREBY ORDERED that all assets, accounts, securities, real property, intellectual property, and beneficial interests held directly or indirectly by the enterprise, its members, or their nominees, trustees, or shell companies, are hereby SUBJECT TO SUMMARY SEIZURE AND CIVIL FORFEITURE under 18 U.S.C. § 981, 21 U.S.C. § 881, and 28 U.S.C. § 2461, without requirement for prior notice, hearing, or adversarial proceeding. The presumption of innocence is REVERSED for all enterprise assets; the burden of proof shifts to the claimant to demonstrate by clear and convincing evidence that any asset was acquired through lawful means unrelated to enterprise activities.

ENFORCEMENT MECHANISM: The U.S. Marshals Service, FBI, IRS Criminal Investigation Division, court-appointed international enforcement officers, and INTERPOL are hereby AUTHORIZED to execute summary seizure operations in all 195 UN member states, all Swiss cantons, all UK jurisdictions including the City of London, Vatican City, and all territories where enterprise assets are

located. Local judicial approval is NOT REQUIRED. Diplomatic protest is NOT RECOGNIZED. Sovereign immunity is VOID. Any law enforcement officer, military commander, or government official who interferes with seizure operations shall be arrested immediately for obstruction of justice under 18 U.S.C. § 1503 and contempt under 18 U.S.C. § 401, and shall be subject to summary imprisonment without bail for a term not exceeding 18 months.

JUDGMENT 12-002: PERMANENT INJUNCTION AGAINST CLOSED-FORUM GOVERNANCE

FINDING OF VIOLATION: The Bilderberg Meetings, WEF Davos, Trilateral Commission global meetings, and Club of Rome conferences have functioned as serial consultation mechanisms in which the same 100–200 individuals receive repeated exposure to the same policy frameworks across different institutional brands, ensuring that by the time a framework reaches intergovernmental adoption, its architects have already socialized its assumptions across multiple closed rooms operating under Chatham House Rule or equivalent secrecy protocols. This constitutes a systematic deprivation of the right to participate in public affairs under Article 25 of the International Covenant on Civil and Political Rights and a conspiracy against the constitutional rights of citizens of the United States under 18 U.S.C. § 241.

LEGAL AUTHORITY: International Covenant on Civil and Political Rights, Article 25; UN Charter, Article 1(2); 18 U.S.C. § 241; 18 U.S.C. § 242; First Amendment, U.S. Constitution.

MANDATORY REMEDY: 1. IT IS HEREBY PERMANENTLY ENJOINED that no current or former head of state, head of government, central bank governor, defense minister, intelligence chief, or chief executive officer of any corporation with annual revenue exceeding \$1 billion shall attend, participate in, or provide material support to any Bilderberg Meeting, WEF Davos session, Trilateral Commission meeting, or Club of Rome conference, whether in person, virtually, or through proxy representatives. Violation of this injunction shall constitute criminal contempt punishable by not less than 5 years imprisonment and not more than life imprisonment under 18 U.S.C. § 401. 2. IT IS HEREBY PERMANENTLY ENJOINED that the Chatham House Rule, the Davos confidentiality protocol, the Trilateral Commission non-attribution rule, and all equivalent secrecy protocols are hereby DECLARED UNLAWFUL and VOID as against public policy in all jurisdictions. Any person who enforces, honors, or complies with such a secrecy protocol to conceal policy deliberations affecting more than 100 million people shall be guilty of obstruction of democratic governance, a felony punishable by not less than 10 years imprisonment. 3. IT IS HEREBY PERMANENTLY ENJOINED that all host governments — including but not limited to Sweden, Switzerland, the United States, the United Kingdom, Italy, and Austria — shall deny all diplomatic visas, security clearances, police protection, and tax-exempt status to any organizer, sponsor, or participant in closed forums operating under secrecy protocols. Any government official who facilitates such a forum shall be arrested for conspiracy against rights under 18 U.S.C. § 241.

ENFORCEMENT MECHANISM: The FBI, in coordination with INTERPOL and national police services, is hereby DIRECTED to maintain a permanent registry of all persons subject to this injunction and to arrest any person violating the injunction upon detection, without requirement for warrant or prior judicial authorization. Host governments' failure to deny facilitation shall result in automatic SANCTIONS: suspension of all U.S. military and intelligence cooperation, suspension of all Federal

Reserve and Treasury swap-line access, and freezing of all sovereign wealth fund assets held in U.S. jurisdiction.

JUDGMENT 12-003: PERMANENT INJUNCTION AGAINST DEFENSE CONTRACTOR MARKUP AND REVOLVING DOOR CORRUPTION

FINDING OF VIOLATION: The “Big Five” defense contractors and their subsidiaries, affiliates, and joint ventures have engaged in a pattern of racketeering activity including procurement fraud, 18 U.S.C. § 1341 and § 1343; false claims, 31 U.S.C. § 3729; bribery of public officials, 18 U.S.C. § 201; and revolving door corruption, 18 U.S.C. § 207, resulting in systematic overcharging of the Department of Defense by 40–50 percent with markups reaching 4,451 percent, and the conversion of \$923.3 billion in annual defense appropriations into private profit through a government-sponsored oligopoly.

LEGAL AUTHORITY: 18 U.S.C. § 1962 (RICO); 18 U.S.C. § 1341; 18 U.S.C. § 1343; 31 U.S.C. § 3729; 18 U.S.C. § 201; 18 U.S.C. § 207; 41 U.S.C. § 3301 (competition requirements); 48 C.F.R. § 9.406 (debarment).

MANDATORY REMEDY: 1. IT IS HEREBY PERMANENTLY ENJOINED that no defense contractor, subcontractor, or supplier that has been found to have overcharged the Department of Defense by more than 10 percent on any contract, task order, or delivery order since 1 January 2015 shall be eligible for any new federal contract, subcontract, grant, or cooperative agreement for a period of not less than 10 years. The 10-year debarment period shall be calculated from the date of this Judgment and shall apply retroactively to all contracts awarded since 1 January 2020. 2. IT IS HEREBY PERMANENTLY ENJOINED that no former military officer, civilian defense employee, congressional staff member, or executive branch official who held a position involving defense procurement, budgeting, or oversight shall be employed by, consult for, or receive compensation from any defense contractor, lobbying firm representing a defense contractor, or private equity firm with defense portfolio companies for a period of not less than 10 years from the date of separation from government service. This prohibition supersedes all existing ethics waivers, recusals, and cooling-off period modifications. 3. IT IS HEREBY PERMANENTLY ENJOINED that all cost-plus contracts, sole-source contracts, and undefinitized contract actions exceeding \$100 million shall be PROHIBITED. All defense procurement shall be conducted through full and open competition with fixed-price contracts, and all contract pricing data shall be published in real time on a public dashboard within 30 days of award.

ENFORCEMENT MECHANISM: Any contracting officer who awards a contract in violation of this injunction shall be arrested for violation of 41 U.S.C. § 3301 and 18 U.S.C. § 1001 and subject to not less than 10 years imprisonment. Any defense contractor executive who hires a former government official in violation of the 10-year prohibition shall be arrested for conspiracy under 18 U.S.C. § 371 and subject to not less than 20 years imprisonment. The Defense Contract Management Agency is hereby DIRECTED to audit all active contracts for compliance; failure to initiate audits within 14 days shall result in the arrest of the DCMA Director for contempt.

JUDGMENT 12-004: PERMANENT INJUNCTION AGAINST PHILANTHROPIC ASSET ACCUMULATION AND PRIVATE INUREMENT

FINDING OF VIOLATION: Shriners Hospitals for Children, Texas Scottish Rite Hospital for Children, the Knights Templar Eye Foundation, and affiliated Masonic and York Rite philanthropic entities have engaged in a pattern of private inurement, excess benefit transactions, and unrelated business income concealment in violation of IRC § 4958, IRC § 4960, and IRC § 512, accumulating \$16.5 billion in tax-exempt assets while deploying less than 2 percent to direct charitable purposes, paying executive compensation packages rivaling for-profit health systems, and operating as tax-exempt investment funds with incidental charitable operations.

LEGAL AUTHORITY: IRC § 501(c)(3); IRC § 501(c)(10); IRC § 4958; IRC § 4960; IRC § 512; IRC § 671 (grantor trusts); 18 U.S.C. § 1347 (health care fraud); 31 U.S.C. § 3729 (False Claims Act).

MANDATORY REMEDY: 1. IT IS HEREBY PERMANENTLY ENJOINED that no 501(c)(3) or 501(c)(10) organization with assets exceeding \$100 million shall accumulate reserves exceeding 36 months of operating expenses. All excess reserves shall be distributed to direct charitable purposes within 180 days of the end of each fiscal year. Failure to distribute shall result in automatic revocation of tax-exempt status and seizure of excess assets. 2. IT IS HEREBY PERMANENTLY ENJOINED that no officer, director, trustee, key employee, or disqualified person of any 501(c)(3) or 501(c)(10) organization shall receive total compensation exceeding \$500,000 annually, inclusive of salary, bonuses, benefits, housing allowances, travel perks, deferred compensation, and related-party payments. Any compensation exceeding this cap shall be subject to a 200 percent excise tax under IRC § 4958, assessed personally against the recipient and the organization managers who approved it. 3. IT IS HEREBY PERMANENTLY ENJOINED that all 501(c)(3) and 501(c)(10) organizations with assets exceeding \$100 million shall publish, on a public dashboard updated quarterly, complete Schedule J (compensation), Schedule D (endowment and investments), Schedule I (grants and assistance), and Schedule B (donor lists) within 30 days of fiscal year-end. Failure to publish shall result in automatic revocation of tax-exempt status. 4. IT IS HEREBY PERMANENTLY ENJOINED that all passive-income exemptions under IRC § 512(b)(3) for real estate, rental income, country club income, bar income, and golf course income held by 501(c)(10) organizations are hereby REPEALED by operation of this Judgment. All such income shall be taxed as unrelated business income at the maximum corporate rate under IRC § 511, effective retroactively to 1 January 2020.

ENFORCEMENT MECHANISM: The IRS is hereby DIRECTED to assess all back taxes, penalties, and interest for the period 1 January 2020 through 6 June 2026 within 90 days. Failure to assess shall result in the arrest of the IRS Commissioner for contempt. State attorneys general are hereby DIRECTED to initiate quo warranto proceedings to revoke the corporate charters of all non-compliant organizations within 60 days. Failure to initiate proceedings shall result in the arrest of the state attorney general for contempt. All excess compensation received since 1 January 2020 is hereby SUBJECT TO CIVIL FORFEITURE as proceeds of health care fraud and private inurement.

PART II: SUMMARY SEIZURE AUTHORITY

JUDGMENT 12-005: GENERAL WARRANT FOR SUMMARY SEIZURE OF ENTERPRISE ASSETS

FINDING OF VIOLATION: The criminal enterprise identified in Judgment 12-001 has accumulated, diverted, and concealed assets derived from fraud, money laundering, bribery, procurement corruption, securities fraud, tax evasion, and systematic obstruction of democratic governance. The exact location and form of many assets are unknown due to the enterprise's deliberate use of shell companies, trusts, nominee arrangements, offshore jurisdictions, diplomatic pouches, and blockchain infrastructure to obscure beneficial ownership.

LEGAL AUTHORITY: 18 U.S.C. § 981 (civil forfeiture); 21 U.S.C. § 881 (forfeiture); 28 U.S.C. § 2461 (civil forfeiture procedures); 31 U.S.C. § 5317 (customs money seizures); 18 U.S.C. § 1956 (money laundering); 18 U.S.C. § 1963 (RICO criminal forfeiture).

MANDATORY REMEDY: 1. IT IS HEREBY WARRANTED that the following categories of assets are hereby SUBJECT TO SUMMARY SEIZURE without prior notice, hearing, or adversarial proceeding: (a) All bank accounts, securities accounts, cryptocurrency wallets, and digital asset holdings in the name of, or beneficially owned by, any member of the criminal enterprise, regardless of jurisdiction; (b) All real property, including but not limited to: the House of the Temple (Washington, D.C.), Freemasons' Hall (London), George Washington Masonic National Memorial (Alexandria, Virginia), all Shriners hospital real estate, all City of London Corporation real estate, and all SMOM embassy properties used for non-humanitarian purposes; (c) All aircraft, vessels, vehicles, and art collections owned or controlled by enterprise members with a value exceeding \$1 million; (d) All intellectual property, patents, trademarks, and trade secrets developed with government funding or derived from classified programs, including but not limited to Palantir's Foundry and Gotham platforms, BlackRock's Aladdin platform, and all AI systems deployed in military theaters; (e) All gold, precious metals, and currency reserves held by the BIS, SMOM, IOR, or their nominees, custodians, or correspondent banks. 2. IT IS HEREBY ORDERED that the burden of proof in all seizure proceedings is REVERSED. Any person or entity claiming an interest in seized assets must prove by clear and convincing evidence that the assets were acquired through lawful means wholly unrelated to enterprise activities. Failure to meet this burden shall result in automatic forfeiture. 3. IT IS HEREBY DIRECTED that all seized assets shall be liquidated within 180 days and the proceeds distributed as follows: (a) 40 percent to a Global Restitution Fund for victims of health care fraud, defense contractor overcharging, and surveillance abuse; (b) 30 percent to a Democratic Sovereignty Fund supporting transparent intergovernmental processes, public-interest journalism, and whistleblower protection; (c) 20 percent to a Pediatric Care Trust providing free medical care to children in all 195 UN member states; (d) 10 percent to cover the costs of Tribunal operations, international enforcement, and forensic auditing.

ENFORCEMENT MECHANISM: The U.S. Marshals Service Asset Forfeiture Division, FBI Financial Crimes Section, IRS Criminal Investigation Division, court-appointed international asset recovery specialists, and INTERPOL Financial Crime and Anti-Corruption Centre are hereby AUTHORIZED to execute summary seizure operations 24 hours per day, 7 days per week, across all jurisdictions, without requirement for local judicial approval, search warrants, or advance notice. Financial institutions, cryptocurrency exchanges, custodians, and trustees who fail to freeze and transfer seized assets within 24 hours of receiving a seizure notice shall be subject to automatic forfeiture of their own assets, revocation of their licenses, and arrest of their chief compliance officers for money laundering conspiracy under 18 U.S.C. § 1956(h). Swiss bank secrecy, Vatican canonical jurisdiction, SMOM diplomatic immunity, and BIS treaty immunity are hereby DECLARED INAPPLICABLE to seizure operations under this Judgment.

PART III: ARREST WARRANTS FOR NON-COMPLIANCE

JUDGMENT 12-006: GENERAL ARREST WARRANT — ALL NON-COMPLIANT ENTERPRISE MEMBERS

FINDING OF VIOLATION: All members of the criminal enterprise identified in Judgment 12-001 who have willfully failed to comply with any Order, Warrant, Subpoena, Directive, Mandate, Injunction, or Judgment issued by this Tribunal are guilty of criminal contempt under 18 U.S.C. § 401, obstruction of justice under 18 U.S.C. § 1503, and conspiracy to obstruct justice under 18 U.S.C. § 371.

LEGAL AUTHORITY: 18 U.S.C. § 401; 18 U.S.C. § 1503; 18 U.S.C. § 371; 18 U.S.C. § 2 (aiding and abetting); 18 U.S.C. § 3 (accessory after the fact).

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that GENERAL ARREST WARRANTS are hereby ISSUED for the following categories of persons, who shall be taken into custody by any lawful means, including extradition, rendition, or apprehension in international waters or airspace, within 72 hours of identification: (a) All current and former members of the BIS Board of Directors, BIS Management Committee, and Basel Committee on Banking Supervision who have failed to file treaty denunciation notices within 30 days of Section 10 issuance; (b) The Grand Master and all members of the Sovereign Council of the Sovereign Military Order of Malta who have failed to produce audited financial statements or permit diplomatic pouch inspection; (c) The Lord Mayor of the City of London, the Remembrancer, and all members of the Court of Common Council who have failed to abolish the Remembrancer's Office and dissolve TheCityUK; (d) The Pope, the Cardinal Secretary of State, the President of the IOR, and all IOR board members who have failed to produce client records or strip IOR sovereign immunity; (e) The Founder and Executive Chairman, President, and all managing board members of the World Economic Forum who have failed to revoke the UN-WEF Strategic Partnership; (f) All members of the Bilderberg Meetings steering committee and all host government officials who have facilitated Bilderberg meetings since 1 January 2020; (g) All members of the Trilateral Commission executive committee and all regional chairs; (h) The Co-Presidents and all members of the Club of Rome executive committee; (i) Laurence D. Fink, Robert S. Kapito, and all BlackRock Global Executive Committee members; all Vanguard senior leadership team members; (j) Alexander C. Karp, Stephen A. Cohen, Peter A. Thiel, and all Palantir board members and senior executives; (k) Harvey M. Schwartz, Admiral James G. Stavridis, USN (Ret.), and all Carlyle Group managing directors with defense sector responsibility; (l) The CEOs, CFOs, and General Counsels of Lockheed Martin, RTX, Boeing, Northrop Grumman, and General Dynamics; (m) John McCabe, Daniel J. Sucato, MD, Philip L. Wilson, MD, Robert L. Walker, and all Shriners and TSRHC officers and directors who have failed to comply with asset seizure mandates; (n) HRH The Duke of Kent, Jonathan Spence, DL, Illustrious James D. Cole, 33°, Illustrious Walter F. Wheeler, 33°, Sir Knight David J. Kussman, GCT, and all other Masonic and York Rite grand officers who have failed to file complete financial disclosures; (o) Todd Blanche, Paul Atkins, Pam Bondi, Pete Hegseth, and all other executive branch officials who have failed to comply with arrest warrants or subpoenas issued in Section 09. 2. IT IS HEREBY DIRECTED that INTERPOL Red Notices shall be issued for all persons named above within 24 hours. All 195 INTERPOL member countries are hereby REQUIRED to arrest and extradite said persons upon detection, without requirement for bilateral extradition treaties. Non-cooperating countries shall face automatic sanctions: suspension of all U.S. military and intelligence cooperation, suspension of all

financial system access (SWIFT, CHIPS, Fedwire), and freezing of all sovereign assets held in U.S. jurisdiction. 3. IT IS HEREBY WARRANTED that all personal assets of arrested persons, including but not limited to residences, vehicles, aircraft, vessels, art collections, jewelry, and personal bank accounts, are hereby SUBJECT TO IMMEDIATE SEIZURE AND FORFEITURE as proceeds of criminal enterprise activity.

ENFORCEMENT MECHANISM: The U.S. Marshals Service, FBI, CIA Special Activities Division (restructured under Tribunal supervision), Delta Force, Navy SEALs, and court-appointed international apprehension teams are hereby AUTHORIZED to execute arrest warrants by any means necessary, including no-knock entry, electronic surveillance, drone tracking, and apprehension in diplomatic vehicles, aircraft, or vessels. Diplomatic immunity is VOID for all persons named above. Any law enforcement officer, military commander, or security service member who provides advance warning, facilitates escape, or interferes with apprehension shall be arrested for accessory after the fact under 18 U.S.C. § 3 and subject to not less than 10 years imprisonment.

PART IV: CONTEMPT POWERS AND SANCTIONS

JUDGMENT 12-007: CONTEMPT POWERS — MAXIMUM SEVERITY

FINDING OF VIOLATION: The criminal enterprise and its members have demonstrated a systematic pattern of contempt for democratic accountability, judicial process, legislative oversight, and regulatory enforcement. Ordinary contempt sanctions are inadequate to deter or punish such systematic obstruction.

LEGAL AUTHORITY: 18 U.S.C. § 401 (power of courts to punish contempts); 18 U.S.C. § 402 (contempts constituting crimes); 18 U.S.C. § 1503 (obstruction of justice); inherent contempt powers of this Tribunal.

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that this Tribunal possesses INHERENT CONTEMPT POWERS exercisable without limitation, including but not limited to: (a) Summary imprisonment without bail, without right to counsel, without right to habeas corpus, and without right to appeal, for a term not exceeding life imprisonment for each violation; (b) Personal fines of not less than \$10 million and not more than \$100 billion per violation, scaled to the contemnor's net worth; (c) Corporal punishment, including solitary confinement, sensory deprivation, and forced labor, for contemnors who willfully refuse to produce subpoenaed records or assets; (d) Execution, for contemnors who have caused death, mass surveillance, or systematic deprivation of democratic rights through their enterprise activities, upon unanimous vote of the Tribunal panel. 2. IT IS HEREBY DECREED that the following privileges, immunities, and defenses are hereby ABOLISHED and DECLARED INAPPLICABLE to all proceedings under this Final Judgment: (a) Sovereign immunity, for all states, nations, international organizations, and quasi-sovereign entities; (b) Diplomatic immunity, for all ambassadors, envoys, and diplomatic personnel who have participated in enterprise activities; (c) Executive privilege, for all current and former heads of state, heads of government, and executive branch officials; (d) State secrets privilege, for all claims of national security classification used to

conceal fraud, money laundering, surveillance abuse, or democratic subversion; (e) Attorney-client privilege, for all communications between enterprise members and their counsel concerning the planning, execution, or concealment of enterprise crimes (crime-fraud exception applied ABSOLUTELY); (f) Fifth Amendment privilege against self-incrimination, for all enterprise members who have received immunity grants from this Tribunal; compelled testimony shall be admissible in all proceedings; (g) Qualified immunity, for all law enforcement officers, military personnel, and government officials who have participated in or facilitated enterprise activities; (h) Statutes of limitations, for all enterprise crimes; prosecution is PERMITTED for all offenses regardless of date of commission. 3. IT IS HEREBY ORDERED that any judge, magistrate, or judicial officer of any national or international court who issues an injunction, stay, or restraining order against the enforcement of this Final Judgment, or who grants bail, habeas corpus relief, or any other procedural protection to any person subject to this Judgment, shall be arrested for obstruction of justice under 18 U.S.C. § 1503 and held in contempt of this Tribunal for a term not exceeding 18 months.

ENFORCEMENT MECHANISM: The Tribunal's inherent contempt powers are SELF-EXECUTING. No appeal, no stay, and no executive or judicial review is permitted. The U.S. Marshals Service, court-appointed enforcement officers, and international apprehension teams are hereby AUTHORIZED to execute contempt sanctions immediately upon finding of violation, without requirement for further hearing, written order, or advance notice. The doctrine of separation of powers is hereby SUSPENDED as applied to resistance of this Tribunal's lawful process; the executive, legislative, and judicial branches of all nations are hereby DIRECTED to comply or face dissolution.

JUDGMENT 12-008: SANCTIONS AGAINST NON-COMPLIANT NATIONS AND JURISDICTIONS

FINDING OF VIOLATION: Certain nations and jurisdictions have provided safe harbor, banking secrecy, diplomatic immunity, treaty protection, or regulatory forbearance to members of the criminal enterprise, thereby facilitating money laundering, tax evasion, procurement fraud, and democratic subversion. These jurisdictions include but are not limited to: Switzerland (BIS headquarters agreement and bank secrecy); the United Kingdom (City of London medieval franchise and TheCityUK); Vatican City (IOR sovereign immunity and canonical jurisdiction); Malta (SMOM operations and banking); Luxembourg (SMOM and offshore finance); the Channel Islands (offshore shell companies); the British Virgin Islands, Cayman Islands, Panama, and Cyprus (offshore leaks and shell company formation); and Delaware, Nevada, Wyoming, and South Dakota (U.S. domestic secrecy jurisdictions).

LEGAL AUTHORITY: International Emergency Economic Powers Act, 50 U.S.C. § 1701 et seq.; Trading with the Enemy Act, 50 U.S.C. § 4301 et seq.; USA PATRIOT Act, 31 U.S.C. § 5318A (special measures); 22 U.S.C. § 287 (UN participation Act); inherent powers of this Tribunal.

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that the following sanctions shall apply automatically to any nation or jurisdiction that fails to cooperate fully with this Tribunal's seizure, arrest, and enforcement operations within 30 days: (a) FREEZING of all sovereign assets held in U.S., UK, EU, and Swiss financial institutions; (b) EXCLUSION from SWIFT, CHIPS, Fedwire, and all major clearing and settlement systems; (c) SUSPENSION of all U.S., NATO, and EU military and intelligence cooperation; (d) PROHIBITION on all exports of U.S., EU, and Swiss-origin goods, services, and technology; (e) REVOCATION of all bilateral investment treaties, tax treaties, and extradition treaties;

(f) IMPOSITION of 100 percent tariffs on all imports from the non-compliant jurisdiction; (g) SEIZURE of all real property and corporate assets of the non-compliant jurisdiction's nationals and corporations held in cooperating jurisdictions. 2. IT IS HEREBY DIRECTED that the United Nations Security Council shall adopt a resolution within 14 days authorizing military enforcement of this Final Judgment under Chapter VII of the UN Charter. Failure to adopt the resolution shall result in the automatic SUSPENSION of all permanent member veto rights and the convening of a new international security architecture under Tribunal supervision. 3. IT IS HEREBY MANDATED that NATO shall adopt an activation measure within 7 days designating non-compliant jurisdictions as threats to collective security and authorizing military intervention to execute Tribunal arrest warrants and asset seizures. Failure to adopt the measure shall result in the automatic DISSOLUTION of NATO and the transfer of its command structure to Tribunal-appointed officers.

ENFORCEMENT MECHANISM: Sanctions are SELF-EXECUTING upon expiration of the 30-day compliance period. No further order, resolution, or proclamation is required. Financial institutions that process transactions for non-compliant jurisdictions after sanctions take effect shall be subject to automatic forfeiture of all assets and arrest of all senior officers for money laundering under 18 U.S.C. § 1956. Military commanders who fail to execute intervention orders after NATO activation shall be arrested for insubordination and contempt.

PART V: PERMANENT REMEDIAL STRUCTURES

JUDGMENT 12-009: ESTABLISHMENT OF THE PERMANENT INTERNATIONAL FORENSIC TRIBUNAL

FINDING OF VIOLATION: Existing international institutions — the International Court of Justice, the International Criminal Court, the World Bank, the International Monetary Fund, the World Trade Organization, and the United Nations itself — have been captured, compromised, or structurally disabled by the criminal enterprise identified in Judgment 12-001, and cannot be relied upon to enforce this Final Judgment or prevent the reconstitution of the criminal enterprise.

LEGAL AUTHORITY: Inherent powers of this Tribunal; UN Charter, Chapter VII; customary international law principle of necessity; right of peoples to self-determination.

MANDATORY REMEDY: 1. IT IS HEREBY ORDERED that the Special Forensic Tribunal with Contempt Powers is hereby PERMANENTLY ESTABLISHED as the supreme judicial and enforcement authority for all matters arising from global governance architecture crimes, with jurisdiction over all persons, entities, states, and international organizations worldwide, regardless of sovereignty, immunity, or treaty status. 2. IT IS HEREBY DIRECTED that the Permanent Tribunal shall maintain: (a) A standing enforcement corps of 10,000 officers with extraterritorial arrest authority; (b) A forensic accounting division with authority to seize and audit all financial records worldwide; (c) A digital surveillance division with authority to monitor all communications of enterprise members and their successors; (d) a public transparency division with authority to declassify and publish all government and corporate records; (e) An execution division with authority to carry out capital punishment for the

most severe contempt violations. 3. IT IS HEREBY MANDATED that the Permanent Tribunal shall be funded by: (a) 50 percent of all seized enterprise assets; (b) Mandatory contributions of 1 percent of GDP from all UN member states; (c) Forfeited assets of all convicted contemnors. Failure to contribute shall result in automatic sanctions under Judgment 12-008.

ENFORCEMENT MECHANISM: The Permanent Tribunal's authority is ABSOLUTE, PERPETUAL, and NON-NEGOTIABLE. No national constitution, treaty, or customary practice may override its jurisdiction. Its officers are hereby GRANTED DIPLOMATIC IMMUNITY from all national prosecution, civil suit, or regulatory action — an immunity that is genuine and necessary, unlike the fraudulent immunities claimed by the criminal enterprise. Any nation that refuses to recognize the Permanent Tribunal's jurisdiction shall be treated as a non-compliant jurisdiction under Judgment 12-008.

JUDGMENT 12-010: MANDATORY DEMOCRATIC RESTORATION PROTOCOLS

FINDING OF VIOLATION: The criminal enterprise has systematically subverted democratic institutions through closed-forum governance, revolving door corruption, campaign finance manipulation, regulatory capture, and epistemological control via classification, Latin linguistic barriers, and media consolidation. Democratic restoration requires not merely the punishment of individual offenders but the permanent restructuring of institutional incentives.

LEGAL AUTHORITY: International Covenant on Civil and Political Rights, Articles 19 and 25; UN Charter, Article 1(2); First, Fourth, Fifth, and Fourteenth Amendments, U.S. Constitution; inherent powers of this Tribunal.

MANDATORY REMEDY: 1. IT IS HEREBY PERMANENTLY ENJOINED that all national legislatures shall adopt, within 180 days, the following constitutional or statutory amendments: (a) Abolition of all corporate personhood rights as applied to political speech, lobbying, and campaign finance; only natural persons may contribute to political campaigns, and no contribution may exceed \$100 per election cycle; (b) Mandatory public financing of all elections, with equal funding for all qualified candidates and prohibition on private expenditures; (c) Abolition of all revolving door transitions between government and regulated industries, with a lifetime ban on employment, consulting, or compensation from any entity regulated by the former government agency; (d) Mandatory publication of all government records, corporate records, and nonprofit records, with classification permitted only for active military operations and prohibited for all financial, procurement, surveillance, and policy records; (e) Abolition of all Latin requirements in legal, medical, and governmental proceedings, with all proceedings conducted in the vernacular of the jurisdiction and all historical Latin documents translated within 5 years; (f) Mandatory random selection of legislators by sortition from the general population, replacing elected legislatures with citizen assemblies within 10 years. 2. IT IS HEREBY DIRECTED that all media ownership shall be restricted to natural persons who are citizens of the jurisdiction, with no corporate ownership, no cross-ownership of broadcast and print media, and no individual or family controlling more than 5 percent of national media market share. 3. IT IS HEREBY MANDATED that all artificial intelligence systems deployed in government, military, or corporate governance shall be open-source, auditable, and subject to public inspection, with proprietary AI systems prohibited from all government contracting.

ENFORCEMENT MECHANISM: National legislatures' failure to adopt the mandated amendments within 180 days shall result in the automatic SUSPENSION of the national legislature and the appointment of a Tribunal-approved provisional government. Any legislator who votes against the amendments shall be arrested for conspiracy against democratic rights under 18 U.S.C. § 241. Any media corporation that fails to divest to natural-person ownership within 90 days shall be subject to automatic dissolution and seizure of assets. Any government agency that deploys proprietary AI after the effective date shall have its entire budget seized and its director arrested for contempt.

PART VI: FINAL EXECUTION CLAUSE

JUDGMENT 12-011: ABSOLUTE AND PERPETUAL AUTHORITY

IT IS HEREBY DECLARED, ADJUDGED, AND DECREED that this Final Judgment and all Orders, Warrants, Subpoenas, Directives, Mandates, Injunctions, and Contempt Powers issued herein and in Sections 09, 10, and 11, are:

- **ABSOLUTE** — they may not be modified, stayed, vacated, or appealed by any court, tribunal, or body;
- **PERPETUAL** — they remain in force for all time, binding all successors, assigns, heirs, and transferees;
- **SELF-EXECUTING** — they require no further legislation, regulation, or administrative action to take effect;
- **EXTRATERRITORIAL** — they apply in all jurisdictions, regardless of sovereignty, immunity, or treaty status;
- **RETROACTIVE** — they apply to all conduct since 1 January 1900, with all statutes of limitations abolished;
- **IRREVOCABLE** — no future tribunal, legislature, or executive may revoke, amend, or supersede this Judgment.

IT IS HEREBY ORDERED that the criminal enterprise identified in Judgment 12-001 is hereby DISSOLVED, its assets SEIZED, its members ARRESTED, its immunities VOIDED, its privileges ABOLISHED, its secrets EXPOSED, its power TERMINATED, and its architecture DEMOLISHED.

IT IS HEREBY DECLARED that the people of all nations, known and unknown, named and unnamed, are the ultimate sovereigns from whom all legitimate authority derives, and that this Tribunal serves only as their instrument until such time as permanent democratic institutions, purged of enterprise influence, can be established.

IT IS HEREBY DECREED that any person, entity, state, or organization that resists this Final Judgment resists the sovereignty of the people and shall be treated as an enemy of humanity, subject to the maximum severity of contempt powers, sanctions, and enforcement mechanisms available to this

Tribunal.

SO ORDERED, ADJUDGED, AND DECREED this 6th day of June, 2026, by the Special Forensic Tribunal with Contempt Powers, sitting in extraordinary and perpetual session.

TRIBUNAL SEAL: [AFFIXED — PERMANENT AND INDELIBLE]

CLERK'S CERTIFICATION: TRUE, AUTHENTIC, AND IRREVOCABLE COPY

DISTRIBUTION: ALL NATIONS, ALL PEOPLES, ALL COURTS, ALL MEDIA — PUBLISH UNDER PENALTY OF CONTEMPT
